Roseana Burick took on the role of the Environmental Stewardship Business Line Manager and Natural Resource Manager with the HQUSACE Natural Resources Branch of the Operations and Regulatory Division effective 07 June 2020. Roseana is responsible for the Corps' Environmental Stewardship (ENS) Program, including coordination of the ENS program with MSCs and Districts; national budget development, evaluation, and justification; policy review and updates; strategic planning; and natural resources management remaining items. She is also the new proponent for Interpretive Services and Outreach.

Here is some biographical information to help everyone get to know Roseana.

Ms. Burick attended the State University of New York- College of Environmental Science and Forestry where she received a Bachelor's in Environmental Science, with concentrations in Water Sciences and Environmental Policy. In addition, she holds an Associate's in Paralegal Studies, and started her professional career as a paralegal for a commercial real estate development company.

Prior to coming to HQUSACE, Ms. Burick was the Chief of the Operations Section in the Louisville District's Technical Policy Branch. She supervised a team of seven highly qualified professionals who support 20 Lake Projects, 12 Locks and Dams, and one Wildlife Conservation Area in the natural resources program and contracting. She was the Flood Risk Management Business Line Manager and the functional BLM for Recreation and Environmental Stewardship, with an annual program totaling nearly $45 million. In addition, she served as the Deputy Chief of Operations for Rock Island District for three months, and the national Environmental Stewardship Business Line Manager for four months in 2018.

Ms. Burick served the St. Louis District from 2013-2016, coming from the Wilmington District's John H Kerr Reservoir where she served as a Natural Resource Specialist (Ranger)/ Outreach Coordinator from 2009-2013. While in St. Louis, Ms. Burick worked as a Natural Resources Special/ Program Manager in the Operations, Technical and Policy Branch. She managed many of the Corps' major recreation related programs for the field projects, including Interpretive Services, Water Safety, Partnerships, and Master Planning. She was also the secondary Recreation Business Line Manager.

For six months in 2015, Ms. Burick served in the Natural Resource Management Career Assignment Program at USACE Headquarters, supporting the Chief of Natural Resources and Deputy Chief of Operations. During her time there she spearheaded the publication of Engineer Circular 1130-2-550, Chapter 9 which included WRRDA 2014 implementation guidance, and associated standard operating procedures. She assisted with drafting new master plan policy guidance, coordinated with a federal interagency group on the launch of the Every Kid in a Park initiative, reviewed various policies involving the national recreation program, and responded to data/information requests from the Office of the Assistant Secretary of the Army for Civil Works and the Office of Management and Budget.

Ms. Burick has been recognized on multiple levels for her outreach efforts, work with volunteers, and emergency management since starting with the Corps. She also serves as a Subject Matter Expert for the Corps' Interpretive Services and Outreach Program, and was the Team Lead on WRRDA 2014 Section 1047(a) implementation guidance.
