Today's Presentation

- Introduce new Park Rangers to the NRM Gateway/refresher for veteran users
- Emphasis on the communication features, including social media
- Highlight communication improvements made by the Park Ranger CoP Advisory Board
- Hear your ideas about the Gateway

NRM Gateway Overview

Natural Resources Management Gateway

Home | Veterans | Lake Discovery | Recreation | ERM Compliance | ERM Stewardship | Partners | News/Events | People | Forums | Learning | GETS | Tools | New Postings | Submit | Index/Search

Arrows point from this box to the navigation tabs at the top of the page.

Tabs take you to major components and INDEX/SEARCH

Arrows point from this box to the 'Communities of Practice' section on the left side of the page.

CoPs – Direct Link to Park Ranger CoP page

Arrows point from this box to the 'Did you Know?' and '2014 NRM Awards' sections in the main content area.

Rotating highlights such as awards and Rec.Gov stories

Arrows point from this box to the 'NRM Gateway Glimpse' and 'Social Media' sections on the right side of the page.

Communication Section

The screenshot displays the NRM Gateway website with several key sections highlighted by callouts. At the top, navigation tabs include Home, Veterans, Lake Discovery, Recreation, ERM Compliance, ERM Stewardship, Partners, News/Events, People, Forums, Learning, GETS, Tools, New Postings, Submit, and Index/Search. The left sidebar contains 'Communities of Practice' (with a link to Park Ranger CoP), 'Business Processes', and 'The NRM Gateway'. The main content area features 'Did you Know?' statistics, '2014 NRM Awards', and 'Recreation Stories from Our Lakes'. The right sidebar includes 'NRM Gateway Glimpse' and 'Social Media'. Below these are sections for 'Current Jobs and Notices for All', 'Natural Resources Specialist', 'Natural Resources Management Community Headlines', 'New Postings', 'Important News Items', 'Upcoming Events', 'Corps of Engineers News', and 'Gateway RSS Feeds'.

it.

External Applications

- For the Public
- For the Practitioner

The screenshot shows the 'Corps Lakes Gateway' website. At the top, it says 'Your gateway to fun at Corps Lakes!' and '370 million visits a year at 422 lakes in 43 states!'. Below this is a search bar with 'Select a State' and 'Select a Corps of Engineers Lake' dropdowns. The main content area is divided into several sections: 'Trip Planning' (Plan Your Trip, Corps Lakes Photo Album, Recreation.gov, USACE Recreation Brochures, Age & Disability Discount Passes), 'DOD Opportunities' (Gold Medal Award, Great Travel Deals, Lodging Travelers, Military Homefront, Military/Civilians on OCO Leave), 'Happenings Around the Lakes' (USACE National Recreation Strategy, National Public Lands Day - Sept 28, Great Outdoors, Take Me Fishing, Discover Boating, Healthier US), 'Become a Volunteer' (Corps Cleaninghouse, Volunteer Gov), 'Become a Partner' (Natural Resources Management Partnerships, Corps Foundation), and 'Educational Resources' (National Water Safety Program, Office of Boating Safety, Corps Education Center, White House for Kids). A map of the United States is displayed in the center, with an inset map of Alaska. To the right, there is a 'Find us on Facebook' section with two entries for 'Corps Lakes - U.S. Army Corps of Engineers' and a 'USACE Recreation Brochure - Enjoy Your National Lakes and Rivers' section with a 'View Brochure by State' link.

The screenshot shows the 'Recreation.gov' website for 'Lake Sidney Lanier, GA'. The top navigation bar includes 'FIND PLACES & ACTIVITIES', 'EXPLORE TRIP IDEAS', 'HELP & FAQ', and 'ABOUT US'. The main heading is 'Lake Sidney Lanier, GA' with 'US Army Corps of Engineers' below it. There are links for 'Log-In', 'Sign-Up', 'View Official Website', and 'View Map'. The main content area features a 'BACK TO SEARCH' button, an 'Overview' section, and a 'VISITOR PHOTOS' section with a 'Log-In to Upload Photo' link. A large image of a white egret is shown, with a 'Watchable Wildlife' label. Below the image, there is a 'MAKE A RESERVATION' section with links for 'BALD RIDGE CREEK >', 'BOLDING MILL >', 'DUCKETT MILL >', 'OLD FEDERAL >', 'SAWNEE >', 'VAN PUGH SOUTH', and 'CAMPGROUND >'.

CoPs are the People

Community of Practice in the Corps

“is a group of people who regularly interact to collectively learn, solve problems, build skills and competencies, and develop best practices around a shared concern, goal, mission, set of problems, or work practice.”

“Ideally, every USACE team member will be a member of at least one CoP”

ER – 25-1-8

Park Ranger Notes

This site serves the U.S. Army Corps of Engineers Park Ranger Community of Practice (CoP). Park Rangers are the professional uniformed team members (including but not limited to 0099, 0025, 0028, 0400 job series) who perform, manage, or supervise work in the stewardship of Federal lands, waters, and park resources at Corps operated and maintained water resources projects. (See [excerpt](#) from Career Video, [Full Video](#).) Functions include but are not limited to park management; natural, historical, and cultural resource management; watershed management; endangered and/or special status species management; flood risk management; real property and shoreline management; environmental compliance practices; asset management; visitor assistance; safety; infrastructure surveillance and protection; and the development of interpretive and recreational programs for the benefit of the public. Park Rangers are leaders in both emergency response and community outreach. Park Rangers are the Corps' face to the nation and may be the only contact the public has with the agency.

This site contains beneficial information for every park ranger, from the new hire to the seasoned veteran, which will help enhance professionalism. Your CoP is supported by a Park Ranger CoP Advisory Board (see [charter](#)). This workforce is part of two broader CoPs: Natural Resources Management (NRM) and Operations & Regulatory. You are encouraged to utilize, share and contribute to the [NRM Gateway](#) as well as the [Operations & Regulatory Gateway](#) - this is your [Community of Practice](#).

Park Ranger CoP Advisory Board

On 3 October 2007 a [CECW-CO-N memorandum](#) announced the formation of an Advisory Board to develop and administer a formal Community of Practice (CoP) that serves USACE Park Rangers. On 24 March 2008, a [CECW-CO-N memorandum](#) made initial board appointments and provided a draft charter. The [original charter](#) was adopted by the Advisory Board on 9 July 2008. The current [charter](#) was adopted in June 2011.

The objective is to develop and administer a Community of Practice, and the goal is to provide for a unified and on-going support platform for the USACE Park Ranger. The purpose is to advance the technical and leadership skills of USACE Park Rangers and empower them to accomplish professional Park Ranger duties in an agency-of-choice work environment; to develop and implement a plan for Park Ranger program sustainability which ensures that the Park Ranger is appropriately positioned for the future; to develop and implement plans and tools to communicate with and educate others about the current roles of the Park Ranger; and to develop and implement a plan of action to address any barriers to internal or external recognition and support of expanding Park Ranger roles across all business lines.

The screenshot shows a web browser window titled "Park Ranger SmartBook - Windows Internet Explorer". The page header includes a hat icon and the text "Park Ranger SmartBook". Below the header are two dropdown menus: "Select a Lake/Lock" and "Select by Office", followed by a search box and a "Go!" button. The main content area features a profile for "Thomas Ehrke", identified as "Park Manager". His contact information includes the email "Thomas.J.Ehrke@usace.army.mil", address "CESPK-CO-SM, Pine Flat Lake, 27295 Pine Flat Road, Piedra, CA 93649", and phone/fax numbers "(559) 787-2589" and "(559) 787-2773". A blue arrow points from the profile information to a list of actions on the right: "NRM SmartBook", "Instructions", "Print Friendly Version", "Edit this Listing", "Delete this Listing", and "Add a New POC". Below the profile, there is a section for "Project Development Teams (PDT)" with a link "Add to or Edit Professional Organizations". At the bottom of the page, there is a "Close Window" link and a "Technical Problems Updated May 2014" notice. The NRM SmartBook logo is in the bottom right corner. The browser's taskbar at the bottom shows the Windows Start button, several application icons, and the system tray with the date "5/1/2014" and time "10:48 AM".

Lori Brewster

Recreation Technical Coordinator, NRM Gateway
Park Manager, Green River Lake

Lori coordinates the flow of information into the Gateway that comes from the recreation business line. She monitors SME content and works with SMEs to ensure that Gateway content, including GETS and Lessons Learned, stays current and relevant.

After more than 10 years of work on the Gateway, Lori took on the role of Technical Coordinator in 2014. She works closely with [Ginny Dickerson](#) and [Bonnie Bryson](#) to keep the Gateway and it's thousands of pages, links and other content up to date.

Lori started with the Corps in 1997 as a ranger at Carr Creek Lake in Eastern Kentucky.

Lori's favorite part of her job as Technical Coordinator is to introduce new rangers to the Gateway. "Rangers have access on the Gateway to almost every piece of information they need to do their jobs," she said. Lori presents on the Gateway to Visitor Assistance trainings and will begin a webinar series this year.

Brewster holds a radio-collared bobcat seen while monitoring bobcat population at Green River Lake.

Part 1a - Project Area Information for FY14 We recognize that not all years are typical and you will have an opportunity to explain special circumstances.

Round numbers to the nearest dollar, do not use dollar signs or commas in columns 3 or 4, do not use % sign in column 4b

| Area | 1. Enter amount of NON NRRS fee collections deposited for FY14 | 2a. Enter total gate attendant contract cost at this area | 2b. What percent of gate attendant duty time is spent working directly in the NRRS "Field Manager Program" (do not use % sign) | 3a. Enter other O&M service contract costs at this area (to the nearest dollar). Do not include gate attendant costs reported in column 2a | 3b. Enter utility costs at this area (to the nearest dollar) | 4. Enter name of the nearest Corps or non-Corps recreation area with similar opportunities (if not at this project, include full name - i.e. Rec Area Name, Lake or Park Name) | 5. Select road miles to nearest similar park designated in column 4 | 6. Select managing agency of the nearest similar park designated in column 4 |
|-------------------|--|---|--|--|--|--|---|--|
| INDIAN BAYOU EAST | 0 | 0 | 0 | 0 | 0 | N/A | No Selection | No Similar Park |
| Total | | 0 | 0 | 0 | 0 | 0 | | |

STEP 1 - Update Area Information

Part 1b. NRRS Data Review
Review the following data, pulled from the most recent full year NRRS Occupancy reports, and make changes if necessary based on the FY selected in column 1 of Part 1a. **Note that Area NRRS data will NOT be modified by users this year and are kept at the FY12 level based on last year's Rec-Status data input.**

| Area | NRRS Site Days Available | NRRS Site Days Occupied |
|-------------------|--------------------------|-------------------------|
| INDIAN BAYOU EAST | 0 | 0 |

Reported data is generated by NRRS system.

Discussion Topic: Campground Management

Posted 3/16/15 by joshua.f.burkhead@usace.army.mil
Printers/CC reader with NRRS compatibility

Im looking for advice on printers and credit card readers that are compatible with NRRS and government computers for our host booths. It is my understanding that because these devices are not connected to the network; ACEIT does not furnish equipment or technical support for hosts booths that run off of Hughesnet.

Any success or failure information is greatly appreciated. Joshua.F.Burkhead2@usace.army.mil 707-467-4236

Posted 3/16/15 by

It is supported by ACE-IT, they have specific OS images for NRRS computers. NRRS equipment is on the ACE-IT OrderTrak website:
<https://aceit.usace.army.mil/support/Lists/APList/EndUserEquipment.aspx> You can't order it from there yet, but the specs are there.

Pollinators

Did you know that June 15-21 is National Pollinator Week? Eight years ago, the Pollinator Partnership initiated and the US Senate approved the designation of a week in June as "National Pollinator Week" to highlight the importance of pollinators. Recent losses of honey bees and other pollinators such as birds, bats, and butterflies are an ecological as well as an economical problem that requires Federal agencies to increase efforts for their protection. In June 2014, President Obama issued a memorandum directing federal agencies to take steps to protect and restore pollinator populations. The National Strategy to Promote the Health of Honey Bees and Other Pollinators was issued in May 2015. Through the actions outlined in the Strategy, which includes the US Army Corps of Engineers Pollinator Protection Plan, and by working with partners across our country, we can and will help restore and sustain pollinator health nationwide.

New pages have been developed and are now posted under the Environmental Stewardship portion of the NRM Gateway that provide information about the Strategy and the USACE Pollinator Protection Plan. Visit the Pollinator Protection and Enhancement Gateway page at <http://corpslake.s.usace.army.mil/employees/pollinator/pollinator.cfm>.

Recreation

Recreation

[Headquarters POC](#)

The vision of the Corps' Recreation Program is to plan and manage quality outdoor recreation opportunities in a safe and healthful manner for diverse populations on a sustainable basis resulting in benefits to individuals, communities, the environment and the economy.

This page is for the Recreation Community of Practice. Recreation is one component of the knowledge management based NRM Gateway. If you would like to get involved, procedures for field participation are in place. At the bottom of each topic area's cover page, the name of the identified [Content Subject Matter Expert \(SME\)](#) is listed. If you are interested in assisting with content development for that area, contact the SME directly. If no SME is listed, there is an opportunity to [volunteer for that position](#).

Environmental Stewardship

The US Army Corps of Engineers is the steward of nearly 12 million acres of public lands and waters. The mission of the program is to manage and conserve natural resources consistent with ecosystem management principles, while providing quality public outdoor recreation experiences to serve the needs of present and future generations. The management of natural resources by utilizing a stewardship concept ensures the conservation, preservation, or protection of Corps land and water resources.

This page is for the Environmental Stewardship Community of Practice. Environmental Stewardship is one component of the knowledge management based NRM Gateway. If you would like to get involved, procedures for field participation are in place. At the bottom of each topic area's cover page, the name of the identified Content Subject Matter Expert (SME) is listed. If you are interested in assisting with content development for that area, contact the SME directly. If no SME is listed, there is an opportunity to volunteer for that position.

Pollinators

Pollinator Protection and Enhancement

The U. S. Army Corps of Engineers promotes an ecosystem management approach to environmental stewardship. This management philosophy includes conservation, preservation and restoration of the lands and waters entrusted to the Corps, as well as those under its regulatory authority. Recent losses of honey bees and other pollinators such as birds, bats, and butterflies are an ecological as well as an economical problem that requires Federal agencies to increase efforts for their protection.

Pollinators are critical to our Nations economy, food security, and environmental health. Honey bee pollination alone adds more than \$15 billion in value to agricultural crops each year. Through the actions outlined in the [National Strategy to Promote the Health of Honey Bees and Other Pollinators](#) which includes the [US Army Corps of Engineers Pollinator Protection Plan](#), and by working with partners across our country, we can and will help restore and sustain pollinator health nationwide.

Partnerships

[Headquarters POC](#)

[Partnerships Pages Quick-finder Index](#)

In today's financial environment PARTNERING is an essential tool that allows the U.S. Army Corps of Engineers to effectively manage recreation and environmental resources. In order to successfully meet our recreation and stewardship missions, and to foster shared values, vision, and a sense of ownership it is imperative that we work together with state governments, Native American tribes, private/public organizations, local communities, and other partners to maintain or advance programs from wildlife protection and habitat improvement to recreational facility enhancements.

Partnering helps to pool scarce resources, to promote coordinated, focused, and consistent mutual efforts to resolve common problems and missions, and to avoid unnecessary duplication of effort. The NRM Program has embraced this reality and is committed to fully exploring the potential development of new public-private partnerships to leverage limited appropriated funds and human resources.

This page will help you determine the [right tools for your partnerships](#), [find the right training to expand your knowledge](#), and [learn from the successful efforts of your peers](#). You will find answers to longstanding questions and discover how to effectively utilize important partners such as the [Corps of Engineers Natural Resources Education Foundation](#). The bottom line: **partnering is smart business**.

Gateway 101

- [Print copy for Handout](#)

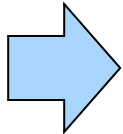

NRM Gateway
The NRM Gateway is a knowledge management based website that provides Corps staff with information about recreation, environmental stewardship, and communication.

The NRM Gateway has several tabs. Each tab has a different purpose. The tabs are:

- Visitor Page (aka Lake Discovery)**
The Corps Lake Discovery page provides information about lakes and reservoirs and is a great resource for the visitor. This content is available on the NRM Gateway.
- Communities**
In addition to the NRM Gateway, there are several other communities of interest. These include:
- Park Ranger CoP SmartBook**
This site serves as a directory of Park Ranger professionals in the Corps.

SmartBooks: SmartBooks are electronic directories that make it easier to connect with others in your respective CoPs. In order to be useful, it is necessary for SmartBooks to be accessible from an official (army.mil) computer.

- [Park Ranger CoP SmartBook](#)
This is currently a separate SmartBook from the broader NRM SmartBook and contains only individuals meeting the Park Ranger CoP definition.
- [NRM CoP SmartBook](#)
This resource is designed to facilitate communications between Corps of Engineers field staff responsible for all NRM program areas. All Park Ranger

Can use this handout as a checklist to help new employees sign up for all the Gateway communication tools.
