## **Best Practices & Lessons Learned: MSC Innovative Cases of Environmental Collaboration & Conflict Resolution**

### **MODERATOR:**

Maria T. Lantz  
Collaboration Specialist  
Collaboration & Public Participation Center of Expertise (CPCX)  
Institute for Water Resources, U.S. Army Corps of Engineers

### **PANELISTS:**

Dan Artho, Chief, Environmental Planning, Sacramento District  
Outreach program for the Folsom Dam Joint Federal Project Water Control Manual Update: Complex stakeholder engagement for a Corps mega project using the Center for Collaborative Policy as a third party facilitator.

Kenton Spading, Project Manager, Regulatory Branch, Technical Services Section, St. Paul District  
IDIQ contract awards for Tribal facilitation services related to ECCR objectives and developing internal programmatic ECCR guidance for a Tribal Consultation and Communication Strategy Report.

Michael Hayduk, Chief, Applications Section II, Regulatory Branch, Philadelphia District  
NJ Joint Permit Processing meeting: Regulatory Division monthly meeting attended by federal and state agencies where applicants present their proposed project for agency comment. Planning Division also presents proposed District projects to resource agencies, avoiding costly delays by seeking input early.

Drew Reckmeyer, Chief, Environmental Remediation Branch, Omaha District  
Atlas D Missile Site 4 Public Participation efforts: cooperation with EPA and Wyoming Department of Environmental Quality to conduct four training sessions for the public and Restoration Advisory Board through EPA's Technical Assistance for Public Participation Program.
