

## Ken Wagner, PhD

Manager and President,  
Water Resources Services Inc.

### **Bio:**

Dr. Wagner earned his Ph.D. in Natural Resource Management in 1985. He has over 40 years of experience working on lake, reservoir, river and watershed assessment and rehabilitation. In 2010 he started Water Resource Services, a small company with a focus on water supply protection and lake management consulting. He is a former President of the North American Lake Management Society and former Editor in Chief of Lake and Reservoir Management, a peer-reviewed journal.

## John H. Rodgers, Jr., Ph.D.

Professor Emeritus  
Forestry and Environmental Conservation,  
Clemson University

### **Bio:**

Dr. Rodgers has been conducting research on water resources and HABs for more than four decades at Clemson University, University of Mississippi and University of North Texas. Control tactics that he and his students have evaluated for use for planktonic and benthic algae (prokaryotes and eukaryotes) have included chemical, physical and mechanical. Recent activities have focused on field studies confirming the efficacy of strategies for managing HABs.
