# 1st Annual USACE Agency-Wide *Virtual* GIS Day
## ~ 19 November 2008 ~

### * Celebrating the 10th Annual GIS Day Around the World *

## Virtual Presentations of GIS Success Stories Throughout the Corps
## * Presented by GIS Professionals and Project Managers *

| Time | Presenter | Description |
|------|-----------|-------------|
| 0900 - 0930 | **Tom Rodehaver**<br>**NAD / Europe District** | Site selection analysis & initial design using GIS, terrain data and force protection offsets provide optimum sighting locations throughout Europe. |
| 0930 - 1000 | **Klay Williams**<br>**SAD / Mobile District** | Dredge Material Management Application is a web based tool to manage Corp dredging activities through interactive maps and graphs. |
| 1000 - 1030 | **Joel Schlagel, PM  (IWR)**<br>**RS/GIS CX/National CorpsMap** | CorpsMap is the Corps' new GIS workhorse and is unlocking over 4300 geospatial data sets to all Corps employees and is expanding everyday! |
| 1030 - 1100 | **Rose Dopsovic**<br>**SAD / Mobile District** | Utilizing GIS and 3-D structural views provide Engineers, Scientists and Program Managers with unique insights into coastal jetty projects. |
| 1100 - 1130 | **Matt Walsh**<br>**NAD / New England District** | Massachusetts Military Reservation:  GIS gives the Corps and local partners unique insights into soil contaminants and mitigation options. |
| 1130 - 1200 | **Terry Siemsen**<br>**LRD / Louisville District** | Gustav, Hannah, Ike - Oh My! Emergency Mgmt utilizes GIS and Hurricane Modeling to predict extent of damages for response and recovery. |
| 1200 - 1230 | **Lauren LeCren /  Bob Heselton**<br>**SWD / Fort Worth District** | Infrastructure and Fence construction uses GIS integrated with P2, RMS, and SAP to track miles completed, current project status and financial info - plus a tool to generate briefing information! |
| 1230 - 1300 | **Eric Morrison**<br>**NWD / Omaha District** | Tribal Nations and Omaha District partner to collect and maintain valued Cultural Resources data exposed by extreme drought  conditions. |
| 1300 - 1330 | **Nancy Blyler**<br>**HQUSACE** | The National Geospatial Proponent will provide insight into various Enterprise GIS initiatives and the value of linking your GIS data to CorpsMap. |
| 1330 - 1400 | **Jason Sheeley**<br>**NWD / Kansas City District** | Data Management Plans are REQUIRED for each PgMP. What every Project Manager should know about DMP's and how they can add value! |
| 1400 - 1430 | **Byron Williams**<br>**MVD / St Paul District** | Wetland restoration proposals come to life as a result of utilizing GIS technology to data model various proposals for the Painter Creek Project. |
| 1430 - 1500 | **Paul Cedfeldt**<br>**NWD / Portland District** | New Hydrosurveys in 1 Minute versus 8 Hours by transitioning hydrosurvey charts generation from CAD to GIS utilizing ArcGIS ModelBuilder. |
| 1500 - 1530 | **Jason Sheeley**<br>**NWD / Kansas City District** | Preserving Eagle Habitat, Ecosystem Health and Multi-Sensor Fusion Work Flow combine GIS type technologies along the Missouri River. |
| 1530 - 1600 | **John Peterson**<br>**SPD / Albuquerque District** | Connecting GIS data and Corps documents in an enterprise environment - point and click - and get all the documents related to geographic locations! |
| 1600 - 1630 | **Doug Swanson**<br>**NWD / Portland District** | Civil/Military Emergency Preparedness program incorporates GIS skill development applications with developing Nations to improve EM planning &  response throughout Europe and the world. |

| | | |
