

DEPARTMENT OF THE ARMY
U.S. ARMY CORPS OF ENGINEERS
441 G STREET NW
WASHINGTON, D.C. 20314-1000

CECW-CO

S: 7 March 2005
FEB 23 2005

MEMORANDUM FOR COMMANDERS, MAJOR SUPPORT COMMANDS,
ATTN: CHIEFS OF OPERATIONS

SUBJECT: List of Civil Works Operating Projects with Environment-Stewardship Responsibilities

1. Purpose of this data call is to create a preliminary record of all Civil Works (CW) operating projects that have Environment-Stewardship (E-S) responsibilities. The classification of a project as one with Environment-Stewardship responsibilities will assist us in understanding the universe of U.S. Army Corps of Engineer projects. The record will also be used to help populate the listing of projects considered in our development of *E-S Best* - a budget work-package ranking tool patterned on *REC-Best* - but for the development of the Environment-Stewardship budget. (Note - the identification of projects with Environment-Stewardship responsibility will be added as a data field in future updates of the OMBIL Environment-Stewardship module.)

2. Request that you review and amend to improve the enclosed list of projects within your Districts, for inclusion in the record of Environment-Stewardship projects. As a starting point, this listing includes those projects that were once tracked under the old Natural Resources Management System (NRMS) and any project included in the Fiscal Year (FY) 2006 CW Environment -Stewardship O&M budget proposal. The NRMS included those CW operating projects that met a specific threshold of recreation visitation. That group of projects may, or may not, have included all O&M funded CW projects for which the Corps has an environmental stewardship responsibility. To be considered an Environment-Stewardship project, all of the following criteria must be met:

- a. Project is a Civil Works, O&M funded, project that has an assigned CWIS number.
- b. Corps fee-titled lands (in access of the amount occupied by the footprint of project structures such as locks, dams, buildings) are associated with the project -and the Corps has administrative responsibility for those lands.
- c. Management activities that are consistent with the natural resources management concepts of stewardship (ecosystem management, forest and woodland management, fish and wildlife management, grassland management, wetland management, and soil management), mitigation or enhancement, as described in ER 1130-2-540 (Project Operations - Environmental Stewardship Operations and Maintenance Policies) may be conducted on those lands. Such

CECW-O

Subject: List of Civil Works Operating Projects with Environment-Stewardship Responsibilities

Stewardship funding in the past, or may be unmanned, or may be managed by another entity such a state agency, the Corps still has stewardship responsibilities. These projects should be included on the list. Also, a project with any of the above type management activities specified in the projects authorization(s) should be considered an Environment-Stewardship project.

3. If a project currently included in the attached list does not meet the criteria above – please return a strikeout of that information to request that the project be deleted from the record. Alternately, if a currently unlisted project should be included, please add it to the list (highlighting in color) to request that this project be added to the record. The project name, CWIS number, Division and District must be provided. **MSC should provide any requests for amendment by e-mail to Denise Y. White (HQUSACE) by 7 March 2005. Negative responses are also requested.**

4. To facilitate timely distribution and response, electronic copies of this memo, including enclosures, will be sent to all designated MSC level Natural Resources Management (NRM) points of contact (POC), with information copies to all District NRM POC. The HQ POC for this matter is Denise Y. White, CEMP-SPD.

FOR THE COMMANDER:

MICHAEL B. WHITE
Chief, Operations
Directorate of Civil Works
