For The Mississippi River Project

**US Army Corps  
of Engineers**  
Baton Rouge District

Richard Haggard Mississippi River Visitor Center	Gene & Betty Boyer Thomson Causeway
Chris Thompsen Burger's Hollow	Richard "Dick" J. Sullivan Dubouque Ranger Station

Long time volunteer Richard Haggard could often be seen helping visitors at the Mississippi River Visitor Center. In this photo he is seen helping his great grandson Perthen to see about flooding with his favorite bathtub display where he can raise his own floor.

For many years Richard Haggard was a friendly face assigned to thousands of visitors who walked through the doors of the Mississippi River Visitor Center. From 1988 until 2015, he was the volunteer who helped visitors learn about flooding with his favorite bathtub display where he can raise his own floor. He was a friendly face to many visitors and was always ready to help. He was a great role model for his great grandson Perthen. He was a great role model for his great grandson Perthen. He was a great role model for his great grandson Perthen.
