

ENS Gateway Update Meeting

Date: 24-25 JUL 2018

Location: Ft Hamilton, NY (NAD Office)

Attendees: Jeremy Crossland (HQ), Roseana Burick (IWR), Wen Chang (IWR), Ginny Dickerson (ERDC), Bonnie Bryson (ERDC), Amanda Palmer (SWT), Tara Whitsel (NAB), Lynn Neher (MVD), Rocky Millenbine (SAM), Mike Vissichelli (NAD)

Goals:

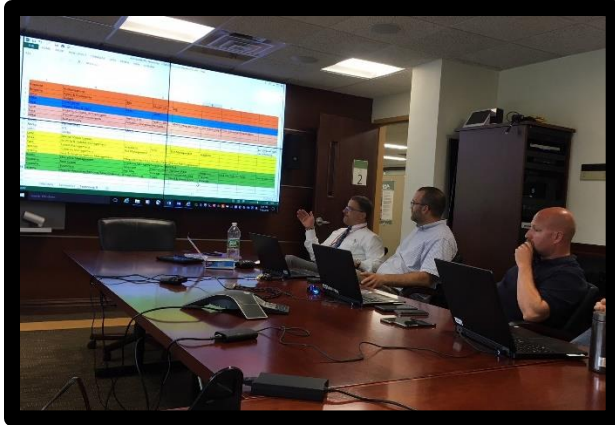

1. Suggested adjustments to the current ES Gateway content to enhance content and ease of use.
2. Recommendations on how to package ES products for maximum impact.
3. Identify "Subject Matter Experts" to help maintain content
4. Timeline of content development

Session Highlights:

The group's main work focused on improvements to the ENS page structure and taxonomy. Ginny and Bonnie presented an overview of Gateway and ENS page development history to help frame the group's update task. The group produced spreadsheets and documents capturing updated taxonomy, future task assignments, and names of subject matter experts to provide updated content. NAD Chief of Operations George Nieves joined the group for the opening briefing and the end-of-meeting out-briefing.

Accomplishments:

- Developed an integrated approach to restructure the ENS gateway hierarchy/ taxonomy to align with budget Work Category Codes, Engineer Regulation, and support the ENS 101 training program.
- Reorganized the home page of the ENS Gateway removing extraneous content to provide a logical flow that captures all aspects of the ENS program and provide a more robust user friendly resource to internal and external Gateway uses.
- Identified consistency and content issues within the existing Gateway Structure, and provided recommendations to modernize site layout.
- Refined several ENS Gateway pages, including removal of outdated content and ensured the suggested updates/ final products align with USACE Knowledge Management efforts.
- Identified the content managers for each program subject matter area of the ENS pages and assigned them to find additional SMEs to support content development
