

Waterless Cleaning Systems

Available Models

Clean. Drain. Dry. Dispose. CD³ Systems use behavioral science to empower the public to increase compliance with invasive species rules and regulations.

CD³ Station

Grid-connected, for unlimited use. Tools include wet/dry vacuum, air blower, tethered hand tools and LED lights. Unit has concrete base with 220 volt, 30 amp service required.

CD³ Wayside Solar

Solar powered for sites with roughly 100 boat visits per day. Fast install option is available with precast base.

CD³ Mobile Trailer

Mobile unit with ratchet down base, removable wheels and storage deck. Solar powered or recharge option with 120v smart charger.

CD³ Outpost

Tethered hand tools and solar powered lights. Best suited for smaller or overflow launch areas. A precast base is an option for quick, easy install.
