

MASTER PLANNING MODULE 2: ADMINISTRATIVE GUIDANCE

“The views, opinions and findings contained in this report are those of the author(s) and should not be construed as an official Department of the Army position, policy or decision, unless so designated by other official documentation.”

Key Concepts:

- Overarching Guidance
- Primary Applicable Regulations
- Use of ER/EP 1130-2-550

OVERARCHING GUIDANCE

- An approved Master Plan is needed before any new development, construction, or land use change can be pursued
 - Exceptions possible in special situations
 - Outgrantees' actions must be compatible with the Master Plan
- May cover a single or several projects
 - Within the same Watershed or Management Region – if appropriate
- Lead element responsible for MP development, review and revision is District Operations Division
 - Interoffice / Interdisciplinary team approach will be used
 - Coordination with other agencies and the public is integral to the process and is required under NEPA and other environmental laws

US Army Corps
of Engineers ®

PRIMARY APPLICABLE REGULATIONS

- ER/EP 1130-2-540: Environmental Stewardship
- ER/EP 1130-2-550: Recreation Operations and Maintenance Guidance and Procedures

All of these documents should be followed and considered together to develop and maintain effective MP's and OMP's

US Army Corps
of Engineers[®]

APPLICATION OF ER/EP 1130-2-550 VS. ER 1105-2-100

Compare Planning Guidance Notebook (ER 1105-2-100) to ER/EP 1130-2-550, Chapter 3:

- The Planning Notebook provides guidance for new projects. The creation of a MP for a new project should follow the format in ER/EP 1130-2-550, Chapter 3 and shall be a collaborative effort between Planning and Operations
- The Planning Notebook regulation does **NOT** provide guidance to address the specific requirements of supplementing or revising a Master Plan as set forth in ER/EP 1130-2-550
