Welcome

The Army Corps of Engineers is the steward of the lands and waters at Corps water resources projects. Its [Natural Resources Management \(NRM\) Mission](#) is to manage and conserve those natural resources, consistent with ecosystem management principles, while providing quality public outdoor recreation experiences, to serve the needs of present and future generations.

New users should take a minute to go through the "[Self-Guided Tour](#)" of the Natural Resource Management (NRM) Gateway" and should review the tab descriptions below.

Accessibility

Headquarters POC: Judy Rice

Accessibility is the term used to describe the requirement to provide access for all people to our programs and facilities. More than half of our visiting public and our employees will experience a permanent or temporary disability at some point in their lives. Public Law, Corps regulations and policies, as well as moral obligation demand that our programs and facilities be accessible to all people regardless of disabilities including mobility, hearing, sight and/or learning disabilities. Enter this page to find out more about why and how we make the Corps accessible.
