

**US Army Corps of Engineers**  
Sign Standards Program

**Safety Sign Matrix**  
(27 Aug 2024 Update)

**The Matrix:** All Authorized safety-related signs found in the USACE Sign Standards Program.

The Danger, Caution, and Warning safety sign legends highlighted below in red or yellow have been officially approved by the HQUSACE Office of Counsel and may not be altered.

If the wording of a safety critical sign is not appropriate to the condition being signed, follow the procedures outlined on page 1-13 of the Sign Standards Manual to request approval for a new or modified sign legend. Initiate the process in collaboration with your District Sign Program Manager, following the [approval procedures on the NRM Gateway](#). Do not order or install signs with modified legends prior to receiving official notification from the National Sign Program Manager.
