<b>Additional Items</b>	Women's formal wear - can we have an option other than skirts? POA
	Men's (unisex) cuts on several item - polo, coats, field clothing, etc. Would like women's cuts.
	Orange liners on some outer wear for use in traffic or event situations.

<b>Response or Action</b>
The contractor is working on a new design for all the womens trousers.
The committee did not recommend this at this time.

[illegible]

The duty trousers can also be worn with the formal uniform.
Unisex items are the result of negotiations between the Corps and the contractor several years ago. The cost of the program of keeping both men's and women's sizes was exorbitant. Unisex reduces the amount of inventory necessary and maintains fresh stock as items are changed or improved.
The committee feels it is more efficient for the employees to acquire the proper safety vest for this purpose.
