KATHY AND RON ROBERTS

North Atlantic Division

Kathy and Ron Roberts have been integral members of the volunteer team at West Hill Dam in Massachusetts for over five years. They patrol trails daily and restock dog waste stations year-round. Their regular presence on the trails provides other visitors with peace of mind and assists project staff in keeping apprised of trail conditions. Both Kathy and Ron are extremely welcoming and have become known for their approachability. They have also assisted with numerous events held at West Hill Dam including the annual Space2Thrive 5k, a non-profit event that supports adaptive sports opportunities. The couple have previously been awarded a volunteer coin in recognition of their many years of volunteer service.

CAROLYN BRESSETTE

Carolyn Bressette is a long-time friend of USACE. She is a local resident who was looking for a way to give back to a place she cherishes and decided to become a volunteer. She has assisted the Westville Lake project in Massachusetts in a variety of ways. This includes extensive planting/transplanting work that has improved the beauty of numerous areas of the project while preserving countless plants that would have otherwise been lost due to new construction.

Whether she is refinishing road gates, painting fences, or pruning shrubs, her attention to detail and pride shines through. Carolyn is a diligent worker and is willing to assist with a wide variety of tasks. Most importantly, she is a kind, caring person who always has a smile on her face. She is greatly appreciated!

plant care

plants and provides care for plants around the project

painter

refurbished gates & paints fences to allow USACE to focus on priority efforts

THANKYOU
To all of our volunteers
in the North Atlantic
Division!
