JERRY HILL

## Mississippi Valley Division

Jerry Hill has been a volunteer at Lake Greeson, located in Arkansas, for over 3 years with 3,744 hours, valued at nearly \$114,000. For many years, Jerry has been a regular camper at the Cowhide Cove campground. The Lake Greeson staff recognized his passion for camping and fishing and asked Jerry if he would be interested in volunteering. Jerry promptly accepted a campground host position. Jerry fishes most mornings before putting on his camp host uniform. Once on the job, he makes his rounds to check on campers, talk to visitors, pick up trash and report any maintenance needs to the USACE staff.

Jerry's love and dedication for Lake Greeson is evident in the passion and enthusiasm he possesses. His hard work and dedication have made a significant impact at Lake Greeson, in the Cowhide Campground, and with many visitors for whom he serves.

## JOE AND CAROL GALBRAITH

Joe and Carol Galbraith have been invaluable volunteers at Coralville Lake in Iowa, dedicating over 3,500 hours of service since 2019, saving the project \$107,000. Their primary focus has been Sugar Bottom Campground, which has 246 campsites and serves 60,500 visitors a year. They handle a variety of essential tasks including campground facility and campsite maintenance, trash collection, tree and bush trimming.

In addition to their routine duties, Joe and Carol take on special projects such as painting buildings and repairing recreation facilities, ensuring that the campground remains in top condition for visitors. Not only do the Galbraith's supply a vast amount of physical labor to the project but will often answer campers' questions and document suggestions throughout the year.

Their dedication and hard work have made a significant impact on the park, and we are grateful for their continued service and commitment to keeping Coralville Lake a clean and enjoyable environment for all!
