Subject: RE: MP ICAM to SPOCs --> Document Updates

ALCON,

Volunteers will no longer be issued a CAC. The VOLAC process is no longer supported by MP ICAM. Volunteers and other non-CAC personnel will receive a NEATS token instead. There are several non-CAC categories as seen in the attached. Select the one appropriate for your specific applications. Once the MP ICAM application is complete, someone will need to create a ServiceNow request for the volunteer/non-CAC personnel to obtain a NEATS token from an ISSO. Within the MP ICAM application, please choose the personnel category labeled Non Fed Agency PNL. The volunteer type will be N/A.

A few of you have been successful with the NEATS process. Please share your experiences with your colleagues. I am unable to see what occurs on the Sponsor, NEATS, or DEERS/RAPIDS side so I am honestly unaware of what actually happens during this process. The only information I have is attached and below. I do apologize as we all are learning through mishaps along the way.

NEATS:

"The NEATs request is automatically generated as part of a New Account request in ServiceNow for any type of account that requires one. The ISSO who approves the ticket handles the request, then the token is created by the ISSO assigned to the customer's district. When they get the token, the ISSO will provide instructions for activating it and changing the pin. The user will receive a login/password for their network account initially. Then they will login and associate the token with their account following the instructions that will be provided. Changing the pin isn't mandatory, but they'll get a random one from the ISSO and can change it to one of their choosing if they wish."

Very Respectfully,

GTK The NEATS Process

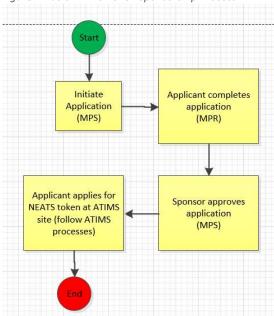

Sponsoring NEATS tokens is very similar to sponsoring CAC cards except for the following:

- 1. Only specific Personal Categories are available for NEATS (see Figure 3)
- 2. A NEATS can be issued with either vetting requirement in MP ICAM (see Figure 1)

Figure 1: NEATS Token Vetting Requirements

Figure 2:Basic NEATS Token Sponsorship Process

NEATS eligibility is dependent on the personnel category chosen by the MPAS/M. Figure 3 shows the personnel categories (left column) vs NEATS selection (top row light blue) for issuance.

Figure 3: Valid Personnel Categories for NEATS Tokens

The following table identifies the valid Personnel Category Codes an individual must have to be issued or sponsor an alternate token.

A - Active Duty
B - Presidential Appointee
C - DoD Civil Service
E - DoD Contractor
I - Othr Gov Agcy Empl
K - NAF DoD Employee
M - Non - gov Agcy Pnl
N - National Guard
O - Othr Gov Agcy Cntrct
R - Retired
T - Foreign Military
U - Foreign National
V - Reserve
W - DoD Beneficiary
Y - Civilian Retirees
