

NOMINATION
FOR
VOLUNTEER EXCELLENCE COIN

Glenn Mullen

After several seasons of dedicated service to the U.S. Army Corps of Engineers J. Strom Thurmond Project, Mr. Glenn Mullen returned with his wife for the winter 2023-2024 season. Having proven trustworthiness for independent work and project leadership, Mr. Mullen partnered with a ranger to lead the installation and finalization of 23 new Life Jacket Loaner Stations around the lake. He coordinated with other volunteers for labor assistance and communicated with rangers about supply needs. He also committed many, many hours on his own--persistent to promote the safety of visitors on and around the water as soon as possible. His work has made a lasting impact on the project and will contribute to innumerable lives saved.

Mr. Mullen has gone above and beyond the expectations of a USACE volunteer. His initiative and handwork is greatly appreciated and will be remembered for years to come. Therefore, Mr. Mullen is nominated for a Volunteer Excellence Coin.
