

Chuck and Debra Richards have had major impacts on the United States Army Corps of Engineers, at Stanislaus River Parks in the four years that they have volunteered. Accumulatively, Chuck and Debra have volunteered over 4,911 hours of their time. Chuck and Debra take the initiative to take on any project at Valley Oak Recreation Area, to include maintaining all recreation area facilities, trails, and bulletin boards. They often receive praise from visitors regarding the immaculate conditions of the grounds and the level of professionalism in which Chuck and Debra maintain during all interactions. While short staffed, Debra has been dependable and available when needed to cover the Information Center, resulting in constant availability to the public. Their support and dedication to USACE has created immeasurable positive impacts on the relationship between Stanislaus River Parks and those that come to enjoy it.
