

Volunteer Coin Nomination: Bob Wall

Bob Wall began volunteering at Waco Lake in January 2018 and has completed 1630 volunteer hours. Bob's work includes general maintenance, plumbing, mowing, tree trimming, and fixing equipment. Bob's service to Waco Lake is not just reflected in his work, but also in his positive attitude and demeanor. There is not a day that Bob comes to work without making someone smile. Bob has demonstrated great work ethic and has taken part in some large projects at the lake. Most recently, Bob has been a major contributor to the Waco Lake Handshake Partnership by clearing out unwanted and invasive vegetation in the new boat ramp area in Bosque Park. A lot of this work was performed in the heat of the summer, but Bob never complained. He was always happy and willing to work. Bob is a skilled laborer with equipment including chainsaw, pole saw, brush saw, mower, weed eater, backpack blower and pressure washer. Bob has helped to maintain 10 parks which house 200 sites. Bob is always willing to help out when needed even after hours and on weekends. I would like to present Bob Wall with a volunteer coin in appreciation of his service and quality of work that he provides for USACE.
