MAKING A DIFFERENCE

Volunteers play a valuable role in helping the U.S. Army Corps of Engineers (USACE) care for the environment and provide high quality recreation opportunities. Each year, people like you give their time, expertise, and resources to serve millions of visitors who enjoy USACE-managed lands and waters.

USACE is one of the nation's leading federal providers of outdoor recreation with more than 400 lake and river projects in 43 states, and stewardship responsibilities covering approximately 12 million acres of public lands and waters. Our volunteers are people who want to give back to their communities and are interested in the work of the USACE natural resources management program.

WHY VOLUNTEER?

People volunteer for many reasons. Some like the flexibility volunteering allows, while others want to make a difference, or want to gain new skills/experience.

WHAT CAN YOU DO?

You will become part of a team of more than a half million volunteers who, in the last decade, have served more than 15 million hours worth \$300+ million.

WHERE CAN YOU SERVE?

USACE lakes and river projects are located throughout the United States. Visit www.volunteer.gov to find an opportunity. Additional information about USACE lakes can be found at www.corpslakes.us.
