Forest Service, and Department of Energy (hereinafter called Federal Agencies), and the University of Tennessee and its partner institutions is a continuation for a five (5) year term of the existing agreement for the operation and maintenance of the Southern Appalachian Mountains Cooperative Ecosystem Studies Unit (CESU). This continuation of the Southern Appalachian Mountains CESU is implemented by mutual consent of the parties and is consistent with the prior agreement and the express intent of the request for proposals for that agreement. The Southern Appalachian Mountains CESU is associated with a national network of CESUs.
- B. The objectives of the Southern Appalachian Mountains Cooperative Ecosystem Studies Unit (CESU) are to:
- Provide research, technical assistance and education to federal land management, environmental and research agencies and their potential partners;
  - Develop a program of research, technical assistance and education that involves the biological, physical, social, and cultural sciences needed to address resource issues and interdisciplinary problem-solving at multiple scales and in an ecosystem context at the local, regional, and national level; and
  - Place special emphasis on the working collaboration among federal agencies and universities and their related partner institutions.
- C. The Bureau of Land Management (hereinafter called BLM) administers public lands within a framework of numerous laws. The most comprehensive of these is the Federal Land Policy and Management Act of 1976 (FLPMA). All Bureau policies, procedures and management actions must be consistent with FLPMA and the other laws that govern use of the public lands. It is the mission of the Bureau of Land Management to sustain the health, diversity and productivity of the public lands for the use and enjoyment of present and future generations (43 U.S.C. 1701 et seq.). In accordance with 43 U.S.C. 1737(b), the BLM is authorized to enter into a cooperative agreement to continue the Southern Appalachian Mountains CESU to assist in providing research, technical assistance and education.
- D. The U.S. Fish and Wildlife Service (hereinafter call USFWS) working with others, is responsible for conserving, protecting, and enhancing fish, wildlife, plants and their habitats for the continuing benefit of the American people through Federal programs related to migratory birds, endangered species, interjurisdictional fish and marine mammals, and inland sport fisheries. In accordance with 16 U.S.C. 742f, the USFWS is authorized to enter into the cooperative agreement to continue the Southern Appalachian Mountains CESU to assist in providing research, technical assistance and education.

- E. The U.S. Geological Survey (hereinafter called USGS) serves the Nation by providing reliable scientific information to describe and understand the Earth, minimize the loss of life and property from natural disasters, manage water, biological, energy, and mineral resources, and enhance and protect our quality of life. In accordance with 31 U.S.C. 6302 et seq., 16 U.S.C.1a-2j, 16 U.S.C. 5933 and Secretarial Order No. 3202, the USGS is authorized to enter into a cooperative agreement to continue the Southern Appalachian Mountains CESU to assist in providing research, technical assistance and education.
- F. The National Park Service (hereinafter called NPS) is responsible for the management of areas in the National Park System to conserve the scenery, the natural and historic objects, and the wildlife therein and to provide for the enjoyment of the same in such a manner and by such means as will leave them unimpaired for the enjoyment of future generations (16 U.S.C. 1 et seq.). In accordance with 16 U.S.C.1a-2j and 16 U.S.C. 5933, the NPS is authorized to enter into a cooperative agreement to continue the Southern Appalachian Mountains CESU to assist in providing research, technical assistance and education.
- G. The U.S.D.A. Forest Service (hereinafter called USDA FS) mission is to achieve quality land management under the sustainable multiple-use management concept to meet the diverse needs of the people (16 U.S.C 1641-1646). In accordance with 7 USC 3318 (b) the USDA FS is authorized to enter into a joint venture agreement to continue the Southern Appalachian Mountains CESU to assist in providing research, technical assistance and education.
- H. The U.S. Department of Energy's (hereafter called DOE) mission is to ensure the energy security of this nation, maintain the safety, security and reliability of the U. S. nuclear weapons stockpile, clean up the environment from the legacy of the Cold War, and support basic and strategic energy-related research and development, including environmental research in support of the Department's mission. In accordance with Public Law 95-91, The DOE Organization Act, the DOE is authorized to enter into a cooperative agreement to continue the Southern Appalachian Mountains CESU to assist in providing research, technical assistance, and education.
- I. The University of Tennessee, Knoxville (hereinafter called Host University) provides a large, diverse, and solid foundation of programs relevant to a comprehensive approach for the study, analysis and management of the Southern Appalachian Mountains ecosystem. UT Knoxville, as the main campus of Tennessee's State University and Land Grant institutions, serves the state, region, and nation through a broad spectrum of undergraduate, graduate and professional studies, research and creative activity, and public service.
- J. The partner institutions to the Host University include Appalachian State University, Florida A&M University, Lincoln Memorial University, Middle Tennessee State

University, Tennessee Technological University, University of Kentucky, Western Carolina University, Western Kentucky University, Great Smoky Mountains Conservation Association, Joint Institute for Energy and the Environment, Oak Ridge National Laboratory, and Southern Appalachian Man and Biosphere (hereinafter called Partner Institutions).

2. The results of any cooperative studies may be used in developing theses in partial fulfillment of requirements for advanced degrees and nothing herein shall delay publication of theses.
