OMBI

Why Good Data Matters

US Army Corps
of Engineers®

Good Data Tells the Corps Story

1. Partnerships help get work done that we may not otherwise have the capability to do.
2. Partnerships build community support for the Corps and our programs, which can be leveraged in many other ways.
3. Partnerships help support our requests for the recreation and ES budgets: They demonstrate that we have strong and robust NRM programs that should be financially supported in our budgets.
4. Partnership data helps build internal support for our programs all the way up the line.

Interest not just in what we do, but who we work with:

- Scout troops
- Tourism bureaus
- Youth service and conservation corps
- Outdoor recreation industry
- STEM-focused education groups

PARTNERSHIPS IN OMBIL

FY16 Partnership data in OMBIL: 1,672 partnerships with a total value of \$59.9 million (up from \$55.6 in FY14, \$50.8M in FY 13, \$28.4M in FY12, \$14.5M in FY11 and \$9.5M in FY10)

MVD (392) \$4.4M
NWD (261) \$44.1M
LRD (243) \$2.2M
SWD (190) \$1.97M
SAD (112) \$1.6M
SPD (104) \$2.0M
NAD (74) \$2.2M
HQ (12) \$1.2M
POD (5) \$30.2K

Partnerships in OMBIL

The Operations and Maintenance Business Information Link (OMBIL) was developed to provide a single location for data required to operate and manage the Operations function of the Corps. OMBIL contains modules for each business function, which currently include Navigation, Hydropower, Recreation, Environmental Stewardship, Environmental Compliance, Flood Risk Management, Water Supply, and Safety & Occupational Health. All business functions can be accessed through the [OMBIL Web page](#).

The Partnerships pages in OMBIL are currently located under the Recreation Business Function. Data Input Forms can be found in the Business Function Data Input screen, listed in the drop-down menu under "REC- Partnership Agreements" and Reports are listed in the drop-down menu under "REC- Partnership Detail Report." Access to the Data Input Forms requires special permissions through the OMBIL administrator. Reports can also be accessed through the Business Function Reports screen under "REC- Partnership Detail Report" by anyone with access to a Corps computer (no password or special permissions required).

Annual fiscal data entry for the Partnership pages opens each year October 1 - December 31 (on the REC- Annual Update data input form) to enter the value of each partnership for the prior fiscal year. However, new partnership agreements can be entered or edited at any time during the year.

Note: Partnership data entry involves a two-step process. Step 1 (Available anytime during the year): Enter information about the partnership, including agreement type, organization, organization type, date effective, description. Step 2 (Available only during annual update period Sep/Oct): Enter information about the value of the partnership, including number of volunteers, volunteer hours, partner funds invested, professional services provided, materials and equipment donated, Corps contract funds, services, materials and equipment, and additional investments.

FY 16 Partnerships and Volunteer Program Summary Sheet

*Data from OMBIL Rec-ES Modules

Our partners and volunteers are organizations and people who want to give back to their communities and are interested in being involved in the Corps natural resource management program. They are families who want to share a day of service together, nonprofit groups looking for public lands to carry out their missions, local businesses that rely on the public resources provided by Corps lands and waters, outdoor enthusiasts wishing to create and maintain their favorite recreation opportunities, and concerned citizens interested in making meaningful contributions. Whether it is an environmental ethic, a love of parks, or enthusiasm for the outdoors, like-minded partners and volunteers share their passions and work together for a common cause.

Total partnerships:
1,393 (plus an additional
279 co-partners)

**Corps projects with
partnerships:** 293 of
404 (73%)

**Total value of
partnerships:**
\$59,846,413
(Corps: \$10.1 million
investment/ Partner
leveraged investment:
\$49.7 million)

We strive to match our partners and volunteers' talents and interests with work to be done, in order to achieve our common vision and goals. While partners and volunteers are not a substitute for Corps management of the federal resources, they help accomplish programs and activities for which funding is not available and therefore would not normally be performed. In FY 2016, 42% of our partnerships were for environmental stewardship projects, and 58% were for recreation projects.

- Available on OMBIL Partnerships FAQ page:
<http://corpslakes.usace.army.mil/partners/ombil-annual.cfm>

ENTERING NATIONAL PUBLIC LANDS DAY (NPLD) EVENTS

- 1) Enter volunteer data into the Volunteers module of OMBIL
- 2) Enter the event into the Partnerships module of OMBIL
 - a) If other partners are involved, list National Environmental Education Foundation (NEEF) as the primary partner and all others as co-partners
 - b) If no other partners are participating in the event, just list NEEF as the primary partner
 - c) Partner contribution should be the volunteer hours performed within the scope of the event.

Don't forget national partners for other events

- * Get Outdoors Day – American Recreation Coalition (ARC)
- * Kids to Parks Day – National Park Trust
- * FLW Fishing Events – Fishing League Worldwide (provide booth space)

US Army Corps
of Engineers®

TRACKING MATERIALS COSTS

Make sure that materials costs are included in your partnership data

- If a Boy Scout Troop comes to work on your project and they bring their own gloves, include the cost of gloves in their contribution.
- If a project vehicle is used to move materials to volunteer sites around the project, include an estimate for vehicle cost to your materials provided to the partnership.

STUDENT CONSERVATION ASSOCIATION

Enter Student Conservation Association (SCA) interns and other similar Conservation Corps interns as a Cooperative Agreement.

Number of interns/hours served would be captured in the volunteer columns. The partner share by SCA goes in the “partner funds invested” column.

The Corps share (what the Corps pays the SCA) goes in the “contract funds” column.

US Army Corps
of Engineers®

MOUS OR CHALLENGE PARTNERSHIP AGREEMENTS WITH INDIVIDUALS

There are a number of entries in OMBIL with a single individual's name and an agreement type of challenge partnership or MOU where the only thing donated is time.

It appears that these would just be standard individual volunteers and should not be counted in the partnership section.

US Army Corps
of Engineers®

SPECIAL EVENTS

Many people forget that the contributions provided by partners is considered a partnership and has value.

Be sure to enter the partner info for Kids to Parks Day, National Public Lands Day, FLW fishing events, CAST fishing events, Get Outdoors Day, Bass Pro special events, etc.

The partner value should include the value of their time, and supplies they provide for the event (this can be booth space or marketing materials).

US Army Corps
of Engineers®

NATIONAL MOUS

If a partner is on the list of national MOUs and there is not some other agreement type involved in the project, make sure to select MOU. Many lakes also have local MOUs.

US Army Corps
of Engineers®

COOPERATING ASSOCIATION

There is a pick-list for these associations. If you have an official association that is not on the list, let Heather Burke know and she will get it added.

Every one of these organizations should have some type of value associated with them for the year.

US Army Corps
of Engineers®

CONTRIBUTIONS

Volunteer service value for individuals should not be included in the partnership section of OMBIL, unless they have also contributed funds, material/ supplies.

Volunteers that work as part of an organization can be included here along with the value of funds, services, and materials contributed.

US Army Corps
of Engineers®

ENTERING VOLUNTEER HOURS

What OMBIL **DOESN'T** auto calculate:

- Total number of volunteer hours worked
 - Enter the TOTAL HOURS, not hours per volunteer
 - If you have 5 volunteers that worked 3 hours each, total volunteer hours should be 15 (not 3)

What OMBIL **DOES** auto calculate:

- Value of volunteer service
 - Automatically multiplies the total number of hours times the annual “value of volunteer service” set forth by the independent sector.

US Army Corps
of Engineers®

Volunteer Data Decision Tree

- Available on OMBIL Partnerships FAQ page:
<http://corpslakes.usace.army.mil/employees/faqs.cfm?Id=partner-OMBIL&Nav=partner&View=Yes>

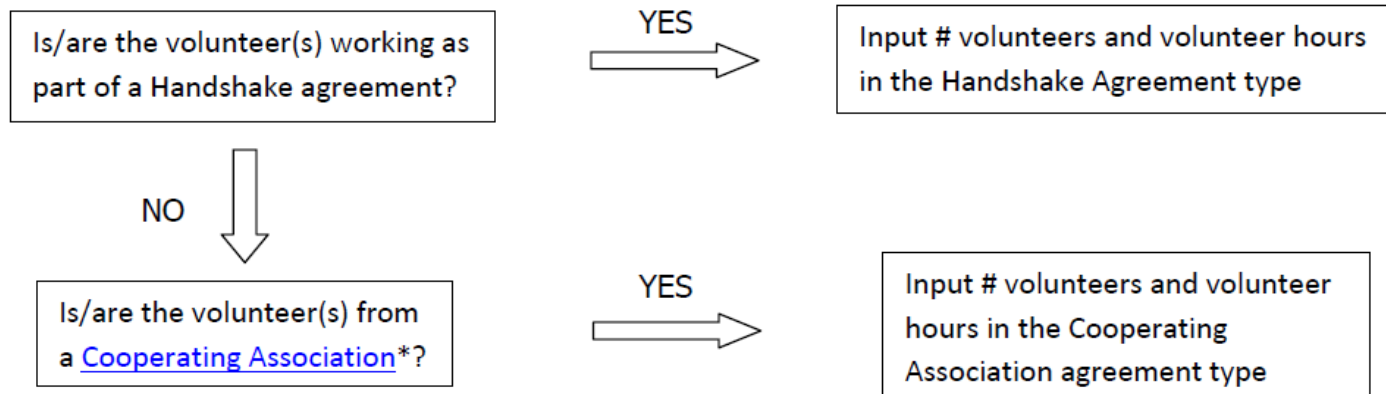

Step 1. Recreation Annual Update- Annual Project Data Update

Enter ALL volunteer hours in this section of OMBIL. This is where you will capture the total number of volunteers, total hours of volunteer service (which will auto-calculate the total value of the service), and total incidental expenses reimbursed to all volunteers for the FY.

Step 2. Recreation Annual Update- Partnership Update

In addition to gathering information about the overall number of volunteers, hours, and value, we are also trying to capture more detailed data about volunteers that are part of a partnership. Some volunteers such as camp hosts, gate attendants, and other individuals that volunteer may only be counted in the Annual Project Data Update. Other volunteers that are part of a group which falls under a partnership agreement, should also have their hours counted in the Partnership Update.

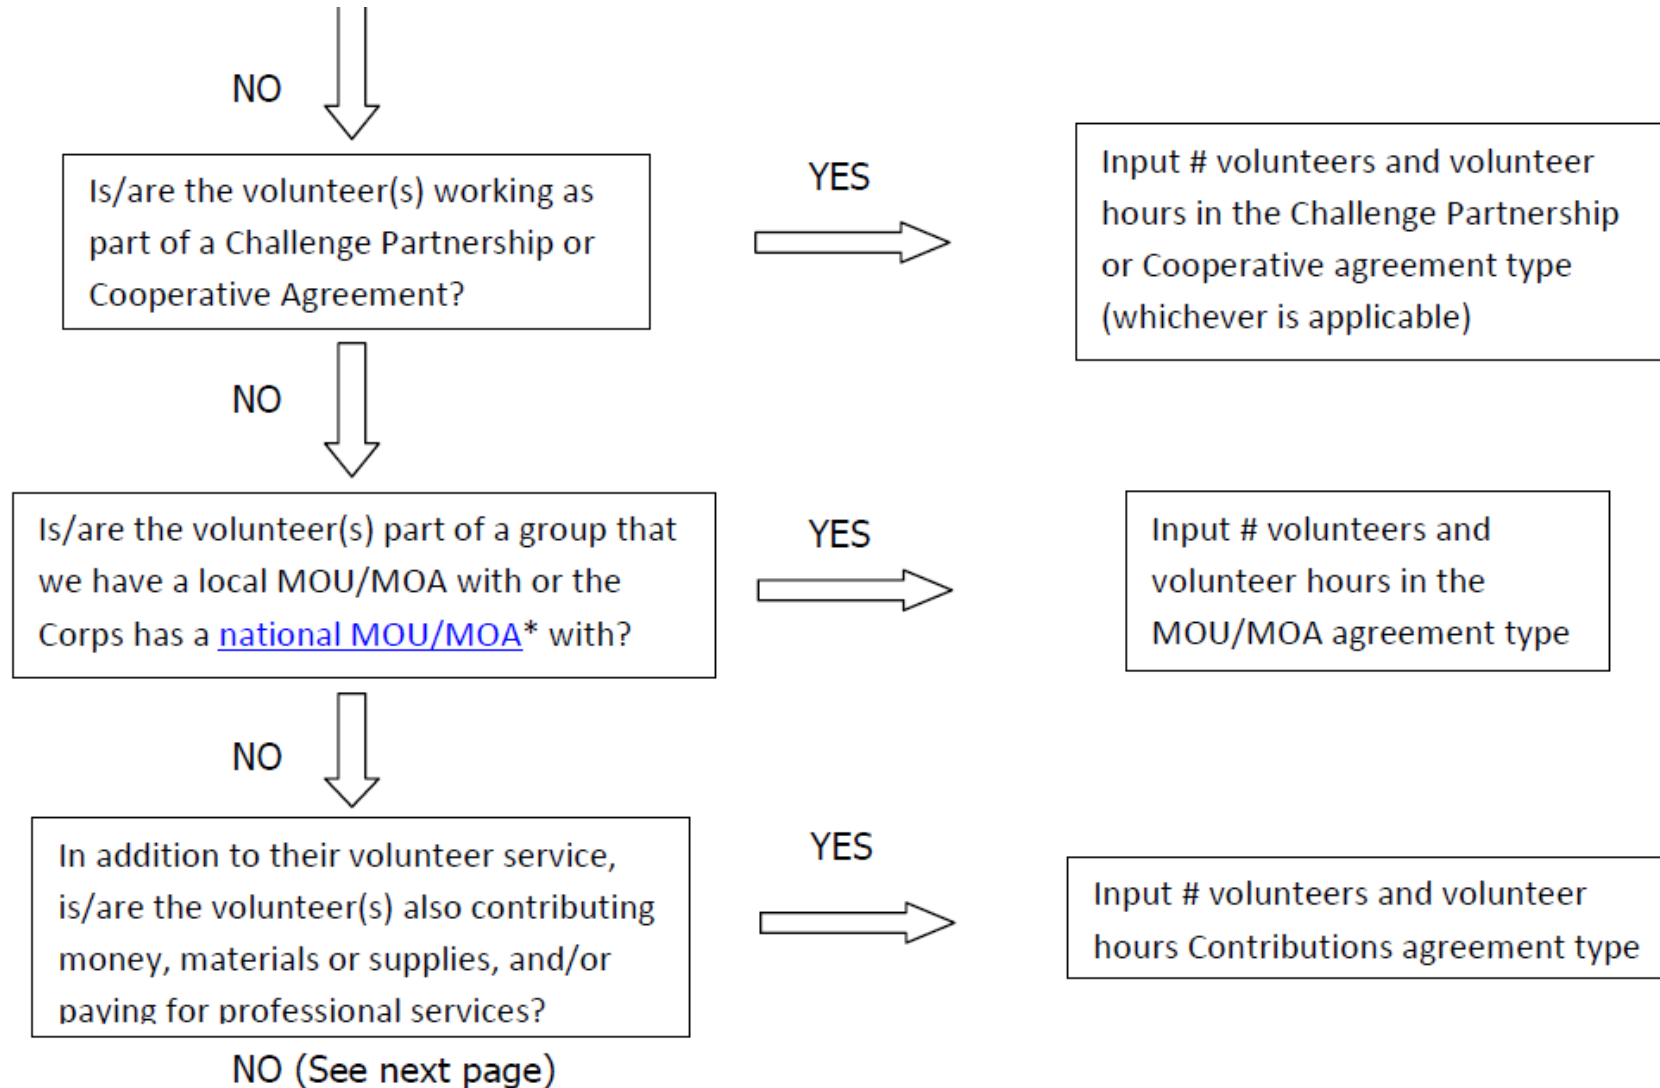

Please use the flow chart below to determine whether to count a particular individual volunteer's or group of volunteers' hours in the Partnership Update section of OMBIL.

US Army Corps
of Engineers®

Volunteer Data Decision Tree (Cont.)

Is the volunteer associated with an organization that doesn't have any other agreement type in place, but is contributing volunteer service while representing the partner organization?

YES

Input # volunteers and volunteer hours in Contributions agreement type

NO

If you answer No to all of the questions above, the data for these volunteers will ONLY be input in the Annual Project Data Update section of OMBIL, not under Partnerships. If you answer Yes to any of the questions above, input the data into the first category with a Yes answer starting from the top down. Some volunteers may fit into multiple categories, but you should input the data in the first applicable category encountered in the flow chart.

Example 1: A volunteer group from IMBA (International Mountain Biking Association) may provide service to the Corps as part of a Challenge Partnerships Agreement, but they are also part of a national MOU. Because the Challenge Partnership agreement is an agreement for a limited, specific period of time and project, the volunteer hours for the particular project in the agreement should be input in the Challenge Partnership category instead of the MOU. If IMBA also volunteers hours not related to the Challenge Partnership Agreement, those additional hours would be input separately in the MOU category.

Example 2: Volunteers from a Cooperating Association, such as the Friends of Raystown Lake provide services for a project that is part of a Handshake Agreement. These hours should be input in the Handshake category instead of the Cooperating Association category, because the Handshake agreement is for a specific project. Additional hours volunteered by Association members such as working in a bookstore, creating interpretive materials, or managing a campground should be captured in the Cooperating Association category if they are not specifically associated with the Handshake project.

*See [NRM Gateway MOU/MOU page](#) for list of national organizations with MOU/MOA and [NRM Gateway Cooperating Association page](#) for list of associations in OMBIL. There is a pick-list of cooperating associations already in OMBIL. If you have a new cooperating association that is not on the list, please contact Heather Burke the get it added to the system.

US Army Corps
of Engineers®

HANDSHAKE

This partnership type should only be selected for those projects that have received handshake funds from HQUSACE in the past 3 fiscal years.

Once the handshake project is complete, if you still work with the partner in future years, you'll need to make that a new partnership type to reflect the work (i.e. contribution, MOU, challenge partnership as applicable)

US Army Corps
of Engineers®

ZERO VALUES IN OMBIL

All of the prior year partners automatically load into the wizard.

If a particular partner did not do anything with the project this year, it needs to be marked as No Activity.

Do not put zeros in every data field if the partner was not active.

US Army Corps
of Engineers®

CORPS VALUE

We need to continue focusing on getting the Corps value entered in addition to the partner value.

There is always going to be a value of an employee's time that should be captured in the Services column.

We are also missing out on a lot of materials/ equipment value that we bring to these partnerships.

In 2016, we had 2 partnerships with no Corps value at the end of October – DOWN from 404 in 2015 and 766 in Oct of 2014.

WIZARD

WHAT - Basics of the Partnership Agreement

Partnership Agreement Type
CNT - CONTRIBUTIONS PROGRAM

Partnership Agreement Type Description
The Corps is authorized to accept contributions of cash, funds, materials, and services from groups and individuals for operation and management of recreation facilities and protection and restoration of natural resources at civil works water resource projects. Contributions must be within current authorities, consistent within the Corps' mission, and for work items contained in approved OMB. A contribution plan must be submitted for this program.

Primary Business Line
Environment Stewardship

Primary Purpose
PED - EDUCATION

Primary Purpose Description
A partnership agreement, entered into for the benefit of public educational or interpretation activities including, but not limited to, water safety, environmental education, and corps missions.

Description
Contribution of funds for interpretive panel production for new wetland

Step 8: Leases/Licenses Update	Not Started	<div><div></div></div>	.00% Complete	23-MA

The system brings you back to the Overarching wizard and updates the status to show that you are at 100% Complete for the Partnership Update. If you were anything less than 100%, you would be able to go back into the Partnership wizard and

Data Field Definitions

- **Value of sales** (only for cooperating associations) - total value of gross sales returned to the project in accordance with the agreement.
- **Number of paid staff** (only cooperating associations) - total number of paid staff working for the Cooperating Association at this Project Site
- **Funds invested** - total dollar amount of cash funds invested by the partner (excluding bookstore sales funds reinvested in project)
- **Professional services provided** - total \$ value of professional services (i.e. engineer donating time to draft up plans and specifications or a grant writer donating professional time to research and write a grant proposal, etc.) provided by the partner. Calculate the value by multiplying the number of hours served times the prevailing hourly service charge.
- **Materials & equipment donated** - total \$ value of materials and equipment provided by the partner. Calculate the value of equipment using the local hourly/daily rental rate cost

US Army Corps
of Engineers®

Data Field Definitions

- **HQ investment** (only for Handshake) - the total \$ value received from the Handshake Partnership money provided by HQUSACE
- **Contract Costs**- the total \$ value of services contracted by the Corps for use in conjunction with this agreement
- **Materials & equipment provided** - the total \$ value of materials and equipment provided by the Corps
- **Corps Labor**- the total \$ value of staff time provided by the Corps. Calculate value of services by multiplying the number of hours served x the burdened hourly employee labor rate
- **Additional Investment**- the total \$ value, over and above the original contributions by the project and its partner for this agreement. (Example: initial investment made by you and your partner is \$100,000. Other partners have approached wishing to contribute to enhance your original agreement. Any funds donated by other partners above the original \$100,000 is considered additional funds.)

These can all be found on the OMBIL website in the User Manuals and Reference Materials pages

US Army Corps
of Engineers®

OMBIL Changes Requested for FY 18

- Enable a query of multiple years in the Partnership Detail report
- Total Partner Value = Value of Services + Value of Sales + Funds Invested + Professional Services + Materials & Equipment (previously, it did not roll up value of services into the total partner value, so you had to manually add it to figure out the actual total partner value)
