

FLW Forest Wood Cup Expo: A Partnering Success at Lake Lanier

Rangers Brian Johnson, Mark Jennings, Jason Couch and Andrea Wagner, along with volunteers from the Lake Lanier Volunteer Village, managed a water safety exhibit at the FLW Outdoors Expo August 10-12, 2012. In reviewing the event, we feel that our participation in the event was a success. In total there were approximately 2,350 direct water safety contacts made. We found that the most successful way of reaching people was when one ranger manned the booth and the other walked around and handed out stickers and talked about water safety. Total attendance for the event was approximately 60,000.
