Waco - Fundraiser Fishing Event: On Saturday June 25, 2022, C.A.S.T. For Kids held a Fundraiser Fishing Event at Airport Beach Park. Chronically ill and disabled children and their families from the Waco area were invited to go out fishing at the lake. Fishing pros and local volunteers took the participants out on boats with rods/reels/tackle donated. This year, all the participants caught fish ranging from largemouth bass, crappie, white bass and according to one participant - dinosaurs. Army Corps Rangers gave impromptu water safety presentations to event-goers to educate them on proper wearing of PFDs including how to select the correct PFD for the activity and how to ensure proper fit. There were 40 participants who went out with the volunteer boat captains on 38 boats. The event concluded with lunch donated by Texas Farm Bureau Insurance and each child being awarded a plaque and a round of applause for their fishing exploits.
