

BCHA Volunteers at Lake Kaweah

One of the volunteer groups that comes to Lake Kaweah to assist the staff is The Back Country Horseman Club, High Sierra Chapter, Visalia, California. This group comes out every year to assist with putting up/taking down of our horse corrals at Horse Creek Campground's Corral Loop. They have taught rangers and maintenance staff how to keep and maintain the corrals, names of the hardware for ordering replacements, etc. One of our rangers, Robin Lebo, has spoken at the High Sierra annual banquet, providing information about beautiful Lake Kaweah. The group has had its members come out during National Public Lands Day and participate in the various projects. Recently, we were contacted by the group who wanted to know about the corrals for spring take down 2020. They were ready to bring their work wear, including masks, to take the corrals down. We have rescheduled them for the late summer/early fall 2020 installation. This group also works in other campgrounds volunteering. We look forward to expanding our partnership with this group.

Part of the March 25, 2019 corral take down crew and Hannah too.

March 25, 2019, Corral removal before high water.

2018 Corral installation for fall /winter camping riding season.

2018 Corral installation

2018 -Two of the BCHC High Sierra Officers, past and present.

Part of the 2017 installation crew.

Club member checking the stacks.
