

- The West Point Project was the host site for a military exercise with the US Army's 507th Parachute Infantry Regiment on 4 May 2018. 70 soldiers parachute jumped and landed in West Point Lake as part of their training. Georgia DNR, Troup County Sheriff's Office, Troup County Fire Department and park rangers assisted during the exercise.

In this photo, a simulated emergency response excise was conducted. No real accidents or injuries were reported on jump day.

West Point Project

Storyboard Pieces to District 8/24/2017

West Point Project hosts location for Project "Millet", US Army's 507th Parachute Infantry Regiment from Fort Benning

Safety meetings were held prior to the activities scheduled for the day of 24 August 2017. 80 students from the US Army Airborne School participated in the first military airdrop exercise on West Point Lake. With the completion of a successful event, they hope to have this event annually at West Point for years to come.
