of Engineers[®]

Cooperating Associations vs. Friends Groups

They are NOT the same thing!

- **Cooperating Association:** refers to a legal entity, organized under state law, which enjoys a non-profit and tax-exempt status under Internal Revenue Service codes and which operates under the terms of a cooperating association agreement with the Corps.
- **Friends Group:** generally refers to local volunteer groups of citizens organized for a specific purpose or interest in a particular geographical area. Friends groups may or may not have 501(c) status. A friends group does not become a cooperating association unless an agreement is signed with the Corps.

US Army Corps
of Engineers[®]

Benefits of Friends Groups

- Even without a formal agreement, a friends group can get a lot accomplished for your project and be an advocate for the Corps
- Example: Friends of Shutes Branch at Old Hickory Lake – Completed over 1300 hours of volunteer work to build a bike trail. Saved the Corps \$40k
- Could not raise enough money needed to start a non-profit and become a cooperating association

Benefits of Cooperating Associations

- Associations can purchase materials, equipment, programs, exhibits, services, and publications to be used at the project.
- Fundraising, sponsoring, collaborating
- Associations can develop an organized constituency not typically accessible to the Corps.
- Associations can be advocates for the Corps. Some can lobby if they are established with that mission.
- Can hire support staff to help Corps missions.

US Army Corps
of Engineers[®]

Getting Started

- Consult with Office of Counsel early in the process of trying to develop a new cooperating association.
- Determine if there is an existing association or non-profit group in your area.
- USACE employees can facilitate activities that lead to creation of a cooperating association.
- Nonprofit groups must have a developed structure and operating procedures.
- Provide them resources to assist with forming an association
 - Web resources (IRS.gov, etc.)
 - Supporting associations (Public Lands Alliance)
 - Training

Partnering with an Existing or New CA

- Existing associations:
 - Pros
 - Availability of funds for start-up operations
 - Track record for references
 - Familiarity with Corps policies
 - Cons
 - Less influence and flexibility
 - Potentially larger overhead expenses
 - Less focus on individual projects
- New associations:
 - Pros
 - More influence
 - Lake/project focused
 - Clearer reporting
 - Cons
 - No history/predictability
 - Greater opportunity for failure

Cooperating Associations

- Cooperating Associations must have:
 - Board of Directors
 - Complete Articles of Incorporation and Bylaws
 - Non-profit 501(c) status
 - Mission that aligns with the Corps mission

US Army Corps
of Engineers[®]

Cooperating Associations

- USACE Efforts
 - Provide the Association with Corps' goals, programs and activities.
 - Provide members with a sample agreement to review
 - Sign the agreement
 - Establish annual goals
 - Now the hard work begins...

US Army Corps
of Engineers ®

Let's take a closer look at a Cooperating Association Agreement:

<https://corpslakes.erdcdren.mil/employees/coopassoc/coopassoc.cfm>

COOPERATING ASSOCIATION AGREEMENT BETWEEN THE
U.S. ARMY CORPS OF ENGINEERS AND THE
_____ ASSOCIATION

This Cooperative Agreement is for the mutual benefit of both parties and is between the United States Army Corps of Engineers, _____ District (hereinafter referred to as the "Corps") and the _____ Association (hereinafter referred to as the "Association"), acting through the Chairman of the Board of Directors or the Board's designee.

WITNESSETH: (Select the most appropriate ~~Whereas~~ clause)

WHEREAS, The Corps operates the _____ Visitor Center (or other facility) at the (project name), (state), for public recreation and the understanding of the Corps mission at (); and,

WHEREAS, The Corps achieves its operational goals for natural resources management through a wide range of activities, programs and events; and,

WHEREAS, the Corps operates its program for the benefit of the public. The public requires information and facilities for the safe and appropriate use of Corps projects. This information is conveyed through a variety of interpretive media such as; programs, exhibits, and displays which rely heavily upon the use of audio visual materials, photographs, models, interactive displays, lectures, artifacts and other materials which illustrate the Corps, its mission and activities in and around (project name) as well as the archaeological, natural and cultural history of the area; and,

Cooperating Associations

- USACE Efforts
 - Currently 60+ Cooperating Associations and Friends groups in Partnership with the Corps

Clean Jordan Lake: Stewards of Change

DO NOT LITTER

US Army Corps
of Engineers®
Wilmington District

How Does Litter Harm Jordan Lake?

Small animals mistake trash, including cigarette butts, for food and can die from ingesting toxic chemicals that also impair water quality

Birds and other small animals are killed or injured when they get trapped in fishing line, 6-pack rings, plastic bags & other trash

Human illness can be caused by rodents & mosquitoes that are attracted to open containers

How Long Does Litter Stay in the Environment?

200 Years

450 Years

*Polystyrene foam materials can stay in the environment for over 1 million years.

Tell your family and friends NOT to litter. If you see litter, PICK IT UP. Volunteer with www.CleanJordanLake.org and the U.S Army Corps of Engineers. REMEMBER: LITTERING IS ILLEGAL.

Cooperating Associations

- Remember: Successful Partners...
 - Want the partnership to succeed
 - Seek win-win solutions; being flexible but focused
 - Are open and clear about their own goals
 - Listen well and respond to other views
 - Are prepared to trust
 - Have integrity and act consistently
 - Effectively and efficiently carry out tasks and responsibilities
 - Will not just sweep difficulties under the carpet
