Two Programs to Bring Wounded Warriors to Work at Your Project

- Goals – Help in recuperation of wounded warriors by putting them to work; help in transition back to active duty or in the separation from the Army; allow federal agencies to help in the process
 - Operation Warfighter (OWF)
 - **DoD program** that includes all branches of military
 - Warriors in Transition Program (WTC)
 - **ARMY** program

US Army Corps
of Engineers[®]

OWF Program Objectives

Operation Warfighter: DoD internship program that places wounded, ill, and injured Service members in supportive work settings that:

Positively impact the recuperation process through the return to work.

Help participants get ready to return to duty or separate from the military.

Help Federal government agencies to better understand the skill sets and challenges of transitioning wounded, ill and injured Service members.

US Army Corps
of Engineers[®]

Internship Overview

Service members are matched with assignments that consider their interests and utilize their skills, thereby creating productive internships beneficial to the participant and the employer.

Employer pool is limited to Federal agencies. Salaries are paid by DoD.

DoD will provide necessary security clearances.

DoD will assist in facilitating transportation.

OWF Partners with the DoD Computer and Electronics Accommodations Program (CAP) to provide participants' CAC/ computer access

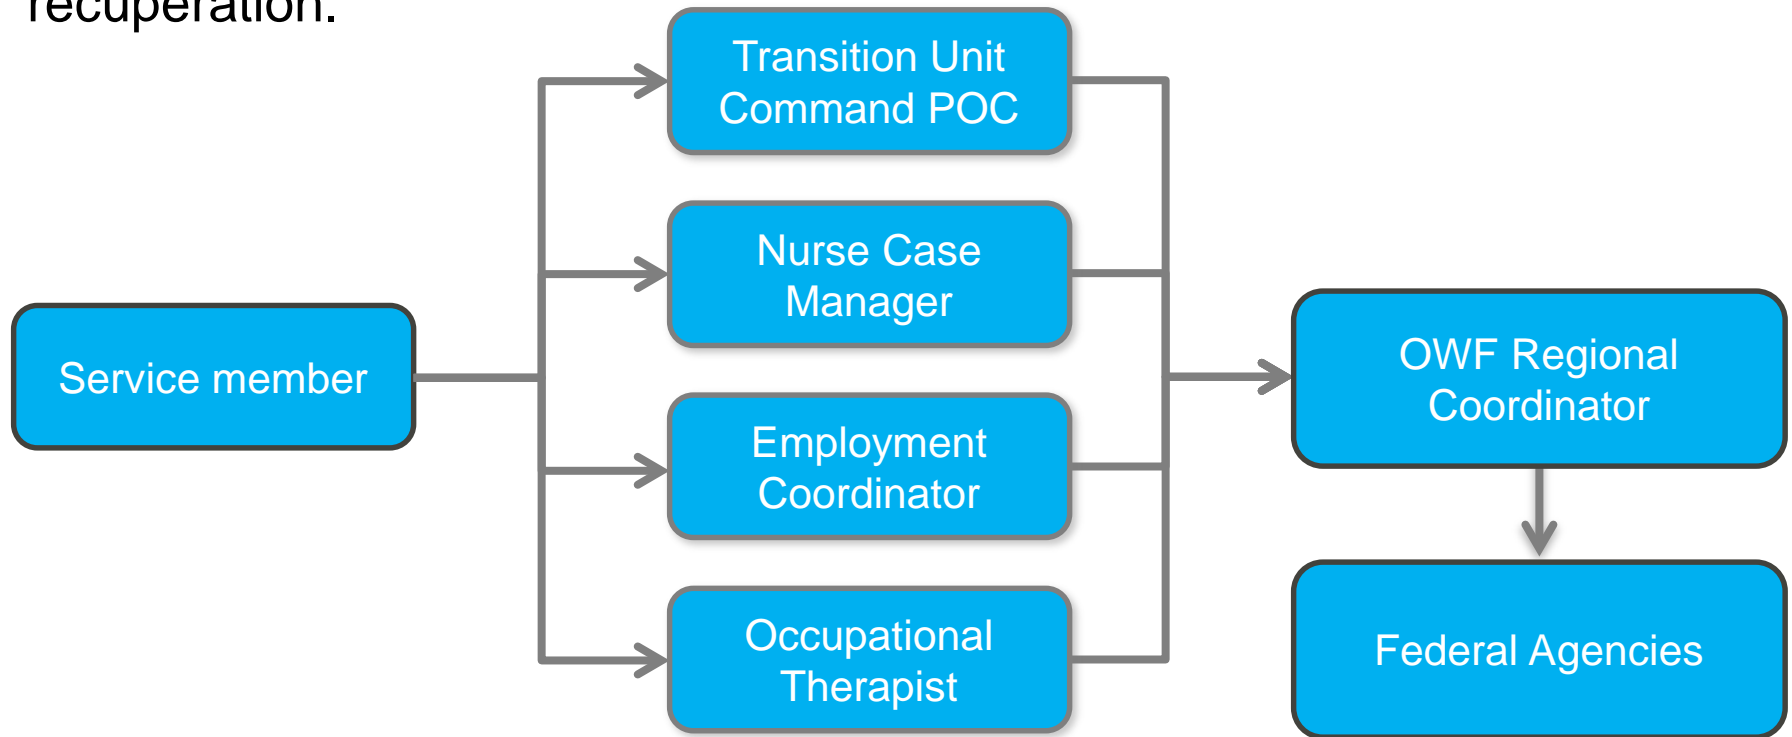

US Army Corps
of Engineers[®]

Medical Clearance Process

Each Service member must be determined to be medically ready to participate in OWF and under no circumstance will internship assignments interfere with a participant's medical profile or adversely affect recuperation.

Benefits for Service Members

- Gives transitioning Service members a vision to the future.
- Builds their resumes
- Develops job skills, benefiting from both formal and on-the-job training opportunities
- Valuable federal government work experience
- Demonstrates to participants that skills obtained in the military are valued and transferable into civilian employment.
- For Service members who will return to duty, the program enables them to maintain their skill sets and provides the opportunity for additional training and experience that can subsequently benefit the military.

US Army Corps
of Engineers[®]

Benefits for Employer

- Demonstrate support for the military service and sacrifices of wounded, ill, injured Service members.
- Access to the talent, dedication, and considerable military and non-military skills of participants.
- A vehicle for the permanent recruitment of transitioning Service members

Successful Outcomes

- Many agencies have **hired wounded warriors into permanent positions** as they “graduate” from OWF and transition out of the military.
- Many participants have indicated that OWF, as a wellness activity, restored a sense of normalcy and **eased the transition back to work.**
- Not just about employment – Placing wounded, ill and injured Service members in supportive work settings outside of the hospital environment **positively impacts the recuperation process.**

USACE-OWF Intern Process

1. Request Form

- Official request from orgs participating in OWF
- Allows coordinator to match appropriate candidate

2. Selection

- Org will receive application(s)
- Make selection IAW best practices:
<http://www.wtc.army.mil/employers/interviewing.html>

3. Placement Form

- Captures Critical information about internship
- Acknowledges agreement to terms & conditions

4. Intern Development Plan

- ID specific tasks and goals related to desired experience
- Bridges gap between requirements and skill set (Skill Gap)

5. Evaluation

- Collect feedback on intern performance
- Assess effectiveness of program

6. Record of Achievement

- Officially documents time and accomplishments
- Tool to use as they begin their career search

Before You Sign Up!

USACE Checklist:

NEED

- Identify area of need
- Develop position description & activity hazard analysis

WORKSPACE / LOGISTICS

- Locate/identify appropriate workspace
- Locate/identify appropriate equipment
 - Computer: (If none available, will have to order new)

COORDINATION

- Identify proper chain of command
- Will be responsible for reporting procedure

US Army Corps
of Engineers[®]

Put that Unusual Skill to use

- Wounded Warrior Travis Barnett participates in the unmanned aerial vehicle program in SAJ
- IDs prop scarring on manatees and digitizes into ARC GIS so planners can accurately quantify scarring
- Locates & IDs plant species

- Performs maintenance on UAVs
- Developed a comprehensive UAV training program for new pilots and ground station operators.

Warrior In Transition Program - ARMY

Warrior Transition Units

- More intensive multi-complex medical treatment
- Treatment takes place at major military treatment installations
- Focus on healing to transition back to the Army or to civilian status
- WTUs provide personal support to wounded Soldiers who require at least six months of rehabilitative care and complex medical management.

Community Based Warrior Transition Units

- Typically Army Reserve and National Guard Soldiers
- Do not need the day-to-day medical management provided by WTUs on Army installations
- Enables the Soldier to recover & transition closest to his/her personal support network or in his/her home

US Army Corps
of Engineers[®]

Placing water quality buoys at Thurmond

SGT Jonathan Jones- assisting with debris pile burning after timber harvest, J Strom Thurmond Lake

Active Duty Civil Works Details

- Army is also looking for opportunities to transition active duty (not necessarily wounded) soldiers into civilian workforce
- Active duty soldiers can be utilized for temporary details at Corps civil works projects.
- Army pays salary
- Duty station pays TDY
- Walla Walla District has utilized this program for 180-day details at Lucky Peak. Cost \$15K for TDY.
- Benefits: Cheaper than some of the conservation corps interns. Active duty soldiers come to the lake with advanced job skills.

Wounded Warriors.Org

MISSION: To honor and empower wounded warriors.

VISION: To foster the most successful, well-adjusted generation of wounded warriors in this nation's history.

PURPOSE:

- Raise awareness/enlist public's aid for injured service members
- Help injured service members aid and assist each other.
- Provide unique, direct programs and services to meet the needs of injured service members.

Army Rangers from Camp Merrill conduct water drop training at Lake Sidney Lanier

Entering its 6th year, this successful partnership includes local, state, and other federal agencies.

Provides rangers an opportunity to meet training requirements for parachute jumps into different elements.

Provides an opportunity for families to see what Dad does.

Army Reserves conduct water bucket training/ helicopter boundary line inspection at Clinton Lake

Flew over 'hot spots' of significant development pressure, past/current problems

Potential for future annual inspections

ROTC/JROTC at DeGray Lake

- Provides a location for the Annual Raider Challenge and exposes young adults to the project.
- Brings approximately 60 high schools from around the state to the project and builds relationships with the Henderson State University/Ouachita Baptist University ROTC program.
- Provides an alternate location for local guard units to conduct PT training, rucksack march, as well as land navigation
- Members of the ROTC and JROTC serve as volunteers on trail maintenance projects and the Annual Shoreline Cleanup

Iowa National Guard training exercise at Saylorville Lake

- High water event left debris on bull nose of intake
- Existing **MOA/Economy Act** agreement with Camp Dodge
- Removed debris at cost savings of \$30k compared to contractor estimate

Use Of Troop Labor At CW Projects

- **13 August 2015 Memo:** Stated that acceptance of volunteer troop labor at CW projects is not legal unless expressly authorized by statute or DOD/DA regulations
- In order to pursue no-cost or reduced cost National Guard or Reserve support, we need guidance that clearly identifies appropriate authorities with guidelines and conditions for when we can accept
- Can still use Economy Act for Active, Reserve, Fed activated units.
- Potential to seek express legislative authority to amend 10 USC 2012 to include CW projects eligible to receive support from military units
- 33 USC 2325 (WRDA 2000, Sec 205) Contributions Authority – not applicable to Active, Reserve, or Federally activated National Guard Units.
 - Could apply to National Guard units operating as State entities under Title 32 status
 - Corps must develop clear guidance and seek approval from ASA (CW) if we want to use for State-activated National Guard units

Military Partnerships

The Corps of Engineers is dedicated to encouraging the use of Corps recreation resources by the military and their families. Increased public awareness of Corps recreation programs, including increased awareness by Department of Defense and Armed Forces Commands, is a high priority.

Goal 2.4 of the [Corps Recreation Strategic Plan](#) is to “Strengthen relationships with military installations to meet the needs of both military families and the recreating public to foster use of Corps facilities by active duty, retired, and reserve military veterans and families.”

The Corps will contribute to the readiness and resilience of military members and their families through their participation in activities and programs at Corps lakes and rivers. The Corps will strengthen its unique relationship with the U.S. Armed Forces by expanding recreation programs and services for military members and their families. The Corps will promote safe and healthy outdoor recreation opportunities at Corps projects to all U.S. Armed Forces personnel, military families, and veterans.
