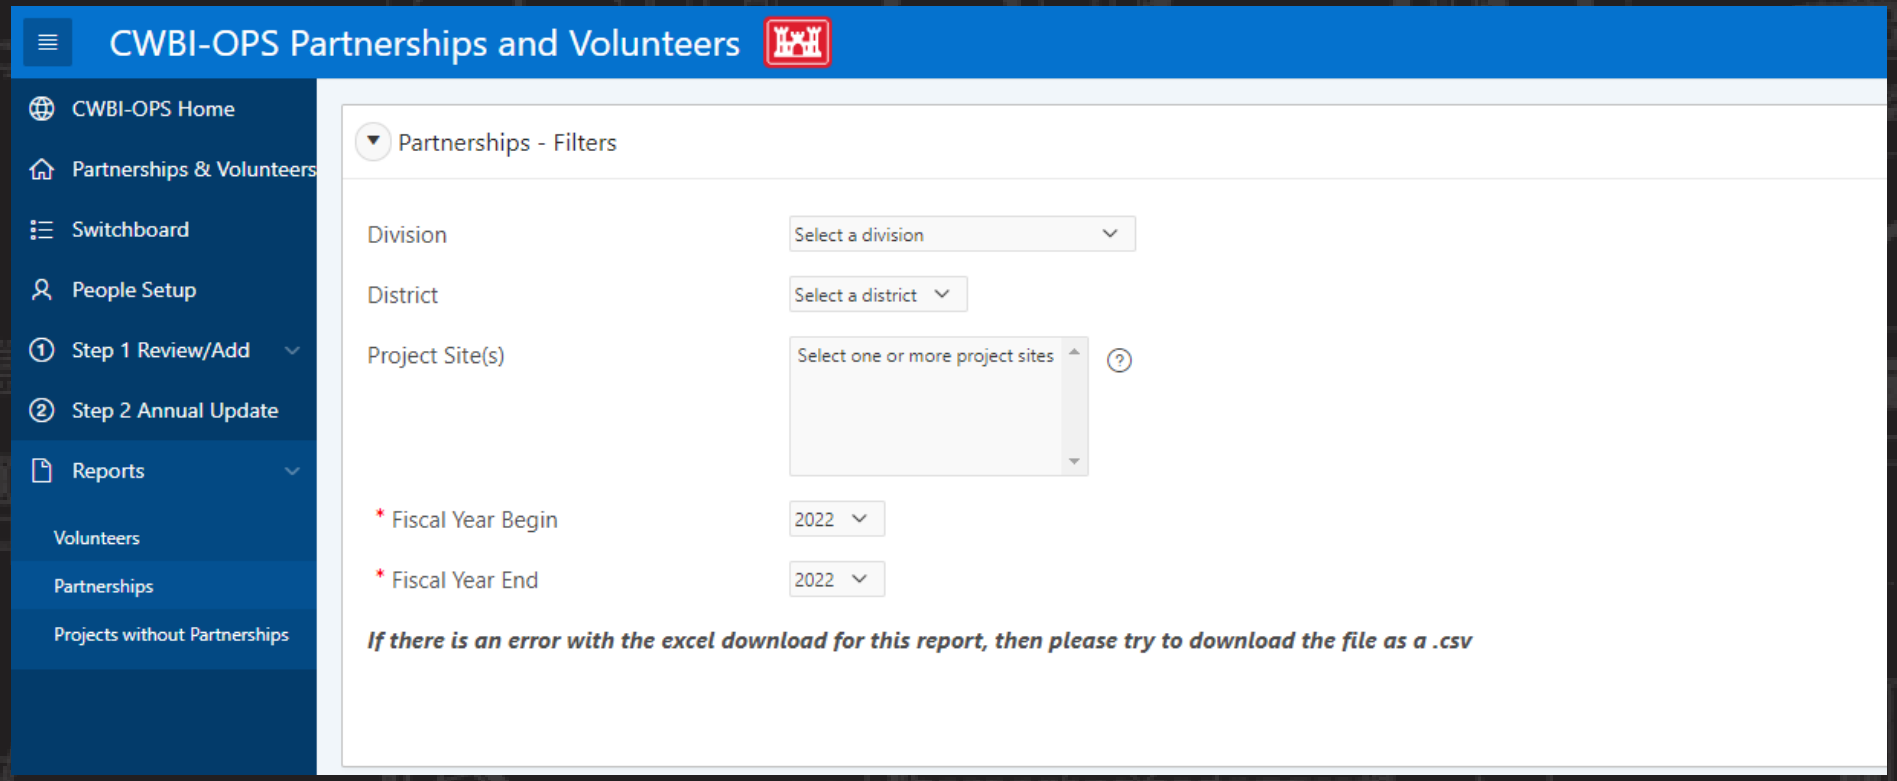
CWBI-OPS PARTNERSHIPS AND VOLUNTEERS MODULE



U.S. ARMY

US Army Corps of Engineers®

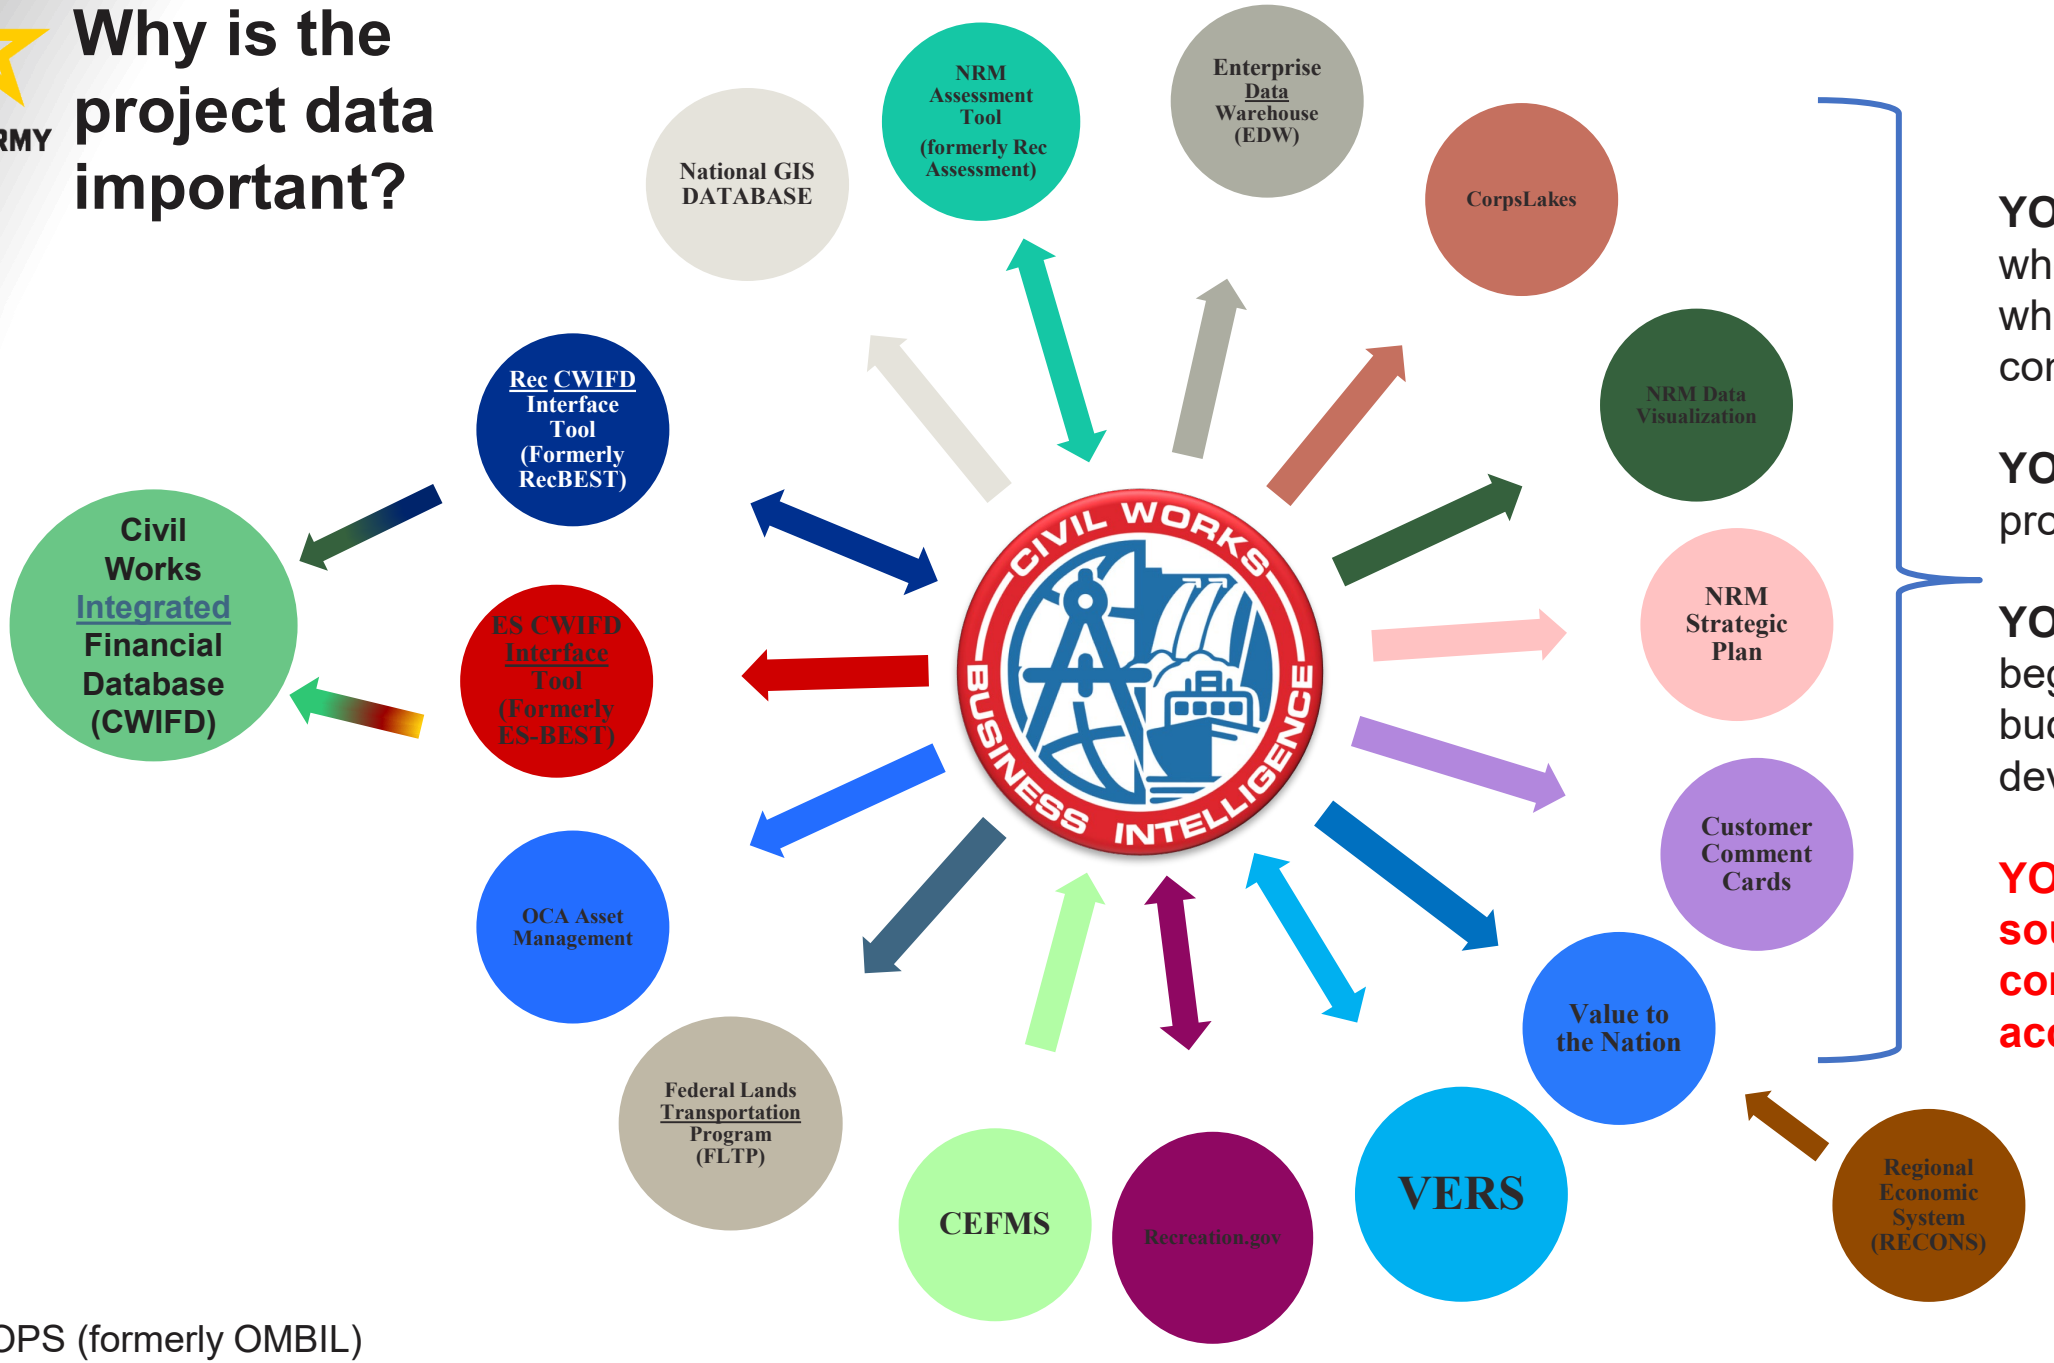
Good Data Tells the Corps Story

1. Partnerships **help get work done** that we may not otherwise have the capability to do.
2. Partnerships **build community support for the Corps and our programs**, which can be leveraged in many other ways.
3. Partnerships **help support** our requests for the Recreation and Environmental Stewardship **budgets**: They demonstrate that we have strong and robust NRM programs that should be financially supported in the budget.
4. Partnership data helps **build internal support** for our programs all the way up the line.

Interested not just in what we do, but **who** we work with:

- Scout troops
- Youth service and conservation corps
- Outdoor recreation industry
- STEM-focused education groups
- Native American Tribes
- Local businesses
- Tourism bureaus

Why is the project data important?



YOU are the one who understands what your project contributes.

YOU know your project priorities.

YOU are the beginning of budget development.

YOU are the source of complete & accurate data.

FY26 Annual Partnerships and Volunteers Update

- How is this data used?
  - Decisions concerning program development
  - Budget development and defense
  - Tracking performance measures
  - Preparation of briefings and fact sheets
  - Asset management, etc.

- Used to populate information on the **NRM Gateway** and numerous other internal and external web sites.

- Provide a **source of data (both inside and outside the Corps**) for general information, industry directories, news articles, and many other uses.

- Inaccurate and/or incomplete data not only reflects poorly on the Corps and renders a disservice to the public but could also jeopardize the viability of our O&M missions.

Partnerships Annual Data

FY 25 Partnership data in CWBI-OPS: 4,196 partnerships with a total value of $195 million
(Corps: $40 million investment/ Partner leveraged investment: $155million)

Steps to CWBI-OPS Annual Update

12

STEP ONE

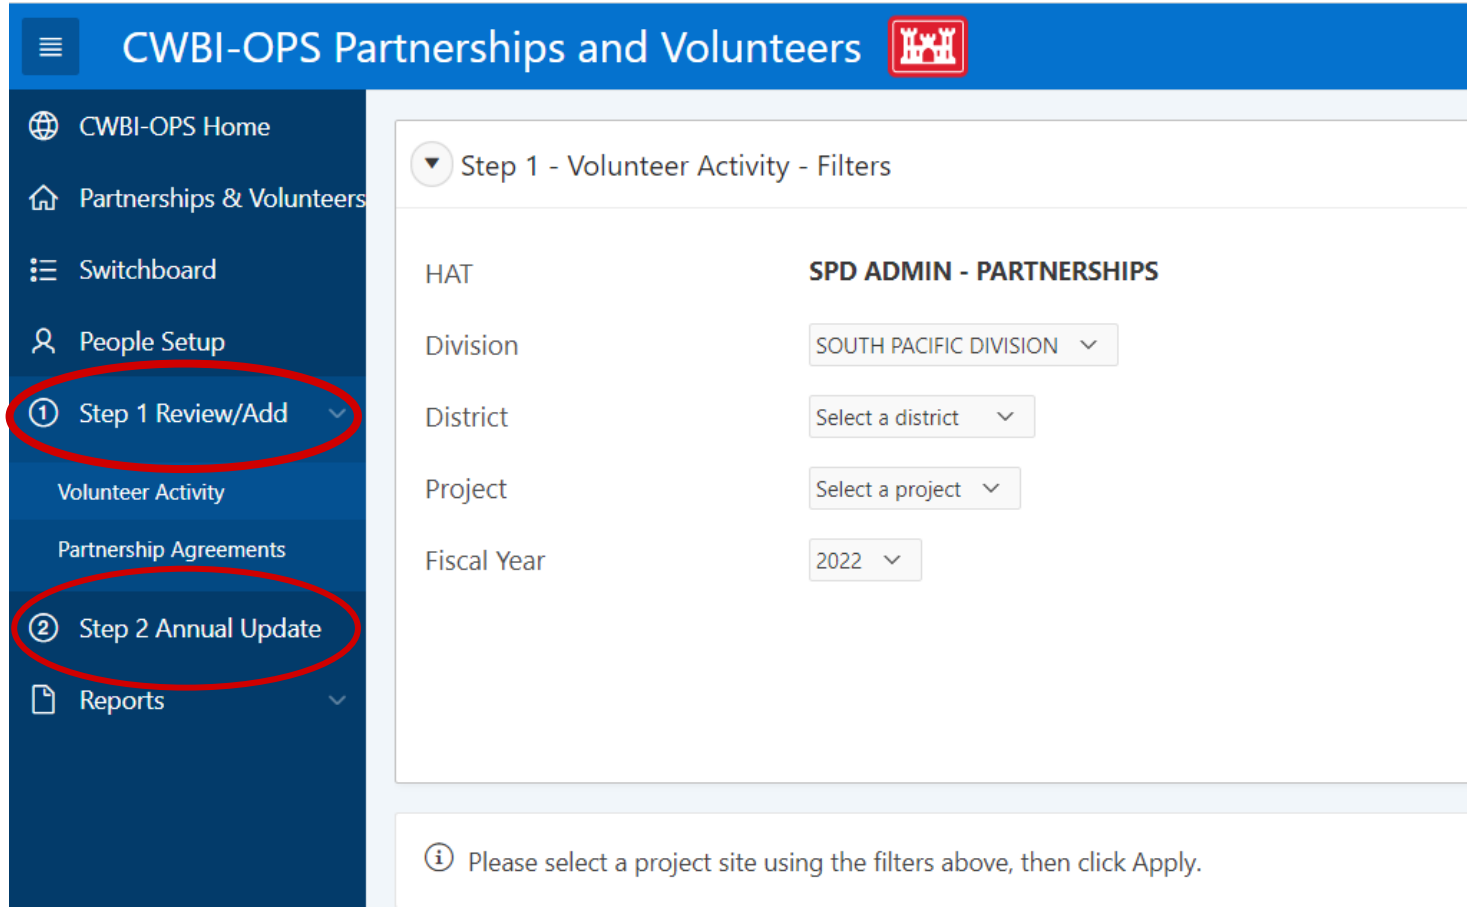
1. Review and add volunteer activity
2. Review existing partnerships
3. Add new partnerships

STEP TWO

1. Annual update: Enter Partnerships Data

STEP THREE

1. Run a report to review entered data



13

Step 1: Enter Volunteer Data

- Volunteer value of service per hour for FY is set: **$34.79**
  → Corps labor cost per hour is set: **$67.75**

- Volunteer value of service comes from independentsector.org, based on average earnings of private sector workers

- If applicable, indicate that your project has no volunteers in this section.

DATA NEEDED TO COMPLETE THE MODULE:

- Number of volunteers
- Number of hours
- Incidental expenses

(SCREENSHOT ON NEXT PAGE)

U.S. ARMY

STEP 1: Volunteer Activity

14

Did you have volunteers this FY? Yes

The volunteer value of service per hour for this fiscal year is: 29.95

The corps labor cost rate per hour for this fiscal year is: 63.26

NOTE: Partnership Volunteers cannot be modified on this form. Numbers and hours will be automatically loaded from data entered in the Annual Update page. Total volunteer numbers, hours, and expenses will be auto calculated by adding Non-partnership volunteer numbers/hours with Partnership volunteers numbers/hours.

	Non-Partnership Volunteers	Partnership Volunteers	Total
NUMBER OF VOLUNTEERS: Enter the number of volunteers performing work at the project. Include volunteers performing work in recreation, environmental stewardship, administrative, maintenance, etc.	15		15
NUMBER OF HOURS: Enter the number of hours served by volunteers.	45		45
INCIDENTAL EXPENSES: Enter the amount of incidental expenses reimbursed by the government to volunteers.	0		

Save Submit

NOTE: Non-partnership volunteers are those who perform volunteer service who are NOT affiliated with any organization. (Ex. Camp hosts, visitor center hosts, an individual or family volunteering on their own. Anyone volunteering as part of a group/organization such as a church, school, sports club, nonprofit, business, agency, Tribe, etc. should be counted as Partnership volunteers entered during the Step 2 Annual Update.)

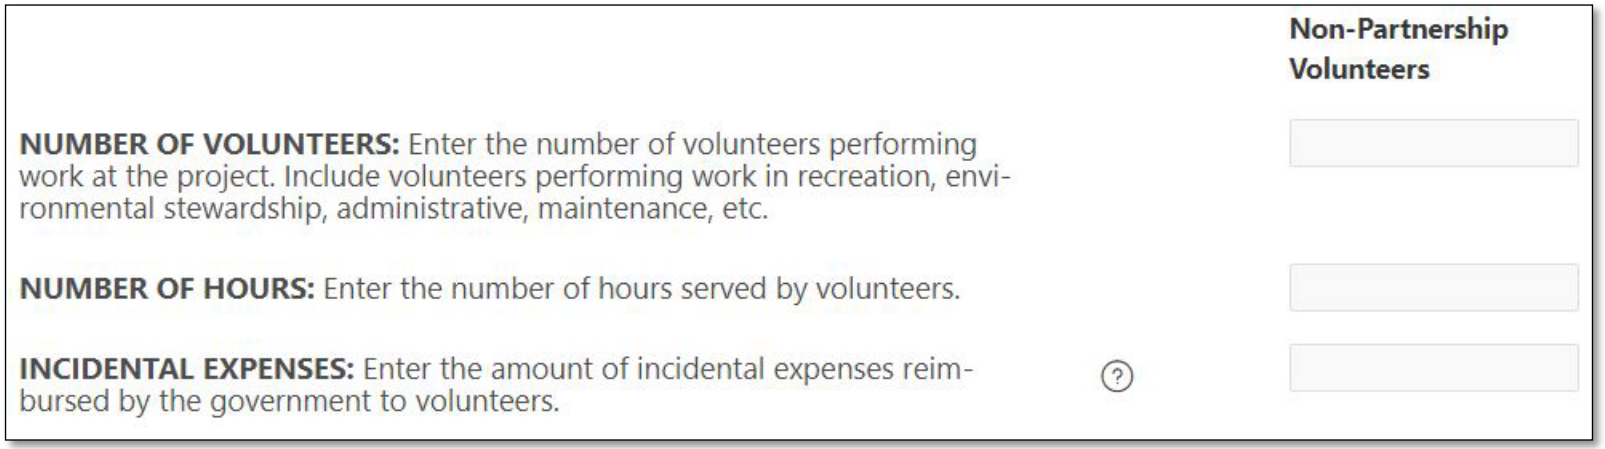
Entering Volunteer Hours Correctly

What in CWBI-OPS **DOESN'T** auto calculate:

- Total number of volunteer hours worked
  - Enter the TOTAL HOURS, not hours per volunteer
  - If you have 5 volunteers that worked 3 hours each, total volunteer hours should be 15 (not 3)

What in CWBI-OPS **DOES** auto calculate:

- Value of volunteer service
  - Automatically multiplies the total number of hours times the annual "value of volunteer service" set forth by the independent sector.



U.S. ARMY

STEP 1: Review Existing Partnerships

In this module you will have the opportunity to:

- Indicate that your project has no partnerships, if applicable
- Review existing partnerships and indicate active, inactive or terminated.
- Update business line, description, co-partners, purpose, and agreement type as needed.
- Add new partnerships

Partnerships in CWBI-OPS: Common Errors

Creating new partner organizations

If you are working with an organization that is a local chapter/location of a larger national organization, DO NOT create a new partner organization.

Instead, select the parent organization from the master list. For example if working with Boy Scout Troop 110, select Boy Scouts of America as the partner from the drop-down pick list.

Only create a new partner organization if the partner is truly a local unique entity not affiliated with a national parent organization (i.e John's Bait Shop or City of Carlyle)

Partnerships in CWBI-OPS: Common Errors

Special events

Many people forget that the contributions provided by partners is considered a partnership and has value.

Be sure to enter the partner info for Kids to Parks Day, National Public Lands Day, Major League Fishing (MLF) events, CAST fishing events, Get Outdoors Day, Bass Pro special events, etc.

The partner value should include the value of their time **and** supplies they provide for the event (this can be booth space or marketing materials).

Partnerships in CWBI-OPS: Common Errors

National MOUs

If a partner is on the list of national MOUs and there is not some other agreement type involved in the project, make sure to select MOU. Many lakes also have local MOUs.

Partnerships in CWBI-OPS: Common Errors

Contributions

Volunteer service value for individuals not affiliated with any type of organization should not be included in the partnership annual update section of CWBI-OPs, unless they have also contributed funds and/or materials/supplies.

Volunteers that work as part of an organization can be included here along with the value of funds, services, and materials contributed.

Volunteers that serve in an outgranted area (leased or licensed area) should not be counted in CWBI-OPS unless they are working directly for USACE in that area and signed up on a OF301a form.

Partnerships in CWBI-OPS Tool: Common Errors

Handshake (This is not the same thing as an informal partnership where you ‘shake hands’ with the partner.)

This partnership type should only be selected for those projects that have received handshake funds from HQUSACE in the past 2 fiscal years.

Once the handshake funded project is complete, if you still work with the partner in future years, you'll need to make that a new partnership type to reflect the work (i.e. contribution, MOU, challenge partnership as applicable)

Partnerships in CWBI-OPS Tool: Common Errors

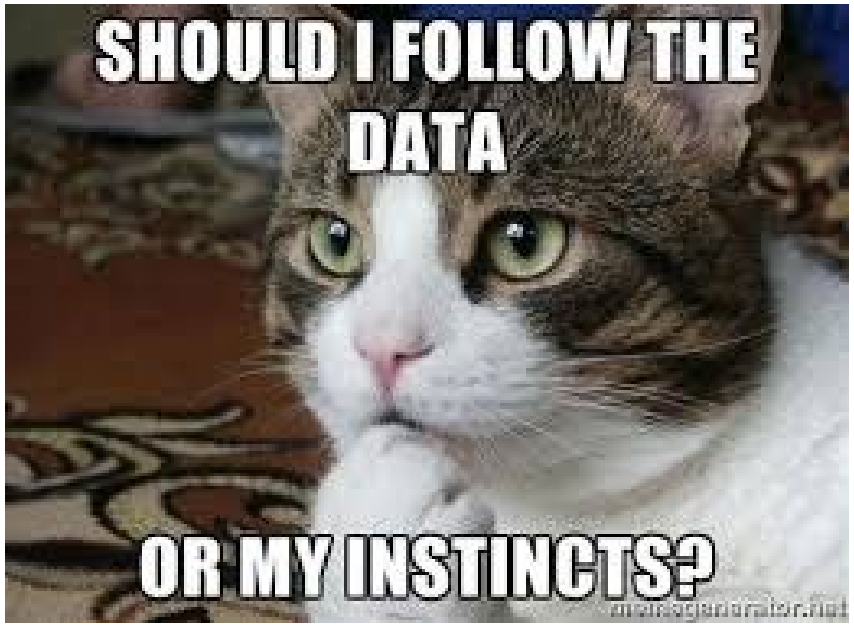
Corps Labor Hours

- We need to continue focusing on getting the Corps costs entered in addition to the partner value.
- There is always going to an employee's time that should be captured in the Corps Labor Hours column.
- We are also missing out on a lot of materials/ equipment value that we bring to these partnerships.

REMINDER: Enter CORPS HOURS instead of $$ of Corps Labor. The value will be auto calculated in the reports.

DATA QUALITY ASSURANCE TIPS

- ALL fields MUST be filled out.
- Please 0 fill for all number fields or N/A fill for all text boxes *(With the exception of the Co-Partners field. If no co-partners, leave blank.)*
- Leaving a field blank will cause issues for the completion status (cannot reach 100%).
- Please reach out to the District POC/BLM or the NRM Users' Group for questions.
- When in doubt: Ask questions.
- Never guess.



U.S. ARMY

Data Field Definitions

- **Value of sales** (only for cooperating associations) - total value of gross sales returned to the project in accordance with the agreement.
- **Funds invested** - total dollar amount of cash funds invested by the partner (excluding bookstore sales funds reinvested in project)
- **Professional services provided** - total $ value of professional services (i.e. engineer donating time to draft up plans and specifications or a grant writer donating professional time to research and write a grant proposal, etc.) provided by the partner. Calculate the value by multiplying the number of hours served times the prevailing hourly service charge.
- **Materials & equipment donated -** total $ value of materials and equipment provided by the partner. Calculate the value of equipment using the local hourly/daily rental rate cost

Data Field Definitions

- **HQ investment** (only for Handshake) - the total $ value received from the Handshake Partnership money provided by HQUSACE

- **Contract Costs**- the total $ value of services contracted by the Corps for use in conjunction with this agreement

- **Materials & Equipment provided** - the total $ value of materials and equipment provided by the Corps

- **Corps Labor Hours** - the total number of hours of staff time provided by the Corps. This number will later be auto-multiplied by an average $$ of a park ranger hourly rate to get the dollar value.

Partnerships

This module contains data for the USACE Partnership Program from FY10 to present. **Data displayed is a cumulative total until filters are applied.** Additional information on the Partnership Program can be found on the NRM Gateway here.

In today's financial environment **PARTNERING** is an essential tool that allows the U.S. Army Corps of Engineers to effectively manage recreation and environmental resources. In order to successfully meet our recreation and stewardship missions, and to foster shared values, vision, and a sense of ownership it is imperative that we work together with state governments, Native American tribes, private/public organizations, local communities, and other partners to maintain or advance programs from wildlife protection and habitat improvement to recreational facility enhancements. Partnering helps to pool scarce resources, to promote coordinated, focused, and consistent mutual efforts to resolve common problems and missions, and to avoid unnecessary duplication of effort. The NRM Program has embraced this reality and is committed to fully exploring the potential development of new public-private partnerships to leverage limited appropriated funds and human resources. The bottom line: **partnering is smart business.**

Making a difference
Volunteers play an invaluable role in helping the Corps of Engineers meet our recreation and environmental stewardship program goals. Each year, they give their time, expertise and resources to serve nearly 270 million visits by the public to USACE managed lands and waters. On average, approximately 35,000 USACE volunteers donate 1.5 million hours annually – the equivalent of 620 full time employees–with a labor value of $40 million, annually. In the natural resources management community, volunteer work equals approximately 20% of our workforce. More than 60 cooperating associations and 4,500 national and local partners also provide volunteers to help support the work of USACE.
Although volunteers' skills, knowledge, and time are priceless, USACE uses the figure calculated annually by the Independent Sector, the leadership forum for charities, foundations and corporate giving programs, to put a monetary value on volunteer contributions. Visit https://independentsector.org/resource/value-of-volunteer-time/ for the most current value.

Where does someone find out about volunteer opportunities?
USACE personnel can recruit their own volunteers or post opportunities on www.volunteer.gov, an interagency volunteer portal that is used by the Department of Interior, Department of Agriculture, Department of Defense, and
