How Do I Start a New Partnership?

- There are no easy solutions or simple SOPs for starting a new partnership.
- Finding partners and managing partners takes WORK!
- You will face challenges, roadblocks, and hang-ups; you may start 10 conversations with potential partners before you find a good fit.
- Be persistent and don't give up because the reward is worth the struggle.

Why I Love Working on Partnerships

- I like the challenge; I feel a bigger sense of accomplishment out of completing something difficult than if it was an easy lift.
- Meeting new people and developing new relationships, often times the people that you meet that are involved in building partnerships can be very interesting characters.
- The legacy it leaves- I like to think that some of the projects I've worked on will still be around strengthening my local community long after I am gone.
- Personal example- Clean Jordan Lake growing from a USACE staff workday cleanup to a Cooperating Association that organizes thousands of volunteers.
