U.S. ARMY

The Corps Volunteer Program

2

Volunteers play an important role in protecting natural resources and maintaining recreation facilities at Corps projects.

In 2024: 37,946 volunteers contributed 1,751,141 hours of work with an estimated value of \$58.6 million

Volunteers can perform almost any task that a paid employee can:

- Park/Campground/Visitor Center hosts
- Interpretation/education
- Fish and wildlife habitat improvements
- Invasive species management
- Trail construction and maintenance
- GIS/mapping
- Photography.... And more!

U.S. ARMY

Why You Need Volunteers

3

- Budget realities do not allow you to accomplish your mission with the staff and resources you have.

- Volunteers are your link to the local community. They are often some of the best advocates of the Corps of Engineers and our partners.

- Volunteers have unique skills and abilities that you can draw on.... Anything from a lifetime of experience to the strength and enthusiasm of youth

Every position we fill with volunteers, is an opportunity to engage the community and build our constituency.

U.S. ARMY

What Volunteers Can and Can't Do

- Volunteers can perform almost any task that a paid employee can do, provided they have received training or have experience.
- They can perform duties that once were or are currently performed by Corps employees.
- Cannot:
 - Enforce Title 36
 - Create policy

U.S. ARMY

Designing Positions for Volunteers

5

- Good volunteer position design is key to the ultimate success of a volunteer program.
- We are trying to 'sell' our volunteer opportunities, not only to the public but to our coworkers.
- It is important to stress the added value to the Corps by volunteers' efforts and give specific examples of how volunteers can help paid staff accomplish specific goals.
- Brainstorm programs or services you wish you could accomplish but cannot, due to limited resources.
- Ask coworkers to help refine these positions and develop new opportunities.

Motivating Your Volunteers

- People are motivated to volunteer for a variety of reasons. What one person loves to do; another might not prefer to do.
- It is the volunteer coordinator's goal to achieve planned results through other people, by giving them:
 - Ownership
 - Responsibility for outcomes
 - Authority to think
 - A defined way to determine success
- Create a sense of community (Ex: Coralville Lake volunteer newsletter)
- Have FUN. Having fun and spending time with your volunteers is better than any certificate or award.

U.S. ARMY

Organizational Chart for Volunteers

9

*It is important to establish a clear chain of command for volunteers to understand who they should report to (Example from Carters Lake, SAM)

Volunteer Management

- Recognizing if your volunteer is the wrong person for a particular task
- Dealing with difficult people
- Don't avoid having difficult discussions.
- Know when to cut someone loose.

"I take it this department has had conflicts."

U.S. ARMY

Volunteer Program Authority/Policy

- **33 USC 569c (Public Law 98-63), Amended by WRRDA 2014 Sec 1047(d) and WRDA 2024 Sec 1112:** Gave the Chief of Engineers the authority to accept the services of volunteers and provide for their incidental expenses, **including expenses relating to uniforms, transportation, lodging, and the subsistence of those volunteers, and paying for recognition items** to carry out any activity of the Corps except policy making, law or regulatory enforcement.
- **ER 1130-2-500**, Chapter 9, Volunteer Program.
- **Policy Letter 04-01**, October 2004: Established the Corps use of the Independent Sector's hourly rate to determine the value of service
 - FY 25 rate = \$34.79 (Typically updated each April during National Volunteer Week)

Volunteer Background Investigation Procedures and Requirements Decision Matrix

Fingerprinting

- Level 2 and 3 volunteers require background investigation processing through District Security Office.
- Fingerprinting may be conducted at military bases, District or Division Offices, Project offices, military recruiting centers, universities, other Federal agencies, or law enforcement offices.
 - HQ Security Office may have funding to provide to locations that need to purchase fingerprinting machines. Any USACE employee can take volunteer fingerprints and submit them through the web-based system to their District Security Office.
 - Digital fingerprints are the preferred collection method. In locations where digital collection is not available, fingerprints may be obtained on the SF 87 or FD 285 fingerprint card and submitted to the District Security Office for transmission to the Personal Security Investigation Center of Excellence (PSI-CoE). All fingerprint cards require a valid Security Officer identifier (SOI), Submitting Office Number (SON), and an Agency Location Code (SLC) to be processed in PSI-CoE.

Civilian Inmate Labor Program

The CILP benefits both USACE and corrections systems by providing meaningful work for inmates and providing a source of labor at no direct labor cost to USACE Civil Works projects to accomplish tasks that would not be possible otherwise due to staffing and funding constraints.

Only minimum-security community custody inmates are authorized to perform tasks at Army Civil Works projects.

- USACE requesting site identifies a need for CILP inmate labor and makes contact with local correctional facilities to discuss details of the program and potential work projects.
- USACE requesting site uses template MOA for either Federal or State/Local facilities and works with correctional facility manager to outline the details of the agreement.

RICKEY HILL

South Atlantic Division

Rickey has been a volunteer at John H. Kerr Reservoir in Virginia for the last 3 years. He has been an amazing park host at Rudd's Creek Day Use Area during the summer months. During the winter months, Rickey is the handy man. He has built a mailbox holder for one of the campgrounds that has the USACE Castle engraved on the side. Rickey has rebuilt steps to a swimming area, repaired many other staircases around the project, repaired bulletin boards (replaced plexiglass, corkboard and shingles), removed years of old paint from the handrails at the Education Center, and added reflective tape on many traffic counters found around the lake. Rickey is always willing to give any task a try and help wherever he can.

2025 Handshake Program Funding Recipients

Heather Burke, National Partnership and Volunteer Program Manager, HQUSACE

The Handshake Program offers a source of seed money to U.S. Army Corps of Engineers (USACE) lakes/rivers for worthwhile partnership projects. The intent of this program is to enhance existing recreation opportunities and natural resources by providing an incentive to USACE projects to utilize partnering initiatives to their fullest potential by combining funding from local USACE projects and their partners to benefit the public.

Six projects selected for 2025 Handshake funding are:

- **Arcadia Lake:** Mountain bike trail improvements
- **Atwood Lake:** Habitat enhancement and linking MUR USACE to the Motus Wildlife Tracking System Network
- **Coralville Lake:** Amphitheater restoration
- **Cordell Hull Lake:** TRACK trail development
- **Kaw Lake:** Pavilion construction
- **Raystown Lake:** Portable invasive species boat washing station

For more information regarding the Handshake Program, please visit the [Handshake page](#) on the NRM Gateway or contact your division Partnership Advisory Committee member. ■

Reminder: April 20- 26, 2025 is National Volunteer Week

This is a great opportunity to recognize the collective impact of volunteer service to the USACE NRM program. National Volunteer Week can be used to offer up new volunteer opportunities, identify and thank volunteers who lend their time and skills to make a difference in their communities.

USACE has entered into a new master national cooperative agreement with SCA under the authority of Sec 213(a) of WRDA 2000. This authority allows USACE to enter into cooperative agreements with non-federal public or nonprofit entities for services related to natural resource conservation or recreation management of Civil Works projects to further training and educational opportunities. The new agreement with SCA is set up for one year plus four option years and is being administered by the Fort Worth District. ■

Recognize Your Valuable Volunteers with a Volunteer Excellence Coin

USACE, in partnership with the Corps Foundation created three styles of coins to recognize the extraordinary service provided by volunteers, draw attention to their vast skills and contributions, and encourage an attitude of stewardship and responsibility in caring for USACE lands, facilities, and resources.

Small Coin

Large Coin Version 1

Large Coin Version 2

Volunteers can be nominated for small and large coins at any time throughout the year to recognize outstanding achievements by filling out the form found on the [NRM Gateway](#).

When considering a volunteer or group of volunteers to receive a coin, be prepared to answer the following questions as a guide.

- How did this volunteer or volunteer group go beyond other volunteer's efforts?
- How did they work with partners to improve recreation, environmental conditions or visitor interpretive facilities?
- How did the volunteer or group contribute significantly to public understanding of USACE?
- Did the volunteer or group help keep an area remain open that would have otherwise been closed?
- How did the volunteer or group contribute to natural resource conservation?

You will need to provide a short write-up and some photos on the nomination form to your [Division PAC team representative](#) to request a coin.

(A great way to find out more about our outstanding partners and volunteers!)
