Partnerships

[Headquarters POC](#)
[Partnerships Pages Quick-finder Index](#)

In today's financial environment PARTNERING is an essential tool that allows the U.S. Army Corps of Engineers to effectively manage recreation and environmental resources. In order to successfully meet our recreation and stewardship missions, and to foster shared values, vision, and a sense of ownership it is imperative that we work together with state governments, Native American tribes, private/public organizations, local communities, and other partners to maintain or advance programs from wildlife protection and habitat improvement to recreational facility enhancements.

Partnering helps to pool scarce resources, to promote coordinated, focused, and consistent mutual efforts to resolve common problems and missions, and to avoid unnecessary duplication of effort. The NRM Program has embraced this reality and is committed to fully exploring the potential development of new public-private partnerships to leverage limited appropriated funds and human resources.

This page will help you determine the right tools for your partnerships, find the right training to expand your knowledge, and learn from the successful efforts of your peers. You will find answers to longstanding questions and discover how to effectively utilize important partners such as the [Corps of Engineers Natural Resources Education Foundation](#). The bottom line: **partnering is smart business**.

INTRODUCTION TO THE NRM PARTNERSHIP PROGRAM

US Army Corps
of Engineers®

U.S. ARMY

U.S. ARMY

The Partnership Philosophy

6

The U.S. Army Corps of Engineers plays a key role in shaping the future of our Nation's water resources. Our **partners are essential** in making this happen. We recognize that partnerships must **flow in both directions**. **Cooperation** and **collaboration** are the keys to innovative solutions to meet a diversity of need. When we put our heads together, we can find answers far better than anything we can think of ourselves.

Partnerships are a smart way of doing business.

U.S. ARMY

“Too often we think of a partnership as a handout instead of a handshake.”

-General Strock

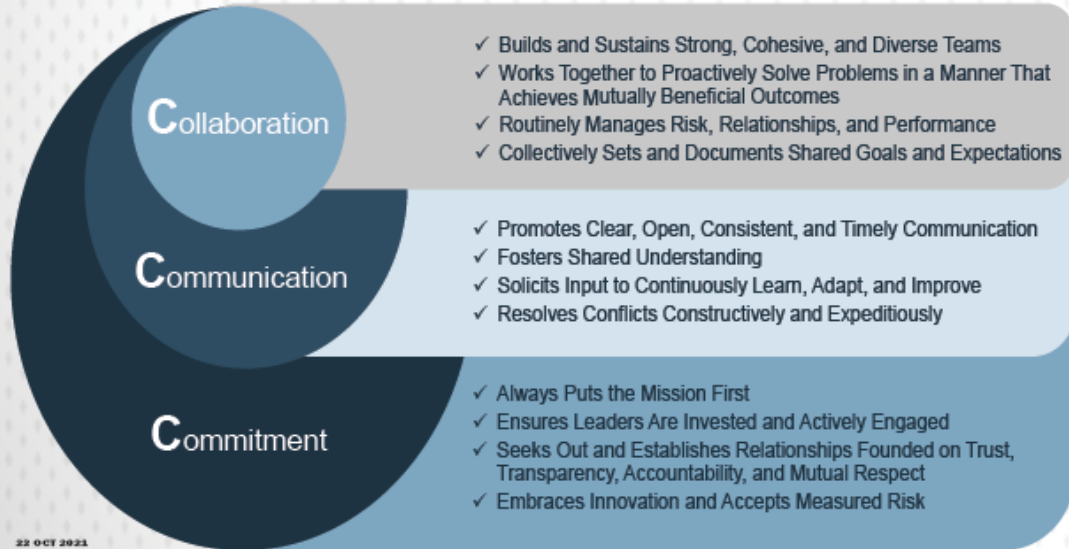

U.S. Army Corps of Engineers Partnering Philosophy

“Committed to working together with partners to accomplish the mission and build enduring relationships through trust, transparency, and shared values.”

- Lt. Gen Scott Spellmon

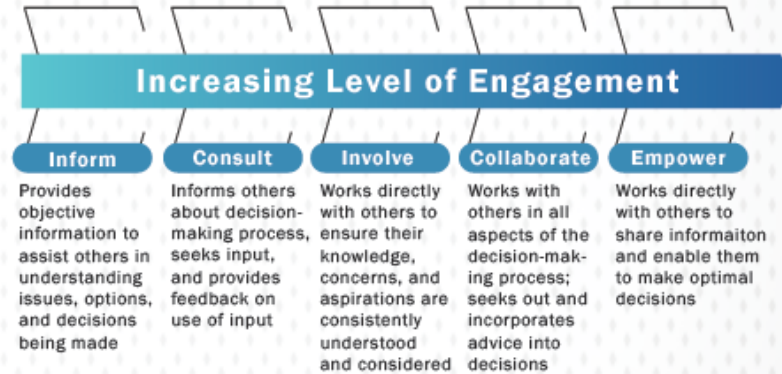

Sound partnerships require proactive engagement at all echelons of the organization and the embracement of a partnering mindset which embodies a set of behaviors rooted in three interdependent and mutually supportive elements: Commitment, Communication, and Collaboration.

3C's of Successful Partnering

Relationship Spectrum

Each partnering relationship is unique and exists along a spectrum with transactional relationships at one end and strategic relationships on the other. Where these relationships fall along that spectrum and the extent of collaboration are influenced by the type of partnership, maturity of the relationship, and commitment towards partnering.

“We must always strive to maximize partnering outcomes to enable the safe delivery of quality projects that are on time and within budget.”

- Lt. Gen Scott Spellmon

U.S. ARMY

What is a Partnership?

9

- A mutually beneficial relationship where people work together to achieve goals
- Voluntary collaboration working toward a common objective related to the agency/partner's mission
- Combines individual strengths to solve problems
- Builds consensus and broad-based community support

- Leverages funds and resources to meet challenges and improve opportunities
- Appropriate legal authority, consistent with agency policies

U.S. ARMY

What is a Partnership?

- They may be formal or informal. 
- Can be as simple as a contribution of materials, services, or funds (It is NOT a lease, license, or contract)
- Partnerships grow and change with time.
- Within a successful partnership, all parties both provide and receive benefits.

PARTNERSHIP

"You give me half the fish, and I tell my Mom to let you live."

U.S. ARMY

What's the Big Deal About Partnerships?

- Avoid unnecessary duplication of effort and promote coordinated efforts to resolve common challenges
- Partnerships are not only important, but they are also a necessity!
- Agency culture needs to promote partnering as a part of the management model and encourage training for staff.
- FY 23 Rec/ES budget = ~\$450M. Without sustainable cost-effective partnerships => Decrease in services and amenities and degradation of natural resources
 - FY 22 partnerships reported in NRM Assessment: 4,563 partnerships (33% increase from FY 22) with a total value of \$139.4 million
 - 32,398 Corps volunteers contributed 1.54 million hours of work with a value of \$46 million

U.S. ARMY

Partnership Connection to the NRM Strategic Plan

13

NATURAL RESOURCES MANAGEMENT PROGRAM

STRATEGIC PLAN

2021 - 2031

- Partnerships show up in three of the four Goals, with heavy focus in Goal 4 (Program Delivery)
- Communication: Engage stakeholders, elected officials, partners, and local communities at all levels to build awareness of the NRM program and achieve win-win opportunities.
- Resourcing: Explore opportunities to broaden partnering authorities and prioritize budget packages that utilize partnership contributions for gained efficiencies.
- Program Delivery: Foster Partnerships and Interdisciplinary Collaboration

U.S. ARMY

Building the Partnership Paradigm

- Be proactive. Don't wait until you need something from someone.
- Attend local community events and make personal invitations to potential partners.
- Partnerships are not “free.” They take time and effort to cultivate, and require a foundation built on trust to be successful.
- Where there is a will, there is a way.
- Partnerships are about getting to yes and finding ways to get things done.
- Partnerships should be treated like a marriage.

U.S. ARMY

Principles for Success

- Establish clear expectations of roles and responsibilities at the beginning of the relationships to avoid future trials and tribulations.
- Get to know your partners as people 1st. Build that into the process.
- Use processes such as master plan development as an opportunity to collaborate.
- Engage partners in budget decisions such as park closures, reduced services, etc. Run the scenarios and see how they can help before the final decisions are made.

- Never pass up a good catalyst.

- Don't reinvent the wheel. Use the Gateway, the PAC team, and your fellow classmates to find out if someone has done what you'd like to do.
- Share the resources and rewards.
- For a successful partnership, think of volunteers and partners as investors who expect a return on the value they provide.

Partnering Authorities/Guidance

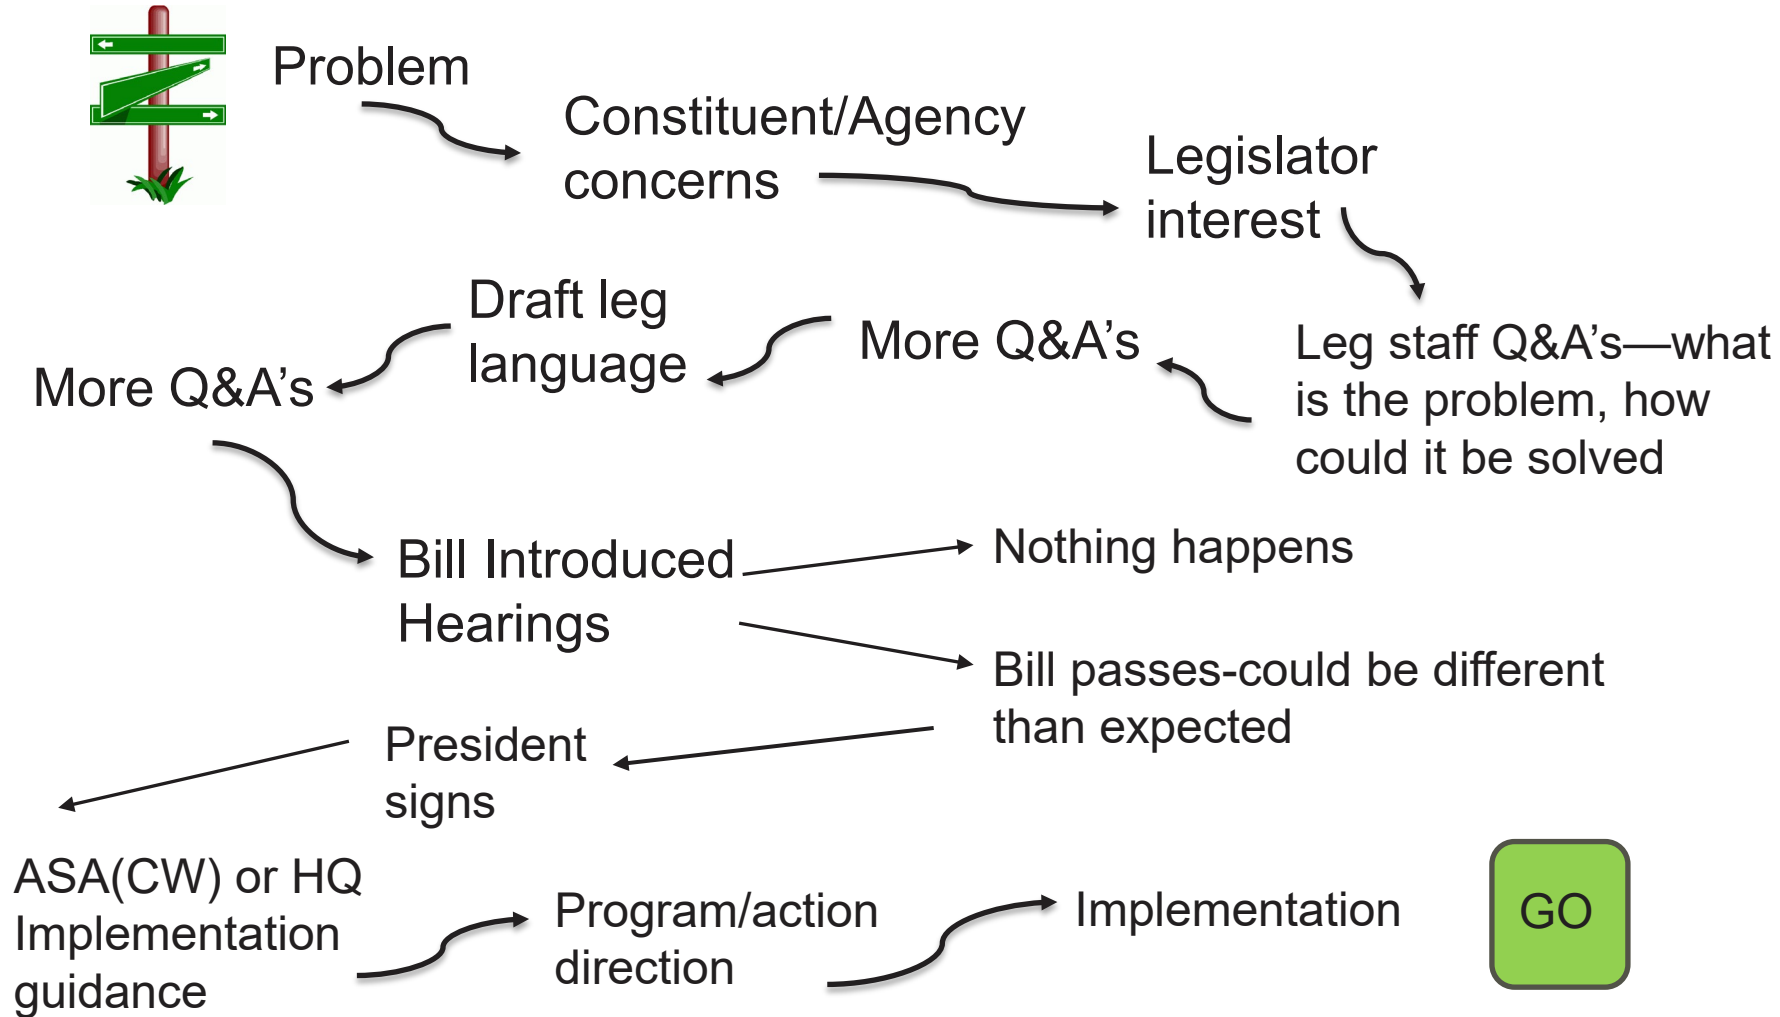

- **WRDA 2016: Sec 1155, WRRDA 2014: Sec 1047d, WRDA 1992: Sec 203 (33 USC 2325) and Sec 225 (33 USC 2328), PL 98-63 (33 USC 569c), WRDA 2022: Sec 8124:** Authority to accept contributions, volunteers, set up Challenge Partnership, Challenge Cost-Share Cooperative Management Agreements, and accept Reserve troop training services
- **31 USC 1535, 41 USC 501, 31 USC 6301, 7 USC 2814, WRDA 2000: Sec 213 (33 USC 2339), WRRDA 2014: Sec 1031(b), 10 USC 2358:** Authorities to enter into agreements for services with other federal agencies (Economy Act), cooperative agreements for noxious weed management, education/training, research & development with universities, and agreements with Indian tribes
- **ER/EP 1130-2-500**, Partners and Support, Chapter 9 (Cooperating Associations), Chapter 10 (Volunteers) –replaced by WRRDA 2014 Implementation Guidance 12 Aug 2016, Chapter 11 (Contributions), Chapter 12 (Challenge Partnerships, formerly called Challenge Cost Share)

(These chapters are currently undergoing update with the goal of pulling them out to create a separate ER for NRM Partnerships and Volunteer policy guidance)

How Do We Get New Laws and Authorities for Programs?

It's a tortuous path—sometimes with unintended consequences

U.S. ARMY

Authorized NRM Partnership Types: Choosing the Right Tool for the Job

NOTE: Sometimes, more than one type of agreement will work for your partnership.

- **Economy Act Agreements:** Agreements for services and/or supplies with other federal agencies
- **Cooperative Agreements:** Agreements where the Corps transfers money or a thing of value to a partner for services and/or supplies. Authority for cooperative agreements is limited to specific types.
- **Cooperating Associations:** Tax-exempt non-profit, free-standing corporate entities with boards of directors, set up through a cooperating association agreement
- **Challenge Partnerships:** Agreement with non-Federal public and private entities on facilities and natural resources maintained at full Federal expense

NRM Partnership Types

- **Challenge Cost Sharing Cooperative Management Agreement:** Agreement with non-Federal public entities to cooperatively manage and collect/retain fees on facilities and natural resources maintained at full Federal expense
- **Memorandums of Understanding/Agreement (MOU/MOA):** “Agreement to agree” but does not obligate funds. MOA establishes legal terms that will be included in a support agreement/reimbursable order to follow
- **Volunteer Agreements:** Allow the Corps to accept services of volunteers for a variety of natural resources work with the exception of law enforcement and policy-making
- **Contributions Program:** Simplest form of partnership. Acceptance of money, materials, or services from groups and individuals for environmental stewardship, restoration, and recreation

Regulations and Policies

A partnership does not allow the Corps to circumvent applicable legal requirements in areas such as:

- Procurement
- Personnel or labor laws
- Printing, publishing or audiovisual production
- Issuance of special use permits
- Real estate licenses and leases
- Fiscal responsibility
- Environmental regulations

Bottom Line: Regulations and Policies
MUST BE FOLLOWED !

NOTE: It is just as important to build good relationships and trust with your internal partners/ support staff such as Office of Counsel, Resource Management, Contracting, Real Estate, etc. These staff members are essential to have on board when developing partnership agreements. Engage them early and often!

How To Develop a Partnership

[Step 1](#)
[Assess Situational Needs](#)

[Step 2](#)
[What Kind of Partnership
is Right for You?](#)

[Step 3](#)
[Budget Development and
Financing](#)

Step 2 - What Kind of Partnership is Right for You?

District Commanders are responsible for approval/execution of most partnering agreements. However, this authority can be delegated to the Chief of Operations or the Operations Project Manager through a delegation of [authority memo](#). The Corps of Engineers has a number of authorities and programs that allow it to provide work or funds or accept work or funds from Federal, State, Tribal, or non-Federal entities. The following list includes the partnership types within our authorities. [Click here for a Partnership Agreement Flow Chart](#)

Challenge Cost Sharing Cooperative Management Agreements - The Corps may enter into agreements with non-Federal public entities for the purpose of cooperatively managing public recreation areas, where fees may be collected and retained by the partner for reinvestment at the site at which the fees are collected. ([WRDA 2016, Sec 1155, Implementation Guidance for Section 1155 of WRDA 2016, Management of Recreation Facilities](#))

Challenge Partnerships – The Corps can enter into agreements to accept funds, materials, and services from non-Federal public and private entities to provide for operation and/or management and development of recreation facilities and natural resources at water resource development projects, where such facilities are being maintained at full federal expense. This program allows the Corps to accept services or funds in the above circumstances; it does not permit the Corps to reimburse for services. The contributed resources are combined with regular project resources to accomplish work within current authorities and contained in the annual or five-year plan in the approved operational management plan. ([33 USC §2328, WRDA 1992, Sec 225; EP 1130-2-500, Chapter 12; ER 1130-2-500, Chapter 12](#)).

Cooperating Associations – The Corps may enter into agreements with tax-exempt, non-profit organizations that volunteer services to the Corps. Cooperating associations are used to accomplish such broad goals as natural resource management, interpretation and visitor service activities at Corps civil works projects, fee-owned lands, and other areas for which the Corps has administrative and management responsibilities. ([33 USC §2328, WRDA 1992, Sec 225; EP 1130-2-500, Chapter 9; ER 1130-2-500, Chapter 9](#)).

Volunteers – The Corps is authorized to accept the services of volunteers to carry out any Corps activity except policy-making or law enforcement. Volunteer agreements allow the Corps to accept the services of volunteers and to provide for their incidental expenses. ([33 U.S.C. §569c; Implementation Guidance for Section 1047\(d\) of WRRDA 2014](#)).

Contributions Program – The Corps is authorized to accept contributions of cash, funds, materials, and services from persons, including governmental entities but excluding the project sponsor, in connection with carrying out a water resources project for environmental protection, restoration or recreation. Contributions must be used for work items within current authorities and contained in an approved annual five-year operational management plan. A contributions plan serves as the agreement for this program. Note: Real estate cannot be accepted under this program. ([33 U.S.C. §2325, WRDA 1992, Sec 203; EP 1130-2-500, Chapter 11; ER 1130-2-500, Chapter 11](#)).

Memoranda of Understanding (MOU)/Memoranda of Agreement (MOA) – These are “agreements to agree” which coordinate the Corps’ authorized activities with another entity. MOUs often state common goals and nothing more. Thus, MOUs do not contemplate funds transfers and should usually include language that states something similar to: “This is not a funds obligating document; by signing this agreement the parties are not bound to take any action or fund any initiative.” They may be used to run a program a certain way so that it functions better with the program of a sister agency, for example.

MOAs, on the other hand, often establish common legal terms that will be read into every Support for Others reimbursable order that follows. MOAs do not obligate any funds of themselves but they establish the terms for future service and cite one of the appropriate authorities to do so.

Economy Act Agreements – The Economy Act of 1932, ([31 U.S.C. 1535](#)), authorizes an agency to place orders for goods and services with another Federal agency (or a major organizational unit of an agency). It can be used when: 1) funds are available, 2) the head of the ordering agency determines that it is in the best interest of the government, and, 3) the head of the ordering agency decides that ordered goods or services cannot be provided as conveniently or cheaply by contract with commercial enterprise. These must be shown by a Determination and Findings (D&F), prepared by the ordering agency. The performing agency must be able to provide the goods or services in-house or by contract, and parties should verify under Part 8 of the FAR that the responsibility for this good or service is not assigned to another agency of the Federal government.

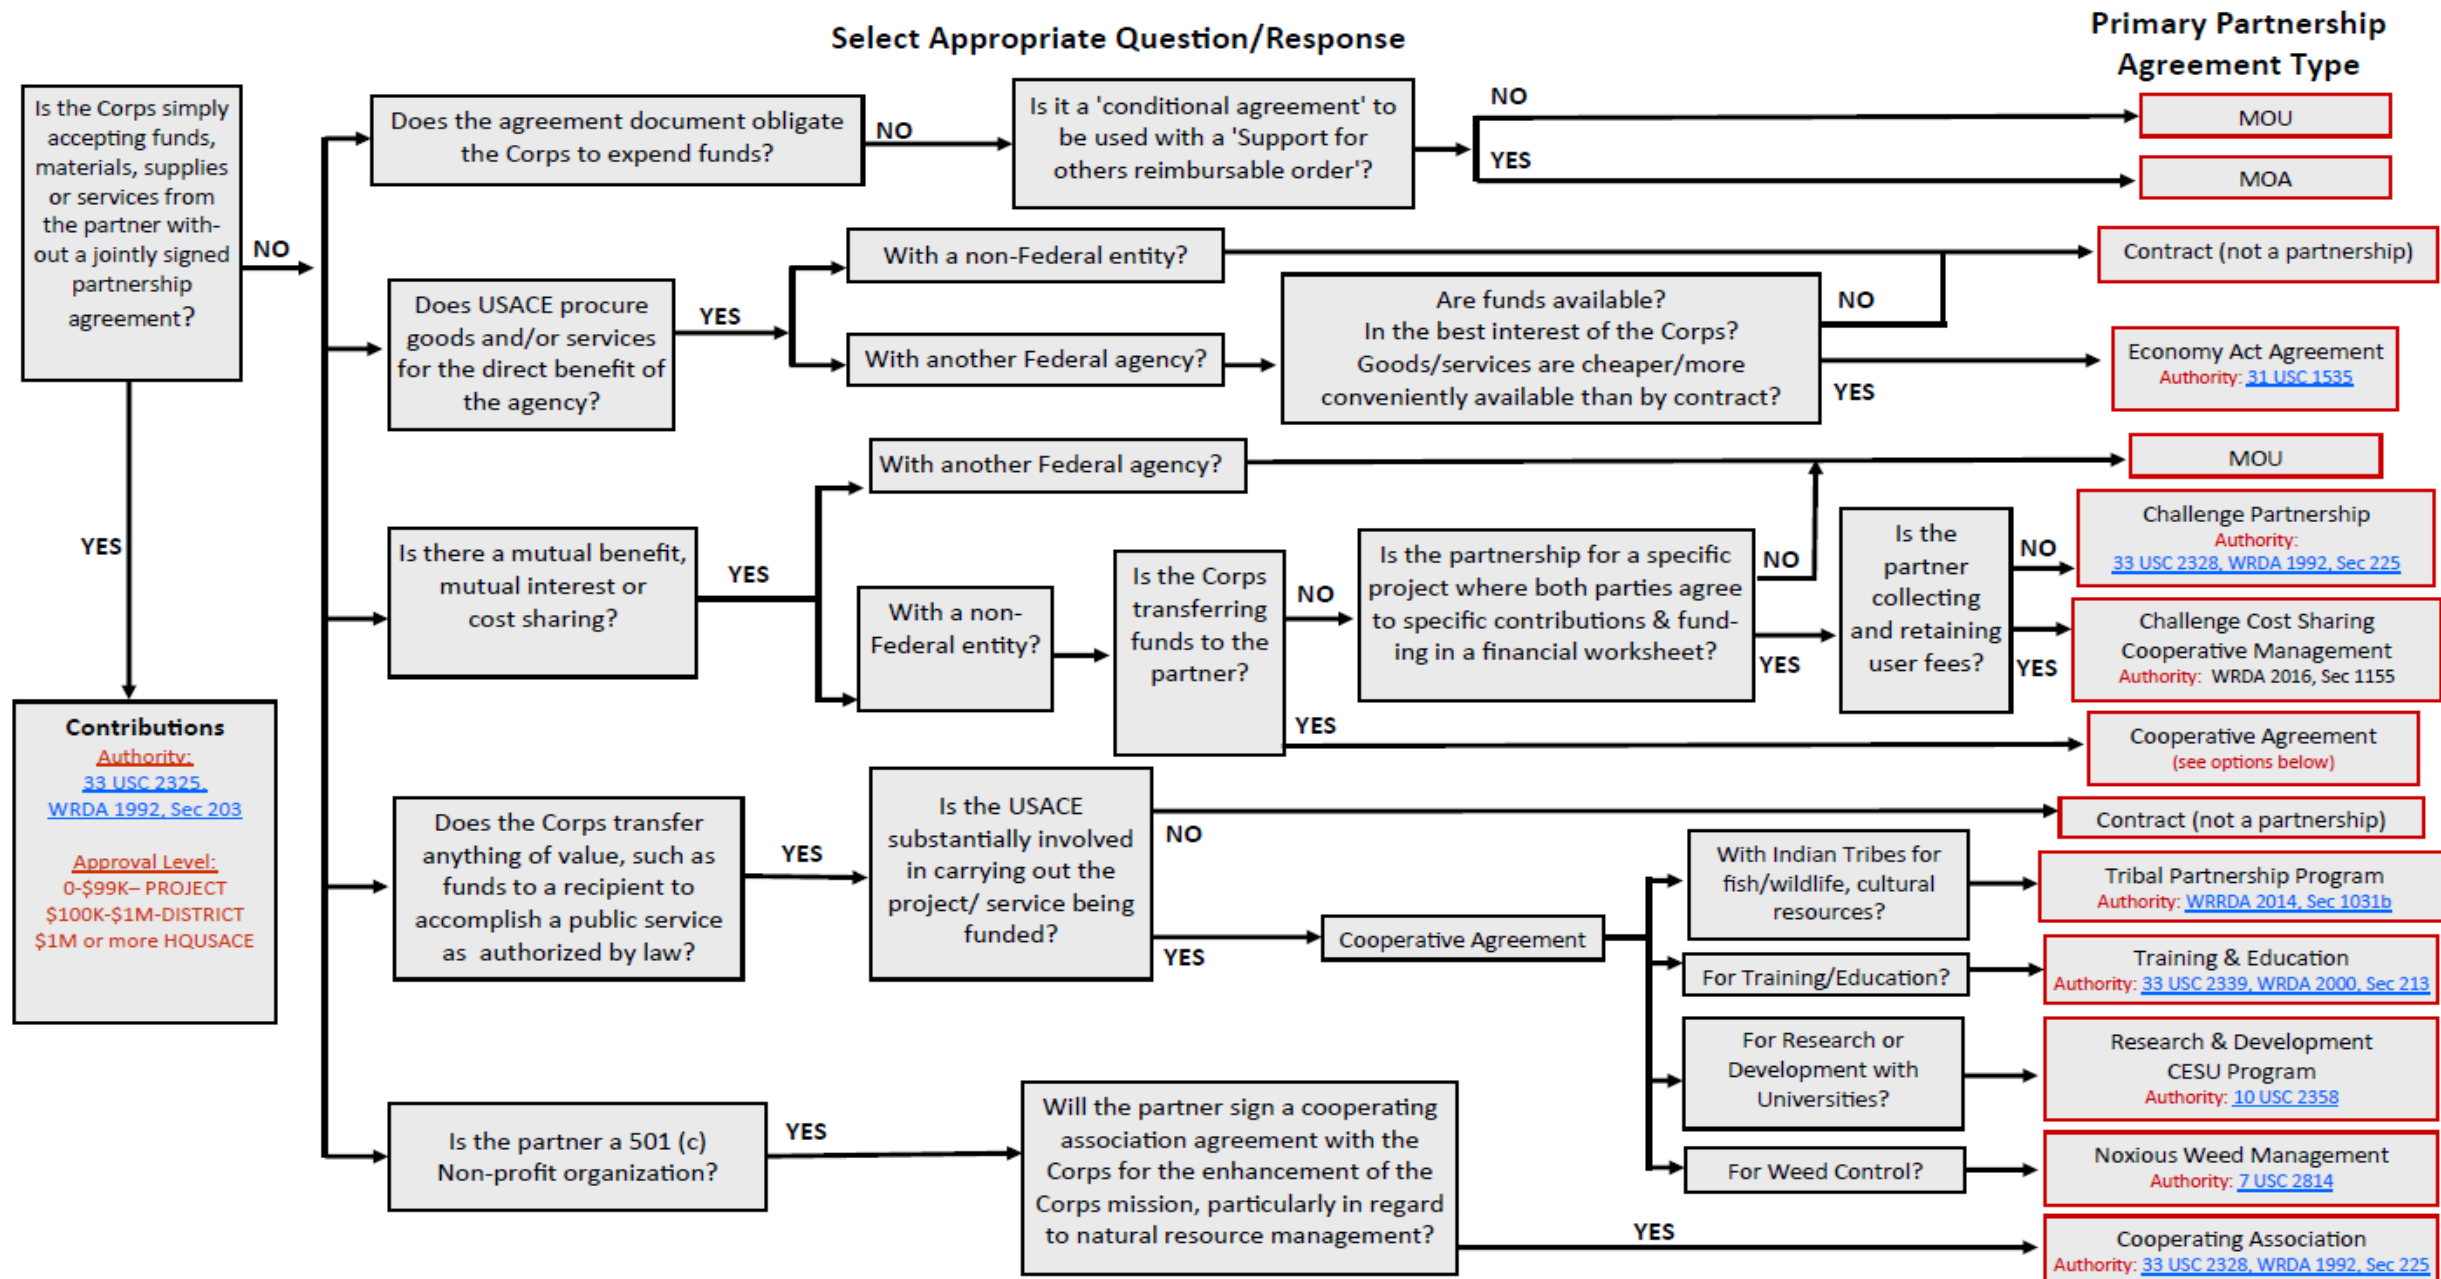

The Economy Act cannot be used for partnerships with non-federal entities, and is only used with federal agencies when another more specific transfer authority is not available. When entering into an Economy Act agreement with a non-DoD entity, the Corps must enter into an agreement by which the ordering agency agrees to pay all costs.

Cooperative Agreements for Educational and Training Activities – The Corps may enter into cooperative agreements with non-Federal public and nonprofit entities for natural resources conservation or recreation management work that furthers training and educational opportunities. ([33 U.S.C. §2339, WRDA 2000, Sec 213](#)).

Cooperative Agreements for Management of Undesirable Plants on Federal Lands - The Corps may enter into cooperative agreements with State agencies to coordinate the management of undesirable plant species on Federal lands. This integrated management system can include education, preventative measures, physical or mechanical methods, biological agents, herbicide methods, cultural methods, and general land management practices such as manipulation of livestock or wildlife grazing strategies or improving wildlife or livestock habitat. ([7 USC 2814](#))

NRM Partnership Agreement Approval Levels

This document is intended to provide a brief overview of available partnership authorities and approval requirements. Corps personnel should coordinate all proposed agreements with their Office of Counsel.

Agreement Type	Authority	Special Considerations	\$ Value	Signature*
Contribution	33 USC 2325, Sec 203 of WRDA 1992	Acceptance level based on \$ value	< \$2,500: Any staff member \$2,500 to < \$100K: Manager \$100K to < \$1M: District NRM and OC \$1M or >: HQUSACE OC, NRM, DCW *Reference 2008 Contributions, Fundraising and Recognition Reference Guide, Sections 5.2 and 5.3	No agreement to sign. District Contributions Plan provides authorization.
Challenge Partnership	33 USC 2328, Sec 225 of WRDA 1992	Signature based on \$ value	\$25K or <: delegable to OPM > \$25K to \$200K: delegable to Ops Chief > \$200K: District Commander *Reference ER 1130-2-500, Ch 12-2.k.	District Commander unless delegated to Operations Project Manager and/or Chief of Operations per ER 1130-2-500. Agreements involving projects in more than one district must be approved by MSC Commander or their delegate.
Challenge Cost Sharing Cooperative Management	WRDA 2016, Sec 1155		N/A	District Commander *Reference 30 Mar 2018 CDCW-CD Memo: Implementation Guidance for Section 1155, Management of Recreation Facilities, of the Water Resources Development Act (WRDA) of 2016, PL 114-322
Cooperating Association	33 USC 2328, Sec 225 of WRDA 1992	A moratorium is currently in place for cooperative agreements and associated leases that allow CAs to collect and retain fees for use of Corps facilities. *Reference CDCW Memo dated 12 September 2018.	N/A	Agreements that do not involve fee collection/retention may be approved by District Commanders. Until further guidance is issued, all agreements involving fee collection/retention for use of Corps facilities must be approved at HQUSACE.
Economy Act	31 USC 1535	Agreements w/ DoD entities	N/A	District Commander *Reference ER 1160-3-1, para. 6.
		Agreement w/ non-DoD agencies where the Corps is the servicing agency	N/A	MSC Commander unless delegated to District Commander. *Reference ER 1160-3-211, para. 8.
		Agreements w/ non-DoD agencies where the Corps is the ordering agency	N/A	SES or General Officer. *Reference DoD FMR Vol. 11A, ch. 3, para. 030304.
Memorandum of Understanding (MOU)	No explicit authority required. MOUs are non-binding agreements that do not commit either party to do anything. However, the Corps must have authority to perform the activities or carry out the intentions referenced in an MOU.	Level of signature depends on complexity of agreement and level of partner signature	N/A	OPM, Operations Chief, District Commander or higher official - depends on which authority is cited (if any) and/or level of signature at partner organization. Agreements with regional or national implications should be coordinated with affected MSCs and HQUSACE.

Memorandum of Agreement (MOA)	Authorities vary. MOAs are used to document binding agreements between parties based on specific statutory authority (e.g., Economy Act agreements).	Depends on authority	Depends on authority	Depends on authority
Volunteer	33 USC 569c	Delegation memo on file	N/A	District Commander unless delegated. <small>*Reference 13 Aug 2014 CEOW-CD Memo: Implementation Guidance for Section 1047(d) Services of Volunteers, of the Water Resources and Reform Development Act (WRRDA) of 2014, Pl. 112-121.</small>
Cooperative Agreement - Noxious Weed Management	7 USC 2814	All cooperative agreements must be signed by a certified grants officer, regardless of \$ value. The authority for who can enter into the cooperative agreements varies depending on the specific law.		ASA (CW) has authority to enter into the agreement. Grants Officer signs the agreement.
Cooperative Agreement-Educational/Training Activities	33 USC 2339, Sec. 213 of WRDA 2000 as amended by Sec.1047(e) of WRRDA 2014			District Commander has authority to enter into the agreement. Grants Officer signs the agreement. <small>*Reference 30 Aug 2015 CEOW-CD Memo: Implementation Guidance for Section 1047(e) Training and Educational Activities, of WRRDA 2014, Pl. 112-121 and Delegation Memo to all District Commanders</small>
Cooperative Agreement -with Indian Tribes for fish/wildlife, water quality, cultural resource protection	WRRDA 2014, Section 1031(b)			Director of Civil Works has authority to approve district MOAs and delegate authority to Division and District Commanders to enter into cooperative agreements. District Grants Officer signs the agreement. <small>*Reference 03 August 2016 CEOW-P Memo: Implementation Guidance for Section 1031(b) of the Water Resources Reform and Development Act (WRRDA) of 2014, Cooperative Agreements (CAc) With Indian Tribes</small>
Cooperative Agreement-Collaborative Research & Development (CESU Program)	10 USC 2358			Director of Army lab has authority to enter into the agreement. Grants Officers who have received delegated authority sign the agreement.

**Note: Signature levels listed are national standards. District Commanders have the authority to set stricter standards within their command. Check with your District Office of Counsel for further guidance.*

U.S. Army Corps of Engineers Partnership Opportunities

Why Partner with the Corps?

Benefits of Partnering with the Corps

- Potential for national exposure by partnering with a federal agency
- Variety of partnering opportunities because of the Corps' diverse missions
- Potential market branding to reach out to new customers
- One of the nation's leading federal providers of recreation
- We manage more than 400 lake and river projects equaling more than 12 million acres of land and water in 43 states.
- Our parks have significant economic impact, with visitors spending upwards of \$10.7 billion on trip expenses, strengthening the environmental, social and economic health of communities.
- 5,000 recreation sites with more than 93,000 campsites, 3,700 boat ramps, 7,800 miles of trails, of which 90% are within 50 miles of a metropolitan area

Connecting with the Corps

The U.S. Army Corps of Engineers manages some of the most cherished lakes, rivers and lands near your cities and towns. Communities are proud of their special place in our parks. Great family memories are created during a boating, fishing, camping trip, or after a quiet day of hiking or biking on one our many trail systems. These experiences are important in strengthening families and organizations. Our parks also have significant economic impact, with 250 million visits per year supporting 180,000 jobs in communities near Corps lakes.

With the help of our partners, we can provide more service to the public than without you by our side.

To find out more about partnering with the Corps please visit: <https://corpslakes.ercd.dren.mil/visitors/partners.cfm>.

Partner Spotlight

The Corps Foundation assists by partnering with a wide range of organizations including local Friends groups, private individuals and businesses to support educational activities which enhance our visitor's experiences.

To learn how you can work with our national foundation, visit the Corps Foundation website: <http://corpsfoundation.org>

Connecting with Communities

Natural Resources Management Excellence in Partnership Award: General Wehr, Colonel Mitchell, and Mary Coulombe presented the Excellence in Partnerships Award to the Okaw Valley School District for their partnership with Lake Shelbyville in Illinois. Over 300 middle and high school students, project partners, teachers, and elected officials were present for the award. The school district leases land from the project which provides a learning environment for the students in land and water stewardship, recreation, and facility maintenance and operations. Businesses in the local communities donate materials, equipment, and financial support. This partnership was started with Corps Handshake program seed funds which are matched by the partner, and in this case significantly exceeded. This award is sponsored by the Corps Foundation.

Okaw Valley students planting trees at Lake Shelbyville.

\$400,000 Grant from Birkenfeld Trust Provides Major Upgrades to Support Visitor Education at the Hiram M. Chittenden Locks

Colonel John Buck, Seattle District Commander, acknowledges the single largest gift nationally to a Corps of Engineers facility. Jim Adams of Discover Your Northwest and Rich Deline of the Corps Foundation, two non-profits supporting visitor education at the Locks, accept the check from Claire Bishop of the C. Keith Birkenfeld Memorial Trust. The funds will be used to renovate and update the fish ladder exhibits and viewing area.

A Final Note

In a time of decreasing federal funding, America's lakes and waterways are at risk of reduced access, eliminated programs, and closures. By partnering and working together, we can help maintain and improve programs and facilities and keep these treasured resources healthy and vibrant.

Partnership with Roanoke River Basin Association

Partnership with FLW (Fishing League Worldwide)

WHY PARTNER WITH JOHN H. KERR RESERVOIR?

Benefits of Partnering

- Potential for national exposure by partnering with a federal agency
- Variety of partnering opportunities because of the Corps' diverse missions
- Potential market branding to reach out to new customers
- One of nation's leading federal providers of recreation
- At Kerr Reservoir millions of visitors each year enjoy Corps managed campgrounds (x4), boat ramps (x16), day use areas (x15), wildlife management areas (x26), trails (x2), environmental education center, and cultural resource sites
- Kerr Reservoir is located within 90 minutes of major metropolitan areas

Connecting with Kerr Reservoir

In the 1950's, Kerr Reservoir, also called Buggs Island Lake, was constructed for flood control, hydropower generation, recreation, fish and wildlife conservation, and local water supply. The 800 miles of wooded shoreline stretch across three counties in Virginia and three in North Carolina. Along this shoreline great memories are made while camping, boating, fishing, swimming, picnicking, hiking, and hunting.

These experiences are important in strengthening families and organizations. Our parks also have significant economic impact, with approximately 4 million visitors per year spending on trip expenses, strengthening the environmental, social, and economic health of communities.

John H. Kerr Dam, Buggs Island Lake

Old postcard image taken from downstream side of Kerr Dam.

With the help of our partners, we provide more service to the public than without them by our side.

PARTNERSHIP SPOTLIGHT:

The Corps Foundation assists by partnering with a wide range of organizations including local Friends groups, private individuals and businesses to support educational activities which enhance our visitor's experiences. To learn how you can work with our national foundation, visit the Corps Foundation website: <http://corpsfoundation.org>

DISC GOLF COURSE IN NORTH BEND PARK

In 2019, a disc golf course was established in North Bend Park. The course is designed for all ages and levels of experience. You can visit our North Bend Day Use Area Gatehouse to sign-out discs and enjoy the course! Thank you to our partners including the Southside Virginia Disc Golf Association, Roanoke River Basin Association, and Dominion Power for their work on this project.

ISLAND CREEK ACCESSIBLE FISHING PIER

Through a handshake agreement with Veterans of Foreign Affairs and American Legion this partnership built Veterans Park at Island Creek Recreation Area by installing an accessible fishing dock, picnic shelter, and portable toilet. Construction of the facilities was provided by military personal, SEABEES, and other military affiliated groups. Other partners on this project include: NASCAR's Jeff Burton and Paralyzed Veterans of America. This partnership helped increase access to recreational opportunities by supporting the right for all citizens to recreate on public land.

NATIONAL PUBLIC LANDS DAY CONTRIBUTIONS

In 2021, park rangers and volunteers gathered at five locations around Kerr Reservoir to participate. Cleanup efforts across the Lake improved safety for our visitors, aesthetics at each site, and the health of the ecosystem by removing plastic, broken glass, and other trash from public lands. This event was possible through our partnership with Skanska and Cleveland Construction. They provided t-shirts, first aid kits, gloves, trash bags, water, and snacks for volunteers.

BRIDGING THE GAP

Volume 7 | Issue 1 | March 2023

About Bridging the Gap

"Bridging the Gap" is an electronic publication produced biannually by the U.S. Army Corps of Engineers Partnership Advisory Committee (PAC). The purpose of this newsletter is to provide information about the partnerships and volunteer program around the country. For more information, or to submit stories for future editions, contact your PAC representative.

National MOU: America the Beautiful Interagency MOU on Promoting Equitable Access to Nature in Nature-Deprived Communities

In September 2022, ten federal departments signed a new MOU to establish a framework to collaborate, learn from each other, and engage more effectively in supporting local leaders' efforts to improve access to and create, expand, steward, and conserve parks and green and blue spaces for current residents of nature-deprived communities. This effort focuses on strengthening investments in communities who have been locked out of the benefits nature provides, and to ensure all Americans can benefit from safe parks, natural areas, and waterways where they live, work, and play by expanding access to local parks, tree canopy cover, conservation areas, open space and water-based recreation, public gardens, beaches, and waterways. ■

Mark Your Calendars!

Have you attended the PROSPECT Partnerships in NRM class yet? If not, sign up for one of our classes:

- ✓ FY 23 Session 3: Summersville Lake, Summersville, WV. September 11 - 14, 2023
- ✓ FY 24 Session 1: Mark Twain Lake, Monroe City, MO. June 24 - 27, 2024
- ✓ FY 24 Session 2: Falls Lake, Wake Forest, NC. September 16 - 19, 2024

Reminder: April 16 - 22, 2023 is National Volunteer Week

This is a great opportunity to recognize the collective impact of volunteer service to the USACE NRM program. National Volunteer Week can be used to offer up new volunteer opportunities and identify and thank volunteers who lend their time, talent, and voice to make a difference in their communities. ■

2022 National Volunteer of the Year Award Recipients

This year's USACE national volunteer of the year award recipients are Red and Joy Lyons of Carters Lake in the Mobile District. They have donated more than 5,100 hours of volunteer service over a two-year period. In 2022, they coordinated, led, or supported a dozen interpretive events, made hundreds of water safety contacts, saved USACE tens of thousands of dollars in repairs and specialty construction work, and provided thousands of dollars' worth of training to produce a hands-on artistic experience for visitors. One of their most substantial contributions was working to form Carters Lake's first and only nonprofit organization, Our Beautiful Carters Lake.

The national volunteer award is sponsored by the Corps Foundation to recognize extraordinary service provided by volunteers, draw attention to their vast skills and contributions, and encourage an attitude of stewardship and responsibility in caring for USACE lands, facilities, and resources.

2023 Handshake Program Funding Recipients

The Handshake Program offers a source of seed money to USACE lakes/rivers for worthwhile partnership projects. The intent of this program is to enhance existing recreation opportunities and natural resources by providing an incentive to USACE projects to utilize partnering initiatives to their fullest potential by combining funding from local USACE projects and their partners to benefit the public.

Seven projects selected for 2023 Handshake funding are:

- Alum Creek Lake - ADA trail for all
- Beach City Lake - Disc golf course
- Dale Hollow Lake - Fishing access improvements
- Lake O' the Pines - Dock safety improvements and kayak launches
- Mansfield Hollow Lake - Pine barren restoration
- Lake Shelbyville - Archery park
- Truman Lake - Roadside park

For more information regarding the Handshake Program, please visit the Handshake page on the NRM Gateway or contact your division Partnership Advisory Committee member. ■

Rathbun Regional Water Association

Phillip Brown, OPM, Rathbun Lake, NWK

"Value to the Nation," sure that may be true...but for most who live around USACE water resource projects, it's "value to a region." Rathbun Lake, located in the Southern Iowa region of the Kansas City District, fits that description. Beyond the most obvious or nationally visible reasons for a water resource project is the often 'overlooked' authorized purpose of water supply. Rathbun Lake is a vital water supply source to 90,000 customers throughout an 18-county area in S. Iowa and N. Missouri. Our water supply allocation contract is with Rathbun Regional Water Association (RRWA) recognized long ago the significance of collaboration to facilitate their need to improve water quality of Rathbun Lake, and they have been leading the charge for over 20+ years. >

Partnerships in Natural Resources Management

Our Nation's lakes, rivers, and parks need you! Imagine yourself creating new recreation opportunities, improving and creating trails, preserving history, protecting wildlife, caring for the environment, ensuring healthy watersheds, expanding learning opportunities, or improving accessibility.

Each year, the Army Corps of Engineers partners with thousands of individuals and organizations on recreation and environmental projects to enhance our nation's natural resources. We are proud of our broad range of existing partners and eagerly seek to expand mutually beneficial relationships with others.

Review

- Partnerships are all about relationships, trust, and communication.
- They take an investment of time and commitment and require flexibility to adapt to change.
- Types of partnerships used by the Corps NRM program:
Contributions, MOU/MOAs, Challenge Partnerships,
Challenge Cost Sharing Cooperative Management Agreements,
Economy Act, Cooperative Agreements, Cooperating Associations, Volunteers
- Although leases, licenses, and contracts may be used as instruments in addition to a partnership agreement type covered in this class, they are NOT partnerships themselves.
- You probably have more partnerships than you realize.
