U.S. ARMY

WRDA 2022, Sec 8124: Reserve Component Training

Benefits of Military Troop Support at Civil Works Projects:

- Provides invaluable and necessary training for military units to build readiness and gain construction/project management skills on projects that cannot be replicated elsewhere
- Interaction between uniformed service members with civilian technical experts in USACE provides well-rounded engineer forces that are better trained and equipped with the skills necessary to accomplish mission-essential tasks.
- Accomplishes goals of NRM program and completes projects that are unfunded and/or backlog maintenance items
- Gains efficiency for projects' strained maintenance funding

U.S. ARMY

Troop Training Exercise Examples

3

- Heavy equipment training for road resurfacing
- Design, construction and/or repair of trails, gatehouses, campsites, fish habitat, ADA fishing docks, radio towers, bridges, drainage ditches, splash pads, playgrounds, sewer systems, pole barns, roads, parking lots, pipes, picnic shelters, stairs, sun shelters
- Disaster response
- Search and rescue training
- Boundary and monument surveys
- Aerial inspections
- Dive team underwater inspections, video, photography, assessments
- Demolition of radio tower, buildings, rocks in quarry
- Flood debris removal
- Prescribed fire and firefighting
- Plumbing and electrical work
- Earth moving/hauling for environmental restoration and erosion protection
- Replacement of whalers and cleats on boat dock and house
- Damaged gage sensor reconnaissance

U.S. ARMY

Active Duty vs. Reserve vs. National Guard

4

- **Active duty:** Member serves in the military full time, may live on a military base, and can be deployed at any time.
- **Reserve or National Guard:** Members are not full-time active-duty military personnel, although they can be deployed at any time should the need arise.
- **Reserve:** Each branch of the military has a Reserve component. The purpose of the Reserve is to provide and maintain trained units and qualified persons to be available for active duty in the armed forces when needed. The primary job of the Reserve is to fill the gaps in stateside service positions when the active-duty forces ship overseas.
- **Army or Air National Guard:** While federally funded, the National Guard is organized and controlled by state, operating in a non-Federal Title 32 status. However, in times of war, the National Guard can become federalized and deployed in a Title 10 status.

U.S. ARMY

Section 8124 of WRDA 2022 Authority

- Permits reserve components of the Armed Forces, in carrying out military training activities or otherwise fulfilling military training requirements, to perform services and furnish supplies in support of a USACE water resources development project or program without reimbursement.
- Reserve components of the Armed Forces include:
 - Army National Guard when federally activated in Title 10 status
 - Army Reserve
 - Navy Reserve
 - Marine Corps Reserve
 - Air National Guard when federally activated in Title 10 status
 - Air Force Reserve
 - Coast Guard Reserve
- This authority does NOT pertain to state activated National Guard units operating in a non-federal Title 32 status. (HOWEVER: These are permissible under the authority of 33 USC 2325 consistent with Contributions Program guidance.)

U.S. ARMY

Where to Find Reserve and Guard Units

- Air Force Reserve: <https://www.afrc.af.mil/Units/Units-by-State/>
- Army Reserve: <https://www.usar.army.mil/Locate-a-Reserve-Unit/Reserve-Unit-Locations/>
-
- Coast Guard Reserve: <https://www.reserve.uscg.mil//>
- Marine Corps Reserve:

- Navy Reserve: <https://www.thereserveforce.com/navy/nosc/>
- Air National Guard: <https://www.nationalguard.mil/Resources/State-Websites/>
- Army National Guard: <https://nationalguard.com/select-your-state>

U.S. ARMY

Key Provisions

- Services cannot be accepted from any reserve component member employed by USACE
- Soldiers performing services under this authority on USACE projects are considered employees/members of the reserve component to which they are assigned, and the soldiers will remain under the command and control of their applicable units.
- All pay, allowances, and benefits, to include any liability protection of reserve component members are 100% the responsibility of the reserve component.
 - Exception: Travel expenses of reserve component members may be funded by USACE through an Economy Act order as necessary.
- USACE may provide supervision and materials to execute a project.
- Soldiers may operate USACE vehicles, machinery, or other equipment if they have proper training, licenses, or experience in accordance with USACE policies.

U.S. ARMY

Armed Forces Reserve Component Training Agreement (AFRCTA)

- All support provided by reserve components under this authority will be agreed upon/defined in an Armed Forces Reserve Component Training Agreement (AFRCTA) signed by reserve unit and USACE leadership.
- Approval levels for AFRCTA:
 - MSC Commanders for any agreement exceeding a total value of \$1,000,000 for any of their districts.
 - District Commanders for agreements with a total value greater than \$500,000, but equal to or less than \$1,000,000.
 - District Chiefs of Operations for agreements with a total value greater than \$100,000, but equal to or less than \$500,000.
 - OPMs/Park Managers for agreements with a total value equal to or less than \$100,000.
- Work accomplished by reserve components shall be within current USACE authorities and contained in the annual or five-year plan in the approved Operations Management Plan (OMP) or Master Plan.

U.S. ARMY

Armed Forces Reserve Component Training Agreement (AFRCTA)

- Purpose and goal of the training exercise
- Work to be accomplished, to include a project schedule and detailed scope of work description;
- Detailed description of the project site
- Equipment, materials, personnel provided by the reserve component and by the USACE
- Responsibility for lodging and meal accommodation costs for projects not in the immediate vicinity of the reserve component location
- Safety requirements
- Security and access requirements for the project site
- Requirement that USACE review all design plans
- Responsibility for damage to USACE property
- Points of contact for each organization

U.S. ARMY

Military: Operation Warfighter/Wounded Warrior

10

- Many agencies have **hired wounded warriors into permanent positions** as they “graduate” from OWF and transition out of the military.
- Many participants have indicated that OWF, as a wellness activity, restored a sense of normalcy and **eased the transition back to work.**
- Not just about employment – Placing wounded, ill and injured Service members in supportive work settings outside of the hospital environment **positively impacts the recuperation process.**

U.S. ARMY

Put that Unusual Skill to use

- Wounded Warrior Travis Barnett participates in the unmanned aerial vehicle program in SAJ
- IDs prop scarring on manatees and digitizes into ARC GIS so planners can accurately quantify scarring
- Locates & IDs plant species
- Performs maintenance on Unmanned Aerial Vehicles (UAVs)
- Developed a comprehensive UAV training program for new pilots and ground station operators.

U.S. ARMY

Department of Defense (DoD) Skillbridge Program

12

- Allows Service members to gain valuable civilian work experience through specific industry training, apprenticeships, or internships during the last 180 days of service.
- For Service members: provides chance to work and learn in civilian career areas
- For USACE: access and leverage the world's most highly trained and motivated workforce at no cost. DOD pays for all salary and benefits
- Service members participating in SkillBridge receive their military compensation and benefits, and industry partners provide the training and work experience.
- Need to sign an MOU with DOD and then post the opportunities on the SkillBridge page.
- <https://skillbridge.osd.mil/program-overview.htm>
- <https://skillbridge.osd.mil/industry-employers.htm>
- <https://home.army.mil/imcom/index.php/customers/career-skills-program>

U.S. ARMY

Wounded Warriors.Org

13

MISSION: To honor and empower wounded warriors.

VISION: To foster the most successful, well-adjusted generation of wounded warriors in this nation's history.

PURPOSE:

- Raise awareness/enlist public's aid for injured service members
- Help injured service members aid and assist each other.
- Provide unique, direct programs and services to meet the needs of injured service members.

Partnership between USACE Jennings Randolph Lake, Storm Mountain, Inc., and the Wounded Warrior Project – raised \$32,000

Partnerships

Military Partnerships

The Corps of Engineers is dedicated to encouraging the use of Corps recreation resources by the military and their families. Increased public awareness of Corps recreation programs, including increased awareness by Department of Defense and Armed Forces Commands, is a high priority.

Goal 2.4 of the [Corps Recreation Strategic Plan](#) is to “Strengthen relationships with military installations to meet the needs of both military families and the recreating public to foster use of Corps facilities by active duty, retired, and reserve military veterans and families.”

The Corps will contribute to the readiness and resilience of military members and their families through their participation in activities and programs at Corps lakes and rivers. The Corps will strengthen its unique relationship with the U.S. Armed Forces by expanding recreation programs and services for military members and their families. The Corps will promote safe and healthy outdoor recreation opportunities at Corps projects to all U.S. Armed Forces personnel, military families, and veterans.

WHAT IS YOUR PROJECT DOING WITH THE MILITARY?

U.S. ARMY

Educational Institute Partnerships

18

- Involvement with local universities and schools is a natural fit with the Corps' increasing emphasis on environmental stewardship and Science, Technology, Engineering, and Math (STEM).
- A good program can foster ownership of the project, which is beneficial when seeking community support.
- Think beyond the obvious... graphic design, environmental studies, event planning, recreation, biological sciences, engineering, architecture
- Give them the opportunity to say yes.

Job/Intern Fairs

These are an easy way to begin interaction with your local university.

- Recruit volunteers
- Educate
- Establish an agency presence
- Establish relationships

U.S. ARMY

Guest Speaker for Intro to Rec Classes

20

The Athletic Department is a great way to promote water safety but the Recreation Department is your best way to get direct student interaction at your lake project.

- Educate
- Establish an agency presence
- Recruit
- Develop relationships

Case Study: W. Kerr Scott Lake & ASU

- **Make initial school commitment easy**, i.e. “Could we have 10 minutes of your time to take a picture of the mascot in a life jacket? Anytime would work for us.”
- At W. Kerr Scott Reservoir in SAW, Appalachian State University allowed a ranger to come to a practice to get photos and video of players, coach and mascot wearing life jackets and promoting water safety.
- *Note: Always take photos of the mascot and coach separately in addition to together in case of coaching staff changes.*

W. Kerr Scott Lake- SAW- North Carolina

Origin- Ranger Eller got the idea to work with ASU after the football team made headlines for defeating Michigan, reached out to Rec and Athletic Departments to find opportunities to work together, partnership snowballed from there.

Senior Design Classes: National Innovations Team and University of Texas Arlington

23

- Established MOU in 2022
- Senior Design Classes are (2) Semester program: 1st Semester is planning, design, resourcing. 2nd Semester is building out the Innovation into a physical prototype/product.
- Small teams of Senior Design IT Students pair up with Innovations Sub teams and work together on challenging Innovations Prototypes and Products.
- Each group works together for an entire year. University funds first \$800 of R&D for the students.
- Currently working on: Augmented Reality Floor Projections, USACE Corps Catch, Park Ranger Holograms, VR/360 App, & Sign Translator Tool.

Carters Lake Water Safety Game with KSU (SAD)

26

Kennesaw State University (KSU) College of Computing and Software Engineering worked with Carters Lake in Georgia

- Three teams developed prototypes and proposals for an “I Spy... Water Safety” game
- USACE staff selected favorite to develop further and implement at the project visitor center and on their website
- Presentations by the student teams:
<https://www.youtube.com/watch?v=6WwPXPrnBel>

Fall 2023 Final Presentation for Carters Lake

U.S. ARMY

Southern Illinois University at Lake Shelbyville- MVS

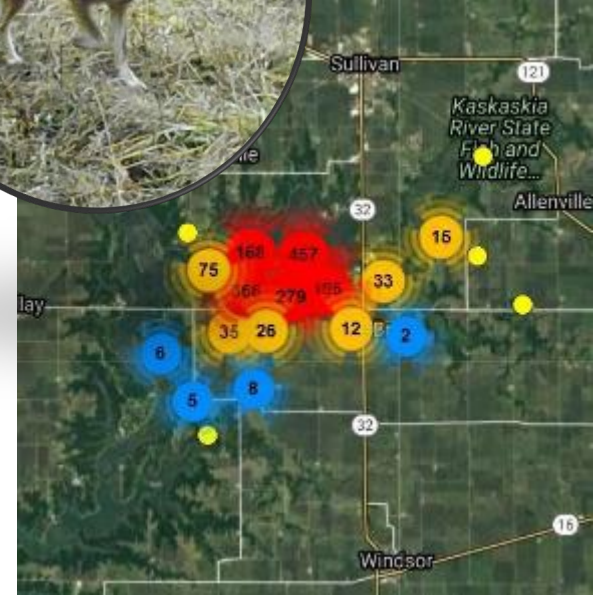

Study aimed at determining the effects of coyotes and bobcats on survival and behavior of white-tailed deer and determine how it varies between contiguous and fragmented landscapes.

- Young female bobcat GPS collared. Travelled approx. 65 miles from site of capture within first month.
- Buck tagged at 2.5 years old. Summered on east side of the lake and crossed the lake.
- Coyote shown to have a home range of approx. 20% of Lake Shelbyville.

Origin: This study spun off from a deer research project originally started in 2006.

Lake Shelbyville 11K AC

U.S. ARMY

Boise State Kestrel Box Program

Students at Boise State University build and install kestrel nest boxes, develop management plan, monitor populations, and band birds.

Lucky Peak Lake- NWK- Idaho

Origin: Project wanted to expand the ENS program, connected with experts at the World Center for Birds of Prey who advised that Lucky Peak would be great Kestrel habitat except there aren't any trees for cavity nesting birds. Connected with BSU who already had a Kestrel nest box program, and the partnership grew from there, including a partnership with New Roots organization that connects refugee and immigrant children to their new natural environment.

U.S. ARMY

Franklin Pierce Bat Studies at Edward MacDowell

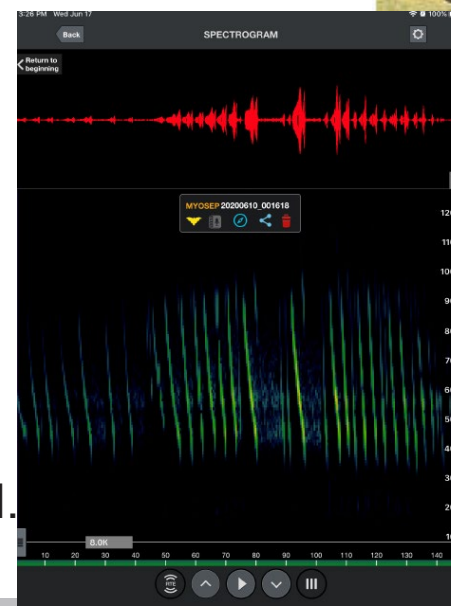

29

- Students conduct studies to determine bat species presence to establish a baseline data set
- Mist netting surveys in 2019
- Acoustic surveys in 2020-2021
- Seven of eight known bat species in NH documented
- Three of four state endangered bat species present
- Future studies hope to incorporate telemetry to document forest-ed areas used as roosting habitat by target species such as the northern long-eared bat.

Edward MacDowell Reservoir- NAE- New Hampshire

Origin: Univ. biologist approached USACE to form partnership because this project had the most diversity of bat species in NH.

2019 Ranger Trading Card Program

Our purpose is to increase water safety awareness among children and parents.

PROGRAM GUIDELINES

1. Park Rangers will distribute cards to children 15 years of age and under.
2. Children can obtain cards by answering questions and/or by demonstrating to the Park Ranger that he/she understands safe swimming and/or boating practices regarding water safety.
3. Cards must be brought to the Project Management Office to be redeemed for prizes.

Award items are available at:

Allatoona Lake Operations
Project Management Office
1138 GA Highway Spur 20
Cartersville, GA 30121
• For questions or office hours •
Call 678-721-6700.

A Special Thank You to Our Sponsors:

Water Safety Partnerships

The U.S. Army Corps of Engineers has developed an extensive [national water safety program](#) as well as local community programs to educate visitors about the importance of water safety. Partnerships are a great way to add impact and reach a broader audience with the goal of saving lives. The Corps has partnered with many organizations for water safety product development, special events, and water safety educational programs.
