 - **ARMY** program

OWF Program Objectives

Operation Warfighter: DoD internship program that places wounded, ill, and injured Service members in supportive work settings that:

Positively impact the recuperation process through the return to work.

Help participants get ready to return to duty or separate from the military.

Help Federal government agencies to better understand the skill sets and challenges of transitioning wounded, ill and injured Service members.

Internship Overview

Service members are matched with assignments that consider their interests and utilize their skills, thereby creating productive internships beneficial to the participant and the employer.

Employer pool is limited to Federal agencies. Salaries are paid by DoD.

DoD will provide necessary security clearances.

DoD will assist in facilitating transportation.

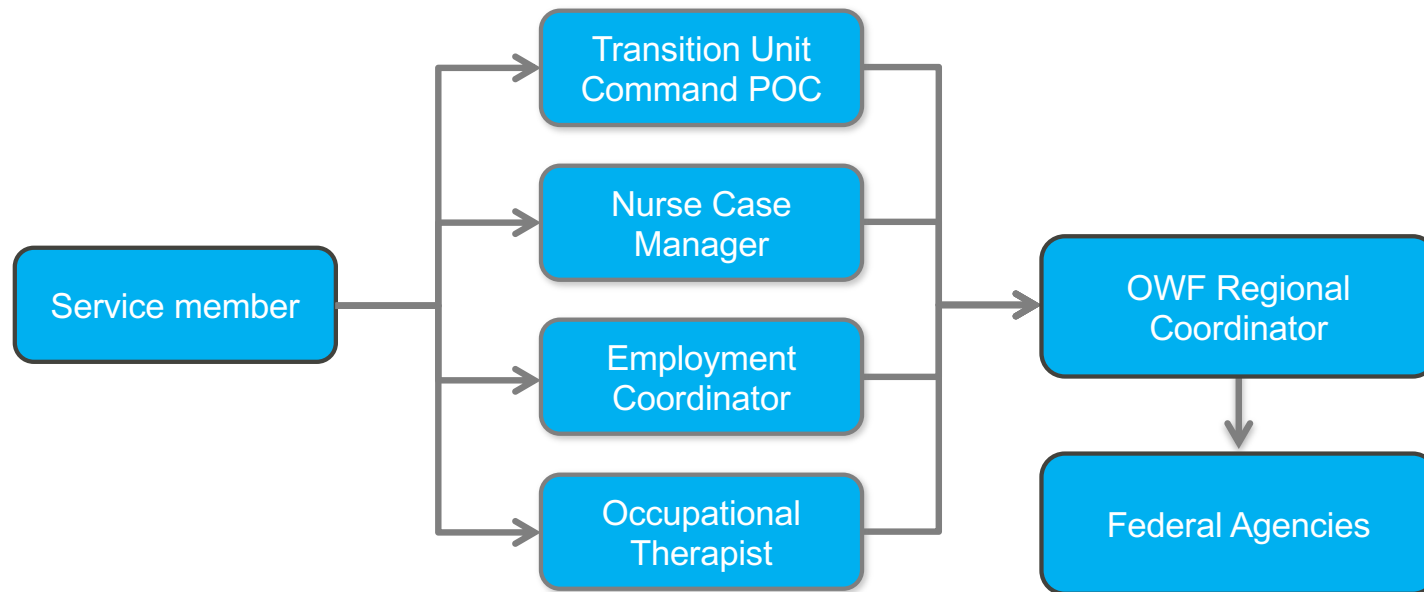

OWF Partners with the DoD Computer and Electronics Accommodations Program (CAP) to provide participants' CAC/ computer access

Successful Outcomes

- Many agencies have **hired wounded warriors into permanent positions** as they “graduate” from OWF and transition out of the military.
- Many participants have indicated that OWF, as a wellness activity, restored a sense of normalcy and **eased the transition back to work.**
- Not just about employment – Placing wounded, ill and injured Service members in supportive work settings outside of the hospital environment **positively impacts the recuperation process.**
