Objectives

Executive Order

Facilitation of Cooperative Conservation

- ▶ . . . to ensure that the Departments of the Interior, Agriculture, Commerce, and Defense and the Environmental Protection Agency implement laws relating to the environment and natural resources in a manner that promotes cooperative conservation, with an emphasis on appropriate inclusion of local participation in Federal decision making, in accordance with their respective agency missions, policies, and regulations.

Joint Ventures: Partners in Stewardship

- Partnership conference in Los Angeles, November 2003
- First time the 7 land management agencies co-convened an effort of this kind
- One-stop networking between the federal government and partners
- Over 1,600 participants
- Demonstrated the Chief's commitment to partnering

“Too often we think of a partnership as a handout instead of a handshake.”

The Seven Land Management Agencies

- U.S. Army Corps of Engineers
- U.S. Forest Service
- National Park Service
- Bureau of Indian Affairs
- Bureau of Reclamation
- Bureau of Land Management
- U.S. Fish and Wildlife Service

Partnership Advisory Committee 2004

- LRD – Gene Davis
- MVD - Richard Otto (Retired)
- NAD - Cori Brown (Retired)
- NWD - Greg Miller (Retired)
- POD - Mike Lee
- SAD - Mike Hosey
- SPD - Chris Gallagher (Would really like to retire)
- SWD - Jeff Boutwell

Partnership Program Status 2004

- Lack of understanding of the value of partnering at all levels
- Stakeholder listening sessions in 2000
 - “Agency culture is bureaucratic and self-serving”
 - “Processes are daunting”
 - “Corps does not partner like a partner”
- Established national committee to evaluate existing policies, authorities and develop new strategies

Redefined “Partnership”

- A handshake, not a hand out
- Partnerships are a part of our culture
- Combines individual strengths to accomplish the mission
- Fosters relationships, common goals and working together

Redefined “Partnership”

- Builds constituency and broad-based community support.
- Leverages resources to meet challenges and improve opportunities.

Partnerships are a smart way of doing business.

The Partnership Philosophy

The U.S. Army Corps of Engineers plays a key role in shaping the future of our Nation's water resources. Our partners are essential in making this happen. We recognize that partnerships must flow in both directions. Cooperation and collaboration are the keys to innovative solutions to meet a diversity of need. When we put our heads together, we can find answers far better than anything we can think of ourselves.

Partnership Advisory Committee Strategies

- Policy - Revise regulations and develop legal primer
- Authorities - Legislative package modeled after other federal agencies authorities
- Training - APPL Workshop
- Funding - Non-appropriated funding source for multi-year efforts
- Incentives-Handshake funding, special items tag, performance measures
- Interagency collaboration team

Issues and Challenges

- Reduced funding, aging infrastructure and increasing customer demand
- Current organizational system results in different policy determinations
- Lack of clear policy guidance and poor decision making processes
- Lack of institutional knowledge
- Lack of basic authorities available to other land management agencies
- Inconsistency of interpretation of policies between districts and offices within the districts specifically with OC, RE etc.

Authority Needs

- Expand challenge partnership authority to include leased lands.
- Allow USACE to advance a percentage of funds or other resources to promote broader participation in cost share partnerships.
- Broad authority “to provide assistance to, and to cooperate with, federal, state and public and private agencies and organizations” for mission related purposes.

Authority Needs

- Authorize the cooperative production of educational and interpretative program materials with interpretive associations.
- Permit and prescribe conditions for expending funds outside (but directly related to) fee owned lands.
