US Army Corps of Engineers
BUILDING STRONG®

Partnerships with the Military

- The Corps of Engineers is dedicated to encouraging the use of Corps recreation resources by the military and their families.
- Increased public awareness of Corps recreation programs, including increased awareness by Department of Defense and Armed Forces Commands, is a high priority.
- **RECREATION STRATEGIC PLAN**
Goal 2.4 - Strengthen relationships with military installations to meet the needs of both military families and the recreating public to foster use of Corps facilities by active duty, retired, and reserve military veterans and families.

Two Programs to Bring Wounded Warriors to Work at Your Project

- Goals – Help in recuperation of wounded warriors by putting them to work; help in transition back to active duty or in the separation from the Army; allow federal agencies to help in the process
 - Operation Warfighter (OWF)
 - **DoD program** that includes all branches of military
 - Warriors in Transition Program (WTC)
 - **ARMY** program

OWF Program Objectives

Operation Warfighter: A Department of Defense internship program that places wounded, ill, and injured Service members in supportive work settings that:

Positively impact the recuperation process through the return to work.

Augment employment readiness of participants as they return to duty or separate from the military.

Enable Federal government agencies to better understand the skill sets and challenges of transitioning wounded, ill and injured Service members.

Internship Overview

Service members are matched with assignments that consider their interests and utilize their skills, thereby creating productive internships beneficial to both the participant and the employer.

Employer pool is limited to Federal agencies. Salaries are paid by DoD.

DoD will provide necessary security clearances.

DoD will assist in facilitating transportation.

OWF Partners with the DoD Computer and Electronics Accommodations Program (CAP) to ensure participants equal access to the information environment.

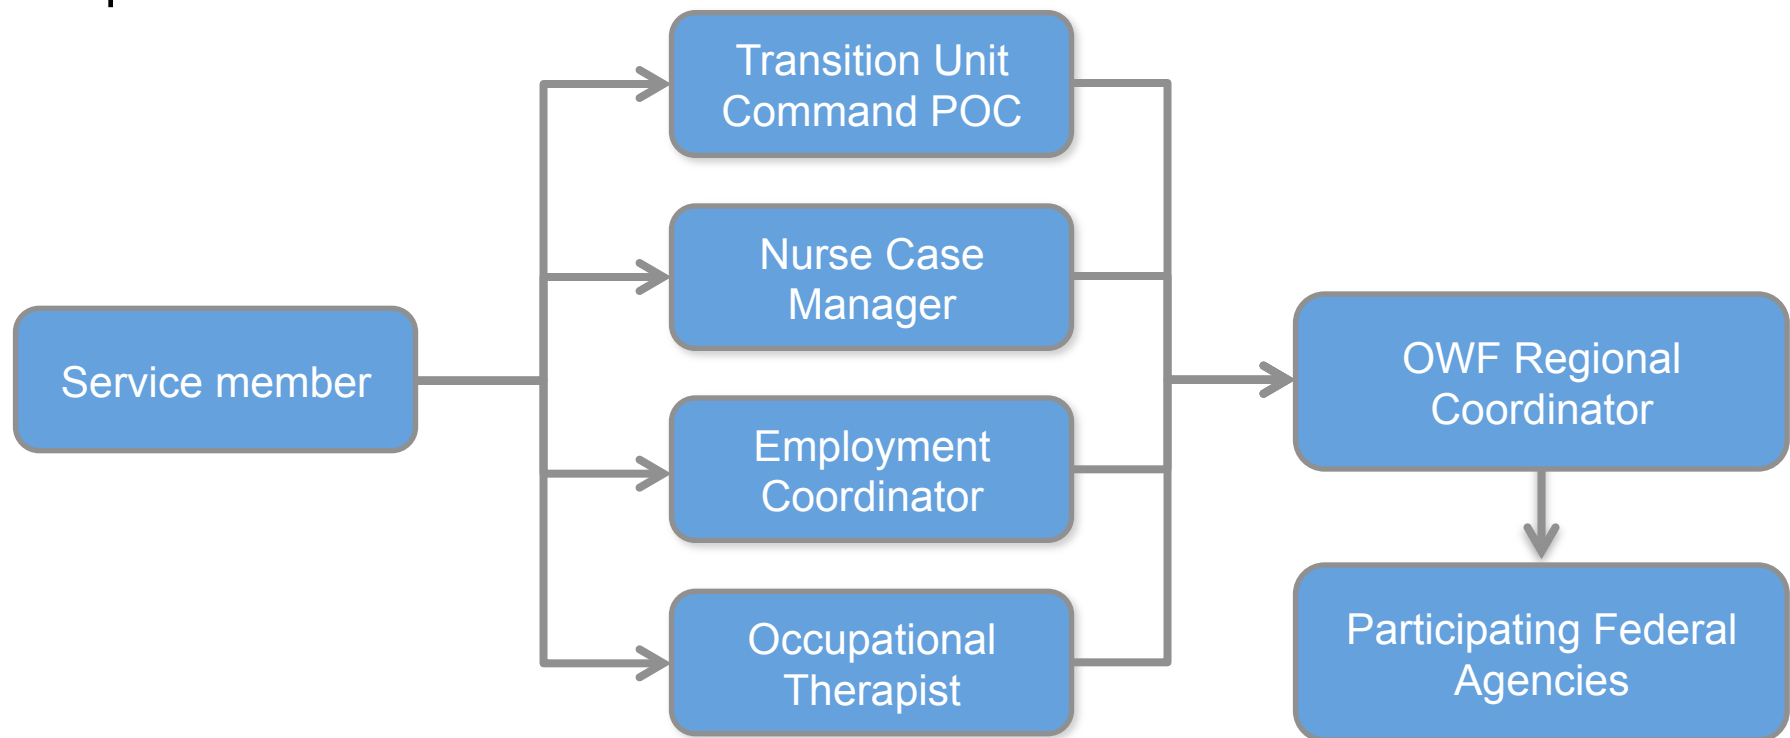

Service Member Eligibility

- **Wounded, Ill and Injured (WII)** — Open to all wounded, ill, or injured Service members assigned to a Military Treatment Facility, an Army Warrior Transition Unit, the USMC Wounded Warrior Regiment, the Air Force Wounded Warrior Program, or the Navy Safe Harbor Program.

Medical Clearance Process

Each Service member must be determined to be medically ready to participate in OWF and under no circumstance will internship assignments interfere with a participant's medical profile or adversely affect recuperation.

Benefits for Service Members

- Gives transitioning Service members a vision to the future.
- Builds their resumes
- Explores employment interests
- Develops job skills, benefiting from both formal and on-the-job training opportunities
- Valuable federal government work experience
- The program strives to demonstrate to participants that skills obtained in the military are valued and transferable into civilian employment.
- For Service members who will return to duty, the program enables them to maintain their skill sets and provides the opportunity for additional training and experience that can subsequently benefit the military.

Benefits for Employer

- Demonstrate support for the military service and sacrifices of wounded, ill, injured Service members.
- Access to the talent, dedication, and considerable military and non-military skills of participants.
- A vehicle for the permanent recruitment of transitioning Service members in support of the Executive Order on the Employment of Veterans in the Federal Government (NOV 2009).

Successful Outcomes

- Many agencies have **hired wounded warriors into permanent positions** as they “graduate” from OWF and transition out of the military.
- Many participants have indicated that OWF, as a wellness activity, restored a sense of normalcy and **eased the transition back to work.**
- Not just about employment – Placing wounded, ill and injured Service members in supportive work settings outside of the hospital environment **positively impacts the recuperation process.**

USACE-OWF Intern Process

1. Request Form

- Official request from orgs participating in OWF
- Allows coordinator to match appropriate candidate

2. Selection

- Org will receive application(s)
- Make selection IAW best practices:
<http://www.wtc.army.mil/employers/interviewing.html>

3. Placement Form

- Captures Critical information about internship
- Acknowledges agreement to terms & conditions

4. Intern Development Plan

- ID specific tasks and goals related to desired experience
- Bridges gap between requirements and skill set (Skill Gap)

5. Evaluation

- Collect feedback on intern performance
- Assess effectiveness of program

6. Record of Achievement

- Officially documents time and accomplishments
- Tool to use as they begin their career search

BEFORE YOU SIGN UP!

Gaining Organization Checklist:

NEED

- Identify area of need
- Develop position description & activity hazard analysis

WORKSPACE / LOGISTICS

- Locate/identify appropriate workspace
- Locate/identify appropriate equipment
 - Computer: (If none available, will have to order new)

COORDINATION

- Identify proper chain of command
- Will be responsible for reporting procedure

Put that unusual skill to use

- Wounded Warrior Travis Barnett participates in the unmanned aerial vehicle program in SAJ
- IDs prop scarring on manatees and digitizes into ARC GIS so planners can accurately quantify scarring
- Locates & IDs plant species
- Performs maintenance on UAVs
- Developed a comprehensive UAV training program for new pilots and ground station operators.

Warrior in Transition Program - ARMY

Warrior Transition Units

- More intensive multi-complex medical treatment
- Treatment takes place at major military treatment installations
- Focus on healing to transition back to the Army or to civilian status
- WTUs provide personal support to wounded Soldiers who require at least six months of rehabilitative care and complex medical management.

Community Based Warrior Transition Units

- Typically Army Reserve and National Guard Soldiers
- Do not need the day-to-day medical management provided by WTUs on Army installations
- Enables the Soldier to recover & transition closest to his/her personal support network or in his/her home

For a Soldier, coming home from a deployment is never easy, but coming home with an injury is even harder.

Officials at Fort Riley in Kansas are working with the Welcome Home to Heroes Foundation and the U.S. Army Corps of Engineers Kansas City District at Milford Lake to make that transition just a little easier.

By Scott Saunders and Diana McCoy

Fort Riley has taken the Army Wounded Warrior Program (AW2) and adapted it locally with their Project WIN (Warrior Intern Network). Project WIN is designed to help transitioning wounded Soldiers

Other Opportunities

Operation Purple Camps

- Operation Purple camps offer a free week of summer fun for military kids with parents who have been, are currently, or will be deployed. The goal is to give military children tools to help deal with the stresses that result from a parent's deployment, through a memorable camp experience in a "purple" environment.

Operation Honor Card -

- Corps volunteers can show support of military soldiers, wounded warriors, veterans, and their families by pledging their volunteer hours as a token of appreciation for their service to the nation.
- Individual volunteers can
 - pledge and track their hours online www.honorcards.org
 - should include the code: "USACE" to indicate that they are volunteering hours for the Corps of Engineers

Military Partnerships

The Corps of Engineers is dedicated to encouraging the use of Corps recreation resources by the military and their families. Increased public awareness of Corps recreation programs, including increased awareness by Department of Defense and Armed Forces Commands, is a high priority.

Goal 2.4 of the [Corps Recreation Strategic Plan](#) is to “Strengthen relationships with military installations to meet the needs of both military families and the recreating public to foster use of Corps facilities by active duty, retired, and reserve military veterans and families.”

The Corps will contribute to the readiness and resilience of military members and their families through their participation in activities and programs at Corps lakes and rivers. The Corps will strengthen its unique relationship with the U.S. Armed Forces by expanding recreation programs and services for military members and their families. The Corps will promote safe and healthy outdoor recreation opportunities at Corps projects to all U.S. Armed Forces personnel, military families, and veterans.
