

NRM hit a grand slam with the "HQ Park Ranger Day" exhibit on 31 July - 1 August 2019. Many Commanders in attendance described this outreach and promotion of our program as "awesome." The exhibit was staffed by Amber Tilton and Derick Walker with assistance from Jeremy Crossland who brought interesting invasive species items, and Heather Wood who volunteered as Bobber. This event also debuted the new "Park Rangers: A USACE Legacy" panel developed by the Park Ranger CoP Advisory Board.
